

SEN. LA FOLLETTE NOW ON CAMPAIGN

His Attack on Senator Hemenway is to be Followed on Others Elsewhere.

IS HOT AFTER RILROADS

WISCONSIN SENATOR WILL DELIVER THE SAME SPEECH AT MANY CHAUTAUQUAS THAT HE GAVE AT EVANSVILLE.

[Publishers' Press] Milwaukee, Wis., July 8. (Spl.)—Senator La Follette's attack on Hemenway at Evansville, Ind., Saturday is but a part of his campaign against all Senators who opposed his Railroad Rate bill amendments. He includes Dick and Foraker in his personal attacks which will be repeated in all Chautauqua addresses in the country.

THE EVANSVILLE ATTACK.

Evansville, Ind., July 8. (Spl.)—Senator La Follette, of Wisconsin, made an attack on Senator Hemenway, of Indiana, in a Chautauqua address here Saturday. Although Hemenway introduced the Wisconsin man and occupied a position on the platform while the latter was speaking, Senator La Follette time and time again arraigned the senators who refused to support his amendments to the railroad rate bill. Hemenway was among this number.

In his discussion of the railroad rate bill La Follette declared that the bill did not have a leg to stand on. He said all it could do was to make the rates reasonably equal, but that it had not the power to make them reasonably just.

In discussing the eight amendments to the rate bill which he offered he showed how each senator voted. He said that he intended to do that on all the lecture platforms of the country this summer and let the people know just how the senators voted in favor of corporations.

Called the Roll.
The first amendment he offered he said was one to give the interstate commerce commission power to hire expert engineers so that they could find out the actual physical value of railroad property and the actual cost of maintenance. Upon information thus gained the commerce commission could determine just what a reasonable rate was. Without such information, he said the commission could not set a single rate and make good their claim that it was not unreasonable should they be attacked upon the rate set.

La Follette then called the roll of senators who voted to lay this amendment on the table. Included in the list was Hemenway. The audience laughed when Hemenway's name was read.

On another amendment where La Follette wanted a provision in the rate bill making it impossible for any judge who owned railroad stock to bear a rate case, the speaker again read the roll of senators who voted to lay the amendment on the table. Hemenway did not vote and when his name was skipped, some one in the crowd cried, "Where was Hemenway?" Friends of the Indiana senator express themselves as displeased over the incident.

PRESIDENT AT CHURCH

A CROWD WELCOMED HIM

For the First Time Since Return to Sagamore Hill Roosevelt Goes to Divine Worship—Shook Hands With His Old Neighbors.

[Publishers' Press] Oyster Bay, N. Y., July 8.—President Roosevelt attended church today for the first time since his return home, coming down from Sagamore Hill to morning service in a station wagon with Mrs. Roosevelt, Archie and one of the latter's little cousins. A large crowd of villagers and summer visitors was lined up on the lawn before Christ church when the President arrived and he shook hands with a dozen or more of his old neighbors before entering the edifice. Rev. Charles Henry Webb, of Astoria, who is spending his vacation in camp with 50 boys from his Sunday school, preached the sermon in place of Rev. H. H. Washburn, the regular pastor. She half hundred boys from Astoria was in the waiting line outside the church when the President arrived. After the service President and Mrs. Roosevelt drove back to Sagamore Hill where they passed the remainder of the day.

Raymond Kain Sick.

Raymond Kain, of S. W. 2nd street, was removed to the Reid Memorial Hospital yesterday evening where he will be operated upon this morning for appendicitis.

THE WEATHER PROPHECY.

INDIANA—Fair Monday and Tuesday; variable winds.

OHIO—Partly cloudy and warmer Monday; Tuesday fair, warmer in central and southeast portions; variable winds.

HIS PASSES ARE CUT OFF

MAYOR QUILTS HIS PLACE

Executive of An Iowa Town Don't like Working of New Railroad Rate Bill And Quits his Office Causing Special Election.

[Publishers' Press] Des Moines, Iowa, July 8.—Iowa is having a strange experience with her anti-pass law which went into effect July 4th. The law forbids the acceptance of railroad passes by all public officials and delegates to political conventions. The result is that public officials and delegates to political conventions are resigning their positions by the score all over the state and announce that the pass is of more value to them than the office and the emoluments thereof. The mayor of Tama, one of the largest towns on the Milwaukee railroad has resigned which will necessitate the calling of a special election at considerable cost to the taxpayers.

SOLD LIQUOR IN COURT HOUSE YARD

William Engelbert Arrested for Violating the Liquor Law Yesterday.

