Inauguration of the New Tunnel Railrond-American Engineers at Berlin-American Polities Discussed.

[Copyright, 1900, by the Associated Press.] PARIS, July 21 .- The torrid weather in the United States has had its duplicate here. During last week the thermometer registered between 90 and 95 degrees, touching the maximum on Friday, 102 in the shade, making it the hottest day ever recorded in Paris. The extreme heat continues to-day without any indication of a break. The streets during the week were deserted at midday and remained so throughout the afternoon by all except business people. Very many cases of sunstroke were treated daily. The efforts to keep cool assume amusing forms. Every man and woman carried a little Japanese fan, known here under the pisturesque name of "The little north wind." Horses wore big sunbonnets and men were attired in the most giry clothing. The Boulevard cafes were crowded up to late at night, their frequenters imbibing iced drinks.

xxx The weather had a very unfavorable influence on the attendance at the exposition. Parisians kept away entirely, and only the provincials here for a short stay braved the sun's rays and conscientiously did the exposition. The big drop in the number of visitors brought about an instantaneous slump in the price of tickets, which sold at 75 centimes when the show opened. They gradually dropped to 45 centimes, at which price they had been stand- lowski was wounded in the throat and the ing for the past few weeks. Yesterday, however, the hawkers had difficulty in securing buyers at 25 centimes, and some sold tickets at 20 centimes, equal to 4 cents | batants was absolutely unable to continue in American money. This slump is a serithe opening of the exposition, took over a large proportion of the 65,000,000 tickets issued at 50 centimes, half their issue price. The exhibition reaches the half-way post on Thursday next and thus far only 15,-600,000 tickets have been disposed of. Therefore 50,000,000 tickets remain. Allowing for the natural increase in consumption during the holiday months, it is still calculated that the banks will have a least 15,000,000 tickets left on their hands. This explains the fall in the price of tickets, which eventually probably will be obtainable at 2 cents each. XXX

"My time has been so occupied," said the archbishop, "that I have not been able to see the exposition, reserving that for my return, but I can say frankly that the American part of the exposition has created a most favorable impression on French minds. In my intercourse with the French people I find that they are of one accord in speaking in the highest terms of our exhibits. One official remarked that | to go to the United States in the fall. had he known to what extent the United States intended to participate no request they made would have been ungratified. It is the first time our government has seemed to appreciate the value of displaying our development and industries satis factorily before the nations of the world. and its result will be immense in the prestige it will give us in the eyes of the other countries and the increase of our commerce."

Paris, which has been one of the most backward cities in the world as regards transportation facilities, this week inaugurated an underground metropolitan railway similar to that in London, with a vast improvement, the motive power being electricity, which obviates the choking atmosphere of the London road. This line will be of great facility, as it crosses the center of Paris. It starts at the Porte Vincennes and runs just north and parallel to the Seine, under the Rue de Rivoli, the Place de la Concorde, the Avenue des Champs Elysee, the Avenue de la Grande Armee to the Porte Mailette, the entrance to the Bois de Boulogne. The journey takes a half hour as compared with an hour by the street cars. The fares are 3 cents for second-class and 5 cents for first-class passengers. Trains run every ten minutes. They are made up of an engine and one first-class and two second-class cars, which are well lighted, as is also the tunnel in which the tracks are laid. The road was inaugurated without ostentation, and even without the knowledge of many Parisians, but, nevertheless, on the first day it carried 30,000 passengers, who enjoyed the low temperature of the tunnel, 65 degrees, while on the streets the mercury stood at 97 degrees.

American Engineers at Berlin-Comment on the Campaign.

[Copyright, 1900, by the Associated Press.] The visiting American engineers have been greeted pleasantly by the German press. The speeches at the banquet yesterday evening are commented on approvingly to-day. Semi-officially it is stated to-day that the praise by the American speakers of the German technical school system here is accepted with thanks, but that this must not lead Germany to stand still. On the contrary, it is added, the system will receive a much needed addition by the establishment of a series of post-graduate technical courses for master bakers, leather manufacturers, brewers, millers, blacksmiths and coppersmiths in various towns.

