TRI-WEEKLY.

NO. 147.

CITY OF WASHINGTON, SATURDAY MORNING SEPTEMBER 15,

WOOD GAS, CAUTION. BE it known that I, the subscriber obtained letters patent in December, 1851, for apparatus for the destructive distillation of an apparatus for the destructive distillation of wood, and the making therefrom of tar or pitch at pleasure, and gas; and that in the judgment of competent persons the invention of an appartus recently patented by W. D. Porter cannot be used by him or any other person without infringing my said patent. And, further, that what to patented by said Porter rightfully belongs to me, as I expect to prove ere long before the United States Patent Office; and, further, that the use of said Porter's invention involves also a process which I am now claiming before the United States Patent Office, and which has been adjudged to be patentable to the first inventor thereof, and which said W.D. Porter has formally disclaimed, as ap-pears upon the public records of said office, of which an official copy is hereto annexed, and also

a copy of his claims.

In the National Intelligencer of the 25th instant Mr. Porter announces that he has secured by patent the "exclusive right to making gas from wood," and threatens presecution to all parties infringing his patent. I ask how this statement infringing his patent. I ask how this statement comports with the fact of my patent of December, 1851, and how far the threat can intimidate under such circumstances? Mr. Porter's claim is based upon a movable perforated diaphragm, and was so understood by the Patent Office, as it appears from the records of the Patent Office that his claim was at first refused as interfering with a prior patent to Robert Foulis, of Canada, for an equivalent contrivance. This claim, as given below, and in which the perforated diaphragm is the saving clause, is what Mr. Porter calls securing the "exclusive right to making gas from wood."
The statement carries absurdity on its front, and is a libel on the good sense of the Patent Office If such a claim or right had been granted, it would forbid every coal-kiln and charcoal manufactory

patent has been granted heretofore for the exclusive right of making gas from wood. It would, however, be unjustifiable to expect me to make an extended investigation to answer your re-

WASHINGTON SENTINEL." I PROPOSE to publish in the city of Washing-ton, in September, a political newspaper, un-der the name of the WASHINGTON SENTI-

In doing so, it is proper I should make known the principles it will maintain, and the policy it will advocate.

It will support cordially and earnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Depart ment of the Government, except in so far as an independent maintenance of the doctrines of that party may represent its opinions and express its

It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public apport by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnaion of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United

The SENTINEL will maintain, as a fundamental truth of that great party, that the States formed the Union between them by the ratification of the Constitution as a compact; by which, also, they created the Federal Government, and delegated to it, as their common agent, the powers expressly specified in it, with an explicit reservation of all others to the States, or to their separate govern-ments. The exercise of any powers beyond these thus delegated, is, therefore, an usurpation of the reserved authority of the States by the agent or their own creation.

Jovernment, the SENTINEL will sustain the settled policy of the Democratic party. It will labor to inculcate this cardinal doctrine of Democratic in ternal policy:—that this Government will best promote the freedom and prosperity of the people of the States, by being less ambitious to exercise power, and more auxious to preserve liberty; and by leaving to the individual States the management of all their domestic concerns—while it contents itself with guarding the confederacy from external violence, and directing the foreign policy of the country to the promotion of the common interests, and defence of the common rights, and honor of the States composing it.

The SENTINEL will, therefore, advocate a bold and earnest foreign policy, such as the condition of the country demands; but it will advocate it under the flag of the country—nowhere else. Its foreign policy must be consistent with the spotless honor and unimpeachable good faith of the country. To be respectable at home and abroad, and to be great the eyes of the world, it must ask for nothing in the eyes of the world, it must ask for housing but what is right, and submit to nothing that is wrong. It must be liberal and magnanimous to the rights of others, and firm and immoveable in insisting on its own. It must, in fine, be true to its own interests, rights, and honor—it cannot then be false to those of other nations.

To our future brethren of the press we extend the hand of friendly greeting. The Sentinel is the rival of no press of its own party—the personal enemy of none of the other. Chicago, St. Louis, etc.

At Columbus the C. O. Railroad trains connect with the fast trains of the Little Miami Railroad to Xenia, CINCINNATI, LOUISVILLE, etc. At Xenia (on Little Miami Railroad) connection is formed with the trains through Dayton, to INDI-ANAPOLIS, Terre Haute, Lufayette, Chicago.
Roak Island, St. Louis, etc.

Passengers holding through tickets for
Memphis, Vicksburg, Natchez, New Orleans etc.,
which are also sold at Washington, are transfer,

red at Cincinnati to the Mail Steamers on the Ohio. Tickets for Evansville, Cairo, and St. Louis are sold by this route.

FOR CLEVELAND, and via Cleveland to Toledo. Detroit, Chicago, etc., tickets are sold, when the Ohio is navigable between Wheeling and Wellsville (forty miles) where a connection with the Cleveland and Pittsburg Railroad is made. Travellers are requested to notice that while this is the only route affording through tickets and checks in Washington, it is also the shortest, most speedy, and direct to nearly all the leading points in the great West. The distance from Washing-

mont. Oakland, and Fairmount, passengers may leave Washington at 6 a.m. or 4½ p.m. For the ninor way stations between Baltimore and Wheeling, take 6 a. m. train from Washington. IF For trains to and from Baltimore, Annapolis, etc., see special advertisements.

A (1.600 Acres) for Sale.—Having leased for a term of years, "The Fauquier White Sulphur Springs" to persons whose high reputation warrants the belief they will be kept in the best style, the undersigned now offers for sale the valuable

farm which surrounds the Springs.
It contains upwards of 450 acres of low grounds -remarkable for extraordinary crops of corn, and capable of being made the best possible meadows. As part of this land yielded 100 bushels of a single acre, in 18 3, the twelfth year of successive cult vation, without manure; and in 1854, bad as was the season, produced 70 bushels—the Farm is easily susceptible of division, and is certainly on of the best in Virginia.
Terms: One-third on the 1st of December next

and the balance in one and two years thereafter with interest from date of delivery. For further particulars inquire of the subscriber, by letters addressed to "Warrenton Springs, Virnis," or to Washington, D. C. May 1--ti THOMAS GREEN. NEW WORK on the Catholicity of the

TREBLE PATENT IMPROVED EYElet Machine.
First patent combined on one stock

Third patent, patent improved fastener, riveting

Second patent, self-feeding in the eyelets

All parties in want of a good Eyelet Machine are strongly recommended to use none but "Lipman's Patent Improved," which is decidedly the best ever brought before the public, possessing umerous advantages, viz:

It punches the hole well and to fit the Eyelet

and in one operation clinches the Eyelet on both

It saves time, as the papers, &c., need not be reversed or turned over to clinch the Eyelet a second time, as is the case with all other ma-

papers, as well as to the attorney or conveyancer, the shomaker, tailor, miliner, and numerous others, and is a very labor-saving machine.