HE HAS BEEN SUSPECTED

A HALF PINT OF WHISKEY WAS FOUND ON ONE OF THE MEN ARRESTED WITH ENGELBERT POLICE COURT TODAY.

The Court House yard has been converted into a "beer and liquor garden." At least that seems the natural supposition arising from the arrest of "Ginger Bill" otherwise known as William Engelbert, yesterday afternoon for selling whiskey without a license in the above stated place. He was brought to the "Shrouded Place" where sits Supt. of Police and arraigned behind mysterious portals along with two others, whom it is claimed passed the checks to "Ginger Bill" and received the demanded portion of "Booze."

One of these "other two" had a fresh half pint bottle of pale sizzle water in his inside pocket and it is intimated that he, in order to save himself from being locked up, will appear this morning at the city "bar" and hand over some more checks only of a different nature and stamped somewhat as "State's Evidence."

The police department has had a good sized bunch for some time that "Ginger Bill" has been impersonating a bartender and it was only by the wily work of Dan McManus that the theory was run to earth and the fact, that whiskey was being sold on Sundays in the Court House yard established.

THE GROUNDS ENLARGED.

Several Members of the Chautauqua Executive Committee Laid Out Larger Grounds.

Several members of the executive committee of the Chautauqua formed a "laying-out" party at the Glen Saturday. They decided on the addition to the Chautauqua grounds which is as follows:

From the walnut tree at the end of the street car tracks into the grounds, to the National road, thence west along Main street to a point directly opposite the new house on the second lot west from 23 street; thence straight north to a tangent point on the serpentine road in the Glen, thence straight east to the point of contact with last year's grounds. This addition which takes in a triangle of good area has been necessitated by the many applications which have flooded the executive committee's chambers in regard to accommodations for this season.

Is Recovering Nicely.

Mrs. George Zuttmeiser, who has been confined at the Reid Memorial Hospital recuperating from an operation which was performed upon her sometime ago, has been moved to her home, 1007 S. A street.

FIGURES PREPARED BY CENSUS BUREAU

Shows That One in Every 1,200 of Population is blind More Being Negroes.

PERCENT OF DEAFNESS

MOST OF THOSE WHO ARE DEAF BECAME SO FROM CATARRH—THE CAUSES OF BLINDNESS.

[Publishers' Press] Washington, July 8.—The proportion of blind in the United States is one in every 1,200 of population, and the totally deaf one in every 850 persons. These figures have just been prepared by the census bureau. Among the total number of deaf 2,772 were also blind and 24,369 dumb. In the census of 1890 there were 1,935 deaf persons per million of population.

Of the total number of blind 57.2 per cent were males 42.8 per cent were females. About 55 per cent of the blind reported were totally, and about 45 per cent partially blind.

About 6 per cent of the blind became so after 20 years of age, and only a little more than 30 per cent before 20 years.

Many Negroes Blind.
The number of blind per 100,000 of population was greater among negroes than among whites and greater among the foreign born whites than among native whites.

Negroes constitute 11.6 per cent of the general population and only 5.2 per cent of the deaf.

The percentage of persons engaged in professional pursuits, trade and transportation, and in manufacturing and mechanical industries is larger among the totally blind than among the general population. In these classes of occupations the totally blind show a higher percentage engaged than do the partially blind.

About Deaf and Dumb.

It is shown that 25 per cent of those born deaf can speak and about 62 per cent of these becoming deaf before the ages of five and ten can speak perfectly.

The most important causes of blindness were cataract, injuries, accidents and operations for congenital blindness, old age and sore eyes.

Of the diseases which resulted in deafness the most important is catarrh. Other diseases in the order of diminishing importance were scarlet fever, disease of the ear, meningitis, colds, measles, typhoid fever, brain fever, influenza and malarial fever and quinine.

A THOUSAND AT DUBLIN SUNDAY

There were Twenty Conventions at the Big Tent Revival Yesterday.

MEETING VERY POPULAR

MINISTERS FROM OVER THE DISTRICT WILL BE INVITED TO TAKE PART—LARGE CROWDS EXPECTED THIS WEEK.

The Reed Evangelistic Meeting held its initial Sunday services yesterday at Dublin. The attendance was estimated at 1,000 persons and is claimed as the banner opening night of this section of the state. Rev. Reed preached at the morning, afternoon and evening services. A short sermon was preached by Rev. Nelson, of Grace M. E. church. There were twenty conversions last night and it is expected that there will be many more before the end of the week.

Persons from Richmond, Hagers town, Centerville, Knightstown, Cambridge City, Greensfork and other points along the traction lines, were present. All of the large tent has not yet arrived but it is expected sometime today. When this is put up it is thought that the large crowds expected during the week will be amply protected under the canvas.

