ROOSEVELT'S TRIP TO THE ISTHMUS

The Plans Under Way for Journey to Be Made Next November.

EXACT DATE IS NOT FIXED

THREE WEEKS WILL BE CONSUMED — EVERY PRECAUTION WILL BE TAKEN FOR THE SAFETY OF THE EXECUTIVE.

[Publishers' Press] Washington, Sept. 6.—Arrangements are in progress for the trip of President Roosevelt proposes making to the Isthmus of Panama this fall.

The exact date of departure has not been determined upon, but it is believed that the start will be made early in November.

Three weeks will likely be consumed. It is of course, the President's desire to complete his inspection of the canal work and reach here before Congress convenes, December 3.

That the journey may be made safely and expeditiously, the navy department will provide three war ships. Detailed plans have not been completed, but it is likely that the president, Secretary Taft, and several guests will occupy a first class battleship, the members of the Canal Commission another, and newspaper representatives the third which is to be a cruiser. This will enable the president and party to make the trip in comfort, give them healthy accommodations while on the Isthmus and incidentally provide against the possibility of delay through accident to one of the warships.

Xantippe, the redoubtable wife of Socrates, if her contemporaries are to be believed, was as ugly as her famous husband.

Water Superstitions
Superstitions having to do with water are difficult to eradicate. What possible connection can the rise or fall of water have with the duration of human life? Yet when Dickens tells of the death of the child in "David Copperfield"—"it being low water, he went out with the tide"—then the old superstition finds its pathetic revival.

CLIMAX EXPECTED TO DAGO TROUBLE IN WEST RICHMOND

(Continued from Page One.)

not to trouble you any longer than is absolutely necessary, and in return for this we deem it only fair that you do all in your power to keep your neighbors from molesting these foreigners in any way. We feel quite sure that if you will leave them alone, they will not interfere with you during the short period they will reside in your community.

As an additional precaution to you, I have informed the Chief of Police that we will willingly pay for a special officer if he will keep one in your vicinity while the foreigners are there. Very respectfully yours,
R. W. STIMSON, Pres.

August 24, 1906.
Civic League Reply.
The second letter is the reply of the Civic League, and is as follows:

Mr. R. W. Stimson, City:
Dear Sir:—The committee which called on you Friday, August 24th, in regard to the Italians who are being housed on State street in Fairview, made its report to the Civic League Thursday night, and was instructed by that body to communicate with you and ascertain if any progress has been made in regard to removing them.

We wish to impress upon you that while the people of Fairview have been patiently waiting for some perceptible action in regard to these very objectionable foreigners, they are none the less determined that they must be removed.
Our people in Fairview are law-abiding, and we wish to keep them so. The presence of these foreigners in our midst, however, is a disturbing factor in the moral life of our people. Feelings of animosity are aroused, not only against them, but against the corporation which placed them there.

It is in the exercise of these feelings that lead a people to become lawless and disregard the rights of others. That which is the cause of lawlessness must be held accountable for its results.

One of the missions of the Fairview Civic League is to discourage disregard of the law. Another mission of the League is to encourage a friendlier feeling between employer and employee; between capital and labor.

Industrial discontent breeds anarchy. Through busy and contented labor lies the solution of all industrial problems. Through this avenue lies the perpetuity of our nation.

We feel sure that if you consider this question carefully, you will concede the justice of our contention and redouble your efforts to remove them. Respectfully yours,
SECRETARY.

EXHIBIT WILL BE OF INTEREST

Agricultural Products Grown by the District School Pupils.

CASH PRIZES OFFERED

DISPLAY WILL BE MADE AT THE COURT HOUSE ON SEPT. 26, 27, 28 AND 29—MANY CONTESTANTS ARE EXPECTED.

The County Agricultural Exhibit will take place under the supervision of the county schools September 26, 27, 28 and 29 inclusive, at Superintendent Jordan's office at the Court House.

The exhibit this year gives promise of being very attractive as the school children of the county have taken a great interest in it this year and it is thought that the majority of the pupils of the county will be present.

Last spring all the schools were notified by Mr. Jordan, that the exhibit would be held again this year and he asked all the pupils to take part. They were asked to grow various farm products during the summer for the exhibit this fall. Reports from over the county show that many of the school children have done this and the exhibit will be the largest ever held. Supt. Jordan is gratified with the way in which the pupils of the schools have taken to the idea. Prizes are to be awarded.

A SEWER BADLY NEEDED

Fairview Citizens Call Attention to Unsanitary Condition of the School Building.

At the meeting of the Fairview Civic League last night, president Chas. Brown pointed out the fact that the sanitary condition of the Fairview school building was not what it should be as there was no sewer connected with the school, and in time it was liable to cause dangerous diseases among the children. He stated that the attention of the school board should be brought to the matter.

THE WRITERS.

George Bernard Shaw will shortly invade the land which he rebuked for its "Comstockery." He expects to see the first production of his new play, "Caesar and Cleopatra," in America in New York in October.

George Moore, the novelist, who has been writing for the last thirty years, is now fifty-four. He is of Scotch-Irish blood and is the son of Moore Hall, County Mayo. He is said to own 12,500 acres in that Irish county.

Dr. S. Weir Mitchell in writing trusts but little to dictation, writing nearly all he has to say, then submitting the manuscript for a typewritten copy. Four or five clean copies are nothing unusual in the preparation of a manuscript.

An effort will be made in Rome to purchase the house in which Keats, the poet, died and to establish therein a permanent memorial not only to Keats himself, but of Shelley, whose dust lies buried only a stone's throw away from his brother poet's grave.

MEXICANS FEAR BIG UPRISING

No Longer Question That Government is Preparing to Meet It.

THE TROOPS ARE READY

EVERY TOWN IN THE NATION WILL BE CAREFULLY WATCHED ON SEPTEMBER 16, THE DATE FOR TROUBLE.

[Publishers' Press] City of Mexico, Sept. 6.—As the date, September 16, which it is alleged, has been fixed by the opponents of the present administration of an anti-foreign uprising which is intended to discredit this government in the eyes of the world, draws near, it becomes evident that the officials, publicly declaring that they see no reason to apprehend any disturbance, are leaving no stone unturned to checkmate any insurrectionary demonstration.

In every city in Mexico the local authorities have been instructed to keep watch on all persons who are known to have anti-foreign views, and have been instructed to quell any disturbance that may break out immediately. In addition the troops in the various garrisons have been carefully sounded and their loyalty demonstrated. The commanders have also instructions to uphold the civil authorities at all times and governors of states are to be held personally responsible for the protection of all the foreigners at all times.
