HOW A GAME OF CHESS HELPED COLUMBUS TO DIS-COVER AMERICA.—According to the old Spanish tradition, Columbus's discovery of America is mainly due to a hard fought game of chess. Ferdinand of Spain passed the latter hours of the day over the chequered board, his principal antagonist being an old grandee, whose skill put the monarch's powers to a severe test. Columbus had long been dancing attendance at the Court in pursuance of the one simple a severe test. Columbus had long been dancing attendance at the Court in pursuance of the one aim of his life—the grand expedition in search of a new world—and although he had bitherto failed in his aim, yet he had enlisted the sympathies of the good Isabella. Ferdinand was one of those matter-of-fact men, who object to furthering the schemes of enthusiasts, and withheld his consent to a New World expedition being formed. Poor Columbus would long before have sought assistance elsewhere, but Isabella prevented him, and redoubled her efforts with her husband. The day arrived when the great navigator was to receive his final answer; he wended his way towards the palace at nightfall more with the intention of bidding adieu to his royal patroness, than from any hope of success with Ferdinand. Isabella had not, however, resigned herself and Columbus to defeat, and, on the latter's arriving, she immediately sought the King, who, being absorbed in a hardfught game with the aforementioned old noble, was not in a likely mood to be bothered by the application of the importunate sailor. The Queen's interruption not in a likely mood to be bothered by the application of the importunate sailor. The Queen's interruption had the effect of merely distracting the monarch's attention, causing him to lose his principal piece, which was followed by a volley of imprecations on suitors in general and Columbus in particular. The game grew worse and worse, and defeat seemed imminent. Now Isabella, without ever playing, had picked up considerable knowledge of the game by watching her husband and the nobles, and when Ferdinand told her that her protege should be successful or otherwise, according as the game resulted, she immediately bent all her energies upon the board. The contest had been unusually long, and the courtiers clustered around the table, amused at the excitement of the King, and the quiet satisfaction of his antagonist. And so the game went on, which was to decide the discovery of a new world, until Isabella leaned towards her husband's ear and whispered, "you can checkmate him in four moves." In the utmost astonishment the King re-examined his game, found tonishment the King re-examined his game, found that his wife's assertion was correct, and announced a few minutes subsequently that Columbus should depart on the voyage of discovery, with the title of "Admiral of the Fleets."—N. Y. Tribune.

TERRIBLE EXPLOSION AT HAVANA.—From Havana, by way of New Orleans, we have news that the naval magazine, containing an immense quantity of powder, shells and rockets, exploded on the 29th ult., shaking the whole city, killing twenty-eight persons, and wounding one hundred and five. Many other persons were supposed to be beneath the ruins. Nineteen new sugar houses were totally destroyed, the gas works rendered useless, involving the city in total darkness, and many other building were shattered.

GOVERNMENT CAMEIS.—Forty-nine of the camels belonging to the United States are now at Camp Verde, sixty miles from San Antonio. Only one of those imported has died, while ten have been added by birth. These young American camels thrive well, and promise to grow up equal in all respects to those imported.

CAPT. ROBERT BROWN'S WHALING GUN, PATENT BOMB LANCES AND GUN HARPOONS.

AFTER SEVERAL YEARS LABOR AND experimenting upon whales, on the whaling ground, with his apparatus, combined with the advantages of being a practical whaleman, the Patentee has been enabled to obtain an instrument in form of a Bomb Lance, which for utility and effectiveness cannot be excelled.

The attention of Agents and Officers of whale-ships is called

SAN FRANCISCO, January 10, 1856.

CAPT. R. Brown-Sir. I take this opportunity to inform you that we used those Bomb Lances we bought of you, and bound the same than the s nd them to be of great senefit in capturing whales amongst The first whalt that we used the Bomb Lance on was killed in the following manner. —The boat went alongside of the whale and the boat-steerer fired a Bomb into him and then fastened to him with a gig iron: the Bomb was heard to explode, and the whale did not blow after the Bomb exploded. The above-mentioused whale was in the ice, and it is our opinion that we should not have got that whale and many others that we did get, if it had not been for your Bomb Lances, and we fully recommend them to the attention of those fitting out whale ships.

Respectfully yours,

Thomas Wall, Master bark George.

HONOLULE, March 17, 1856.

CAPT. ROBERT BROWN—My dear Sir: I used your Bomb
Lances in taking a whale, north, the past season, which made
250 bbls. of oil. We never could have taken him without said

Yours Respectfully, G. L. Cox, Master whale-ship Magnolia. HONOLULY, March 15, 1856.

CAPT. ROBERT BROWN—Dear Sir: I take this opportunity to inform you that I used your Bombs on the voyage in the ship Heraid, and found them effective in taking whales, and would recommend them to all whalemen, and especially around the ice. I also used the harpeon and got most of the whales by your Gens and apparatus.

Yours Respectfully, ISAAC ALLEN, Master ship Herald. Other testimonials can be seen by calling on the undersigned, Agents, who have the Guns, Bomb Lances and Harpoons for R. COADY & CO., Honolulu.

To the Owners, and Persons Interested in Whaleships in the Pacific Ocean.

OFFICE OF THE PANAMA BAIL-ROAN COMPANT,
NEW YORK, July 20, 1857.

The Panama Rafil-Road Company takes this method of informing those interested in the Whaling business, of the advantages offered by the Railroad across the Lethmus of Banama, for the shipment of Oil from the Pacific to the United States, and for sending outlits and supplies from the United States to Panama.

The Haliroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleships has recently been turned to the subject of shipping their oil from Panama to New York during the present season, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Pier, 450 feet long, has been built in the bay of Panama, to the end of which Freight Cars are run to receive cargoes from lighters or vessels lying alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-sailing brigs, be longing to the Rail-Road Company, and the Company is prepared to receive oil at Panama and deliver it in New York, under zhrough Hills of Lading at the rate of seven cents per gallon, if received at the Pier, and eight cents per gallon if received in the harbor from ship's tackles, charging for the capacity of the casks, without allowing for wantage. For whalebone, one and one-half cents per pound. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent or Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and the average passages to

2d. Shipment will be permitted to every native who may like for the time and destination that the Captains may contract, without any security or restrictions.

3d. Gold and silver coin of the United States shall be accepted in payment for its full value, without discount, in the same manner as the Spanish, and South and Central American coins.

4th. The said Governor has sent to Thomas Spencer, in Honolulu, all Bills of Exchange that Captains had deposited in the Governor's hands for security of natives shipped in 1856 and '57, for the purpose of distributing to every Captain, and to cancel their contracts.

their contracts.

5th. The Governor also intends, for the benefit of Captains, to the his residence, during the present year, to the Agat Bay, on the south part of the Apra Port, and no more distant from it than one mile. The said Bay is a very good place for anchorage without a pilot's assistance. Boats can land and take water, without a pilot's assistance.