No regular program of services has been prepared but the order for today will be: Prayer meeting this afternoon and preaching by Rev. Reed in the evening. It will be the plan to have meetings as many mornings as possible and every afternoon will be devoted to some sort of service. Many ministers of the district will be invited to preach at various times during the week and the Rev. Reed may be heard every night.

Already the meeting has taken on the tone of success and it is expected that there will be hundreds of people visit Dublin this week for the express purpose of attending the services which have attracted wide attention and interest. This sort of meeting seems to be very popular with the country-side as it has the fragrance of the old-fashioned camp meeting and affords them the opportunity of meeting on both a religious and a social plane.

LIVERY BARN BURNED

BAD FIRE AT CAMBRIDGE

Stable Belonging to Arthur Hodfon Consumed by Flames and Seven Horses and Fourteen Rigs Were Lost—Origin of Fire Unknown.

Cambridge City, Ind., July 8. (Spl.)—The livery-barn conducted by Arthur Hodfon, was burned to the ground tonight about 10:30 o'clock. The loss is estimated at \$3,500 which is partially covered by insurance. Six or seven horses were burned to death. About fourteen rigs of various descriptions were also consumed. At one time the fire began to leap around a large gasoline tank which was partially full, but by the quick work of the fire department an explosion was avoided. The origin of the fire is unknown. The property was owned by Al Bradbury.

COMMISSION IS READY FOR WORK

Special Committee to Investigate Mail Matter Rates has Organized.

A PROGRAM IS OUTLINED

EACH ORGANIZATION OF PUBLICATIONS WILL BE ALLOWED THREE REPRESENTATIVES TO PRESENT ARGUMENTS.

[Publishers' Press] Washington, July 8.—The special congressional commission created to investigate, consider and report recommendations to cure existing evils in the second class mail matter formally organized today selecting Senator Penrose, chairman; Representative H. H. Glasie, secretary. The first meeting will be held October 1 in the Holland House, New York City.

The commission will particularly investigate:

1. Whether the revenue from the second class mail matter should not be made commensurate with the actual cost of the service rendered in handling it, and whether its classification should not accordingly be grounded upon practical rather than ideal distinctions.

2. In case second class matter is not put upon a cost paying basis what limitations should be placed upon the matter which may properly be embraced in that class.

3. By what amendments of existing law may the charges which appear to be advisable be most effectively brought about.

It is announced that owing to the great number of publications concerned, it is impracticable for the commission indiscriminately to extend the privilege of the hearing to individual publishers. Each national organization will be heard orally by not to exceed three representatives designated by the organization; and those classes of publications not having regular organizations will be heard through persons who may be regarded as fairly representative.

The commission will likewise call for opinions from such other persons as may in its judgement be capable of giving valuable information or suggestions on the subject. In order to facilitate work the persons designated to appear before the commission will be requested to furnish in advance a brief statement of the points to which they desire to direct attention.

NATIONALS WON TWO

Defeated the Tigers and Then Beat a Team Made up Partly of Giants Players.

The Nationals took advantage of the Athletic Park not being in use yesterday afternoon and won two games, the first from the Tigers by a score of 18 to 5 and the second from a team made up partly of Giants' players by a score of 11 to 2. Hasecoster pitched both games for the Nationals fanning sixteen men in all. Elstro caught him. Heck, Keiner and Slick were the batteries for the Tigers. Benson and Clements formed the battery for the Giants' pick team. Hoelscher umpired the games. Next Sunday before the big game at Fairview the Nationals will play "Those Morgans."

Expects Great Game.

A great game is expected at the Fairview diamond next Sunday when Liberty comes for the second time this season. In a twelve inning contest last month the Liberty team defeated Fairview.

HOME OF CHARLES

PIERSON ROBBED

Thief Saturday Night Got Five Dollars in Money and Much Cutlery

DIDN'T WANT SILVERWARE

LAID IT NEATLY ON THE DINING ROOM TABLE—INDIANAPOLIS STAR AND GREEN APPLES ARE LEFT BEHIND.

The residence of Charles A. Pierson, 47 South 18th street, was mysteriously robbed last Saturday night. Wares to the value of a hundred dollars were stolen.

