To heighten interest in the puzzle page the Palladium today inaugurates a new contest—the jumbled lines. Scattered through advertisements on this page are numerous lines, all set in black face, which if properly arranged tell a story of value to Richmond Merchants. These lines may easily be found, but the proper arrangement is a difficult thing. Cut them out, paste them on a sheet of paper one below the other in proper arrangement. The person making the neatest and nearest correct arrangement of the lines will be awarded \$1. Bring answers to Palladium office between 10 o'clock this morning and 4 this afternoon. It does not matter whether you are first or last. Neatness in arrangement will count as well as accuracy in properly placing the lines.

WINNER FRIDAY. No answer received was correct. Prize raised to \$6.
