

## Provisions Live Stock, Grain and Stock Markets

### RICHMOND MARKETS

"We have made an advance of 10c a gallon throughout the list and anticipate another advance by Monday," was the telegram sent to a local dealer by a Baltimore packer from whom most of the local supply of oysters comes. Storms throughout the oyster country have worked havoc with oyster dredging, and local houses are getting about half as many oysters as they order. Demand is heavy but supplies are not equal to it and local dealers say they do not see how another advance is to be avoided.

In discussing the Chesapeake bay situation, a Baltimore paper says storms over all the oyster grounds are practically stopping the dredging and are making all stocks fall. Prospects, when storms cease, are for a larger and better crop of oysters this year than ever before, but at present it is a matter of weather, and until it makes work more possible there will be a decidedly short supply of oysters coming from the Baltimore district.

Whitefish, black bass, halibut, trout and salmon are leading the fish trade which shows little change from last week. Prices are holding steady and supplies are coming in in just about the right quantities for the trade. Prospects are for an excellent winter trade in fish.

[Publishers' Press]  
Indianapolis, October 25.—Receipts 7,000 hogs, 1,250 cattle and 490 sheep. Against 5,309 hogs, 1,896 cattle and 420 sheep a week ago and 9,549 hogs, 1,113 cattle and 20 sheep a year ago. The marketing of hogs continues of fair average, and the supply today was good for Thursday. All buyers were in the field, but the supply was ample and the bidding steady to 5c lower. There was a poor demand for all kinds of steers, but a good demand for all female butcher cattle and they were easier to sell than for several days. Prices were steady. The best grades of cows, which were scarce, were strong. There was only a fair inquiry for stockers and feeding cattle and they moved slowly at about yesterday's prices. There was a demand for bulls at steady prices, and no change in the calf market, although common veals and heavy grades continued slow sale at low prices.

### CINCINNATI MARKETS

[Publishers' Press]  
Cincinnati, O., October 25.—Cattle.—Quietness continues to rule the cattle market, and business altogether was only moderate, as usual on the fourth day in the week. The few odd lots of good fat stuff and good stocker and feeding cattle represented among the offerings were traded in at unchanged and steady prices, and all other grades at practically any bids buyers felt like making. Good milch cows steady and in fair request.

Hogs—Receipts of hogs were moderate, and under a fair demand from local packers, together with a slight upturn in prices at other places, a steady to firmer tone prevailed and the market opened with packing and butcher hogs selling at yesterday's early range, but light shipping hogs suffered further reductions of 5c on account of very limited demand from order buyers.

**HOTEL FOR BOYS.**  
Institution Where Youngsters May Be Self-supporting.  
Quietly with no preliminary announcement, the real hotel for boys in New York city recently came into existence under the management of Miss Mary Laidlaw Proudfoot, member of a well known family.

It has today eight patrons, proud young fellows, who are office boys, messengers and the like throughout New York, and there is room for six more. For these six vacancies there are so many applications that at the outset it is realized that a larger establishment must be found, and for such a place there is a search being made. There is nothing of charity about the establishment. Each one pays according to his means, and that gives him the privilege of having his own room, his own possessions, with only the restrictions of good conduct and good order to continue him on the hotel register.

Miss Proudfoot is the niece of the late Mrs. Mary Laidlaw, who during her life devoted much of her means to the helping of boys. She established the Eighth Ward mission, where the youngsters were educated and trained, and after her death Miss Proudfoot continued the work.

Each year there come from orphanages and asylums an army of boys to New York. These range from twelve to fourteen years of age, and they go to work at a wage that would not average more than \$3, if that. They must live somewhere, and usually they go to a corner of a tenement room.

This kind of boys are welcomed at the Boys' hotel. Each is expected to put a certain amount into the household fund, and it does not matter how small it is. He is allowed to keep enough of his wages to cover necessary expenses and a little in addition for incidentals.

**Wheat Yields.**  
It is a freak year in winter wheat. Yields have exceeded all estimates. There are also faked reports being sent out of sensational yields, being circulated to depress prices. Spring wheat in the northwest is making good progress toward maturity, but there are a few reports of the crop being injured by blight in South Dakota, around Wiertown and through the Jim river valley. A few reports of black rust are heard of, but weather conditions have not been suitable for the spreading of black rust. Red rust has caused some deterioration by affecting the leaves, and samples of the crop received show loss of vitality. Cutting has commenced in South Dakota—Country Gentleman.