Sometime during Saturday night a thief entered the house through an open window protected by a screen in the rear of the house. Apparently he made his way directly to the sleeping quarters on the second floor where he entered the room of Mr. Pierson and took his trousers, which were later found hanging upon the kitchen door with pockets turned inside out and 5 cents in change missing. Mr. Pierson, who travels for an Indianapolis cutlery firm, had his sample case at home and these were taken from the house to the barn where they were spread out and the thief selected 12 dozen pocket knives 3 dozen pairs of scissors, 3 dozen butcher knives and 1 dozen razors. Later it was found that a handsome pair of gold eyeglasses belonging to Mrs. Pierson were missing. The silverware, of which there was a quantity, was left neatly laid out upon the dining room table and not a piece missing.

The thief was of a peculiar temperament as he left a bunch of green apples and an Indianapolis Star lying in the barn beside the empty sample cases. The police were notified yesterday morning.

GIANTS DID NOT PLAY

Models From Hamilton Failed to Put in Appearance, Disappointing Good Sized Crowd.

The Giants did not get to add another victory to their ever lengthening list yesterday, on account of the non appearance of their opponents. The Models of Hamilton were scheduled to play here and notwithstanding that Manager Mitchell talked with the Hamilton manager over the 'phone Thursday, making all arrangements for the game, the Buckeye team failed to show up. There was a good sized crowd on hand, which left and went to the Fairview game. Next Sunday the Giants will play the Dayton Tourists, the team that played here on the Fourth.

NEW JERSEY DRY FOR FIRST TIME

Was not a Glass of Liquor Sold in Any Regularly Licensed Saloon Sunday.

NEW LAW IS ENFORCED

PENALTY FOR VIOLATING THE NEW STATUTE IS VERY SEVERE AND SALOON KEEPERS TOOK NO CHANCES.

[Publishers' Press] Jersey City, N. J., July 8.—The highest ambition of the temperance reformer has at last been attained and for the first time in its history the entire state of New Jersey was "dry" today. There was not a glass of intoxicants sold in a regularly licensed saloon in the state during today, according to advices received here tonight, and the victory of the reformers is a most complete one.

The cause has been the enforcement of the new Sunday closing law, enacted at the last session of the New Jersey legislature, and which went into effect today for the first time. Under the law the entire interior of all saloons must be exposed to public view and any saloon keeper violating the law forfeits his license.

Not only that but it is impossible to obtain a license for the same place for a period of a year and this latter penalty is the one that assured the saloon keepers living up to the law. With large sums of money invested in bar fixtures, etc., they were not willing to take a chance so they just let matters rest and those who like a drink once in a while, and who failed to lay in a supply on Saturday either went thirsty today or went to New York where the authorities were more lenient.

WAS PROSPEROUS DECADE

INCREASE IN COMMERCE

Exports Have Increased 88 Per Cent and Imports Have Advanced 71 Percent—The Greatest Increase Was in Manufactures.

[Publishers' Press] Washington, July 8.—According to the bureau of statistics the decade from 1895 to 1905 was highly prosperous in the export and import trade. In that period the foreign commerce of the United States has grown from 1,540,000,000 dollars to 2,636,000,000, an increase of 71 per cent; the imports have grown from 732,000,000 to 1,118,000,000, an increase of 53 per cent, and the exports from 808,000,000 to 1,519,000,000, an increase of 88 per cent.

The importation of food and live animals increased 17 per cent, crude articles for use in manufacturing, 93 per cent; articles manufactured wholly or partially for use in manufacturing 72 per cent; articles manufactured ready for consumption 19 per cent; and articles of voluntary use, luxuries, etc., 58 per cent. In exports products of agriculture increased 48 per cent; manufactures 136 per cent; products of mining, 175 per cent; products of the forest, 117 per cent; products of the fisheries, 36 per cent, and miscellaneous, 66 per cent.

RICHMOND A HAVEN FOR AUTO PARTIES

Hotel and Garage Accommodations Make This an Ideal Stopping Place.

ELIZABETH FOWLER HERE

LAFAYETTE WOMAN STOPPED TO GET SOME GASOLINE ON WAY BACK TO LAFAYETTE FROM NEW YORK.

Richmond is getting popular as a haven for tired and hungry automobilists. Yesterday the city was the hostess for many motor parties which hailed from Cincinnati, Muncie, Lafayette, Marion, Anderson, Dayton, Hamilton, Indianapolis. It is stated by motor enthusiasts that Richmond is one of the prettiest little spots in Indiana and owing to its good hotel accommodations, parks and general air of tranquility makes a pleasant stopping place on the journeys and pleasure trips. Richmond is the only town between Dayton and Indianapolis that can offer visitors the best of garage and hotel accommodations.

