## pits: Fits!

Hart's Vegetable Extract,

Is the only remedy that can be relied on for the per manent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affec-tions, Apoplexy, Paralysis, General Debility, Defi-ciency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all

Epilepsy, or Falling Sickness,

Hysterical Fits, Convulsions, Spasms, &c.
This disease consists in a sudden deprivation of the senses, accompanied with a violent convulsive mo-tion of the whole body. It attacks by fits, and after a certain duration goes off, generally leaving the suf-ferer in a stupor, attended with great weakness and exhaustion of the body.

Doctor Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most Skillful Physicians of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all discoveries was made by Doctor S. Hart, nearly sixteen years since, during which time it has been performing some of the most or proluse expectoration and pain in the side, &c., have and can be cured. Monthly Bulletin, No. 3.

THIS world has ever been the scene of the fircest A struggles between Truth and error. No sooner expressing gratitude and surprise at the wonderful does Truth propound an important theory, than error, with its legion of allies, seeks to arrest its gress. A most illustrious instance of this, was the opposition made to the immortal JENNER. His master mind was led, under Providence, to the discovery of Vaccination, by which that dreadful scourge, the small pox, was robbed of its terrors. He found that the matter from pustules upon the udder of a cow contained a principle which would produce the almost divine results for which he had so patiently and anxously sought. Oppositon arose. Interested persons high in social rank and professional position, ridiculed what they dared not deny! They asserted that many vaccinated persons became covered with hair. and even exhibited horns rand a tail; and that in one case a child ran on all fours, bellowing like a bull.— But the current was soon turned. The British Parliament voted him £20,000 sterling (\$100,000,) and the world sang his praises.

The same spirit has come down to our own time .-Even while we write this Bulletin, interested persons, jealous of the wonderful efficacy and success of The Graefenberg Medicines,

are opposing them. Misguided men! How utterly impossible to arrest their spread. The most extraordinary certificates are constantly flowing in to the Company, from all parts of the country; certificates which have astonished the most respectable citizens. Many of these testimonials have been submitted to gentlemen of great distinction, who have carefully examined them to see that they are GENUINE. Among these, are the names of the Kev. N. Bangs, D. D., o the Methodist Episcopal Church, and Francis Hall, certain, as to give great thankfulness to the afgeneral Depot for the South and West.
