IN THE CIRCUIT COURT OF THE FIFTH JUDICIAL CIRCUIT, TERRITORY OF HAWAII AT CHAMBERS-IN PROBATE

Probate No. 805.

In the Matter of the Estate of
BENITO VERA CRUZ, late of Lihue,
County of Kauai, Deceased.

Order of Notice of Hearing Petition
for Administration

ON READING and Filing the Petition of CHU KONG of Kapaa, District of Lihue, County of Kauai, Territory of Hawaii, alleging that said Benito Vera Cruz, late of Lihue, said County and Territory, died intestate at said Lihue on or about the 12th day of March, 1920, leaving property in the Territory of Hawaii necessary to be administered upon, and praying that Letters of Administration issue to EDWARD FOUNTAIN, of said Lihue;

IT IS ORDERED that Saturday, the 12th day of March, A. D. 1921, at 9 o'clock A. M. be and hereby is appointed the time for hearing said Petition in the Court Room of this Court at Lihue, County of Kauai, at which time and place all persons concerned may appear and show cause, if any they have, why said Petition should not be granted; and that notice of this order be published for three successive weeks (four insertions) in the "Garden Island" newspaper in said Lihue.

Dated at Lihue, County of Kauai, T. H. February 8th, 1921.

(Sgd.) WILLIAM C. ACHI, JR.,
Judge of the Circuit Court of the Fifth Circuit.

(SEAL)

Attest:
(Sgd.) JOSEPH ANDRE SOUSA,
Clerk of the Circuit Court of the Fifth Circuit.

NOTICE

The class in Reed Basket making, under the instruction of the Misses Hardell and Barker, will meet Friday evening at seven o'clock at the Lihue Dormitory, instead of Friday afternoon.

FLORIDA FOR SUGAR

We have heard from time to time, a source of sugar supply for America, of the great possibilities of Florida as or even for the world. A recent number of "Facts about Sugar" reproduces an address by Dr. Blackman, a sugar man of intelligence who seems to know what he is talking about, in the course of which he says substantially: "There are three fundamental conditions for the successful cultivation of sugar, climate, soil, and labor."

Climate
The climate of Florida is the best in the United States. A large part of Florida is better than Louisiana, where sugar has been grown successfully time out of mind. There is an abundant rainfall, which fortunately comes during the summer when the growing cane needs it most, and is largely lacking during the winter months when the cane is ripening and might be injured by it. And finally there is plenty of sunshine. Florida is famous as the land of sunshine.

The Soil
There is a considerable variety in the soils of Florida. There are some 6000 square miles of Everglade bottom lands of the richest character that would make most excellent sugar land. Some of this will have to be drained, but that can be easily and expensively done. There is another 6000 square miles of high, middle and low hammocks covered with a heavy growth of hard woods.

While not so good, this is also suitable for cane.

DISSOLUTION OF CO-PARTNERSHIP
Notice is hereby given that the Co-partnership known as the Kapaa Wine Co. of Kapaa, Kauai, was dissolved by mutual consent on the 27th day of January 1921.

C. W. SPITZ
C. B. GRAY

able for cane.

Another 6000 square miles is known as the prairie or Savannah region, which is excellent land.

Altogether, it is well "within the bounds of truth to say that Florida has 15 or 20 million acres of land eminently suitable to the cultivation of cane." These lands can be depended on to give about 30 to 40 tons of cane to the acre, which is more than Cuba or Porto Rico or Louisiana does, though it falls short of Hawaii. The richest cane ever analyzed by the Washington Bureau of Chemistry came from Florida. Unfortunately, we are not given the definite figures, nor are we told how many tons of cane it takes to make a ton of sugar. The sugar content however is said to be fully equal to that of Hawaii.

Labor
Except for harvesting, much labor would not be required. The land is level, free from stone and otherwise easy of cultivation.

The harvesting season fortunately falls in the winter when the demand for agricultural labor throughout the States is at its lowest. Owing to its mild climate there is a large influx of labor to Florida during the winter months, and probably very large quantities of it could be brought in from the frozen and hibernating north to meet the requirements of the grinding season. Meantime there is a considerable amount of native negro labor available at reasonable wages.

Land may be found in various parts of the world which meets more or less fully the demands of sugar culture, but nowhere else is there a solid body of unoccupied, or scantily occupied land, which meets these demands in anything like the degree that Florida does.

If the production of cane sugar is profitable anywhere, it will be profitable in Florida.

"But the successful cultivation of sugar in Florida will depend on our people more than on our soil and climate." Though it costs four times as much to raise an acre of cane in Hawaii as in Cuba, three times as much as in Louisiana, and twice as much as in Porto Rico, the cost of the cane produced is less in Hawaii than in Louisiana or Porto Rico and little more than in Cuba. The rea-

Personals

Ralph Johnston, income tax expert arrived by the Kinau this morning to attend to the income tax returns of his Kauai clients. He was accompanied by Mrs. Johnston.

A. V. Gear, deputy territorial auditor came over by the Kinau this morning on his periodical visit of examination of the territorial accounts on Kauai.

E. B. Chillingworth, A. K. Gandell, J. C. Cockett and Mr. and Mrs. E. Fountain were among the Kauai folks returning from Honolulu this morning.

Dr. E. C. Waterhouse, of Honolulu, arrived this morning.

Mrs. O. R. Olsen, of Lihue, returned from Honolulu this morning. She was accompanied by her mother, Mrs. Mary Peterson.

MR. and MRS. CHAS. A. RICE
ENTERTAIN PRINCESS

Mr. and Mrs. Chas. Rice entertained the Princess Kawananakoa and her party at dinner at Kalapaki Monday evening. Those present were Princess W. Kawananakoa, Judge and Mrs. Achi, Jr., Senator Wise, Palmer Woods, Mr. and Mrs. W. H. Rice, Jr., Mr. and Mrs. P. L. Rice, Mr. and Mrs. C. M. V. Foster, Mr. and Mrs. Chas. A. Rice, Miss Edith Rice.

MCBRYDE LEAGUE GAMES

The McBryde baseball league season, which opened on Sunday, January 6th, is stirring up a lot of interest in that section. It is the intention of Welfare worker Tillie, to pick a team from the four now playing, to represent McBryde plantation in the Kauai League this season.

The standing of the teams is as follows:

	P	W	L	Pc
Wahawa	2	1	1	500
Kalaheo	2	0	2	000
Landing	1	1	0	1000
Eleele	1	1	0	1000

son is that more brains have been mixed in the sugar industry in the Hawaiian Islands than anywhere else on earth. The crucial question for Florida will be whether she can infuse that same intelligence, skill and energy into the business.
