

THE SYMPTOMS OF LIVER COMPLAINT THE SYMPIUMS COMPLAINT
Are a bitter or bad taste in the mouth, pain in the back, sides or joints, often mistaken for rheumatism; sour stomach, loss of appetite, bowels alternately costive and lax, headache; loss of memory, with a painful sensation of having fatied to do something which ought to have been done; debility, low spirits, a thick yellow appearance of the skin and eyes; a dry cough, often mistaken for consumption.

Sometimes many of these symptoms attend the disease, at others very few; but the Liver, the largest organ in the body, is generally the seat of the disease, and if not regulated in time great suffering, wretchedness and death will ensue.

The Baltimore Episcopal Method!st:

"Simmons Liver Regulator is acknowledged to have no equal as a Liver
medicine, containing those Southern
roots and herbs which an all wiss
Providence has placed in countries
where Liver diseases prevail."