Elizabeth Fowler, of Lafayette, passed through this city yesterday morning on her trip home from New York. She has the reputation of being one of the best women drivers of a machine in the state and handles her White Steamer as though it were a needle in a bit of fancy work. Clad in a leather suit and goggles she stopped at one of the local garages and asked for a quart of gasoline, jumped back into the machine and with one twitch of her arm, sent the huge car streaking out of the shed. A few weeks ago she decided that she would drive to New York and back home for the experience and fun of it. She has made the trip so far without serious accident although it has been spiced with some humorous happenings.

FAILED TO WEIGH THE ICE

Two Officials Arrested at Indianapolis Under Court Ruling by Judge Whallon.

Indianapolis, July 8. (Spl.)—Harvey Koonse, secretary of the Koonse & Taylor Ice company, and Charles W. Donson, superintendent of the Consumers' Ice company, were arrested Saturday, charged with selling ice without weighing it.

The arrests resulted from Police Judge Whallon's decision that the managers of the companies instead of the employees should be held responsible for the violation of the city ordinance.

STOPPED AT CENTERVILLE

Stockscheader Family Gave Two Concerts in the Western Part of the County.

Centerville, Ind., July 8. (Spl.)—The Stockscheader family gave a musical entertainment at the opera house on Friday and Saturday evenings. The house was crowded on both occasions and the audience were highly delighted with the performances. The family was encamped on the grounds at the rear of the town hall.

IS INJURED WHILE

MAKING A RECORD

William Waking Thrown From Motor Cycle on Eaton Race Track Yesterday.

CRASHED INTO A FENCE

DARING LOCAL MOTORIST HAD BROKEN THE RECORD AT TRACK AND WAS TRYING TO DO EVEN BETTER.

William Waking, residing at 431 South 10th street and a well known business man and sportsman of the city, met with a very serious accident on the Eaton race track yesterday afternoon when his motor cycle left the incline on the home stretch and hurled him into the picket fence rendering him unconscious for several minutes.

Waking in company with William Clark, left the city yesterday morning for Eaton to smash the reported record time of 1:58 on that track made by James Townsend. Waking succeeded in shaving the time by one second, doing the mile in 1:57. After making this record he had gone around the track working gradually up from a two minute clip with the intention of cutting down his first record. He had taken the curve several times when in some mysterious manner, probably the intense velocity of the speed, the machine refused the curve and crashed into the fence hurling and pinning Waking between the machine and fence.

Was Thought to be Killed.

At first it seemed that Waking had been killed and on the arrival of Dr. J. C. Ryder it was found that Waking was in a very critical condition. Concussion of the brain was the first theory. The machine was demolished. As soon as his condition would permit he was removed by wagon to an Interurban car which was met at 3 o'clock in this city by the ambulance which conveyed him to his father's home on 10th street.

Dr. Marvel of this city attended him and stated last night that he was resting very easily and that he thought that he would be out in a few days.

Waking has done the mile in 1:52.15 on the Earlham track. This track is a quarter mile while that at Eaton is a half mile. On account of the better time made on the local track Waking thought that on a longer and faster track he ought to be able to lower his mark.

In Dare Devil Fashion.

Waking does his record "stunts" in the true and dare-devil manner. When making these runs Waking stands upon a small step about an inch long which are attached to the hub of the rear wheel. With hands spread out wing-wise to the steering corks and his body bent in the shape of an "L" over the saddle he advances the throttle more and more, attaining great speed.

Waking has been somewhat unfortunate in his greetings to new inventions along sportive lines. When the coaster-brake first came out he was the first in the city to have one. In going down the west Main street hill the brake stuck on him and near the bottom hurled him headlong over the handle bars, injuring his arm to such an extent that it was in a sling for several days.

FIVE WEEKS FOR WORK

WALK TO BE EIGHT FEET

THIS WILL ENABLE THE PLOT OF GRASS ALONG THE STREET TO BE WIDER AND MAKE STREET MORE PRESENTABLE.

The work of putting in new cement walks on the north side of Main street in progressing nicely and in about five more weeks the improvement will be completed. The cement work will be of the same quality as that used on the other new cement walks which have been put in during the last few years. Instead of the walk being as wide as the former brick one it will be one foot narrower, making it eight feet. This cut in the width does not spoil the walk as much as it would seem at first thought, but gives more room between the curb and cement, making the grass plot wider and thereby improving the natural qualities of the street.

From now on the work will be pushed as fast as it is possible, it being the intention of Contractor Burkhardt to work two gangs, one going ahead and preparing the way for the following gang which lays the cement. In this manner a great deal of time will be saved. Men who are accustomed to this sort of work are not very hard to find at this particular season of the year and the very best manual labor possible will be at work on this job in a few days. Immediately following the completion of Main street the crew will go to Sheridan street in West Richmond where they will put in a long strip of cement walks.