The German newspapers have this week contained much editorial comment and news regarding the American political campaign and commerce, mainly complimentary except as regards imperialism. The Kreuz Zeltung says: "The United States is now in a new era of political activity, and now encounters unsuspected great hindrances and difficulties, which cause the United States sorrow and anxlety, but which can neither be removed nor overcome harriedly. Spreadeagleism is a species of expensive luxury."

The International Textile Congress this week proved rather a failure, the discord between the English and continental delegates being freely expressed. The continental delegates forced through a socialis tic resolution regarding means of bettering the conditions of the textile trades by oting by nations instead of by the number of delegates, thus overnowering the Francisco legates, thus overpowering the Engish, who nevertheless represented more nan double the number of workers against he whole of the continent. English delenies spoke strongly against the utopian hemes of the continentals, claiming that y were trades unions pure and simple unwilling to mix politics with their trades unions. The next congress was apcointed to be held in Zurich in 1902.

CHAIRMAN JONES USES IT IN RE-FERRING TO DEMOCRACY.

It Has "Patched Up" Its Differences-Callers on Mr. Bryan-A Lincoln Story Denied.

MINNETONKA BEACH, MINNEAPO-LIS. Minn., July 21.-Senator Jones to-day discussed at some length the issues which the Democratic party would present in the coming campaign. Imperialism will be foremost with trusts a close second, but other issues will not be neglected. Continuing, Senator Jones said: "I am perfectly satisfied with the conditions with which we are to enter upon the campaign. I am receiving letters daily from all parts of the country assuring me of the growing strength of the Democratic party and of the general dissatisfaction with the present administration. The people of the country are dissatisfied with the attempts to change the form of government, and want to see an administration that will endeavor to rule according to our Declaration of Independence. They do not approve the attempts to acquire territory, and before this issue other questions of political economy must become secondary matters.

"I believe that the Republican party is coming to know this, too, for in the past few days I noticed a story that the independence of Cuba was to be declared within the next seven months. Why was this not done sooner? Why did we hear nothing of this during the long weary months that have passed, instead of now, while we are

awaiting an election? "I am perfectly satisfied with the outlook. There is a growing discontent with Fight Near Lindley-Little Said the administration and our party is daily growing stronger. means in his power to protect the United States citizens and property there, but I do not believe the people will accept the situation as an excuse to acquire territory there as has been done in the Philippines. The people will not permit the administration to use the present situation as an excuse to participate in the dismemberment of China. As to the calling of a special session of Congress, that lies with Mr. McKinley.

Mr. Jones had nothing to say regarding the plans of his party for the campaign declaring that he could not tell of the plans until those plans were made. He will leave Minnetonka Beach to-morrow night for Chicago, and early next week wili open the Democratic headquarters in that city. During the past two days Senator Jones has had several long conferences with Adlai E. Stevenson, the Democratic nominee for Vice President, and also with several of the leaders in this State. They agreed that, in view of the evident aggressive campaign of the Republicans, it would be wise to get to work as early as possible Senator Jones said the campaign would be fairly inaugurated by the middle of next week.

CAST INTO OUTER DARKNESS.

Populist Demands Rejected by Idaho Democrats-Double Fusion Only. POCATELLO, Idaho, July 21.-The Popu-

lists held an exciting session, this morning, over the rejection by the Democrats, the night before, of the ultimatum sent to them by the Populists. They did not withdraw the ultimatum, but authorized their conference committee to again meet with the others. The meeting of the committees resulted in a deadlock. The Democrats offered the Populists a representative in Congress, auditor and mine inspector, and to the Silver Republicans the Senator and secretary of State. The latter accepted, but the Populists demanded secretary of State and one elector in addition. The Democratic convention instructed its committee to refuse to yield. The Populist convention then, as a prerequisite to yielding, demanded that the Democrats adopt the following resolution:

"Resolved, That we demand the imnediate discontinuance of martial law in Shoshone county, under which the perniclous system of permits to seek employment has been inaugurated, and we demand the abolition of said system. "We further demand that all further civil

and political rights guaranteed by the contitution and the laws be immediately restored to all citizens of our beloved State.' After a sharp debate involving the Coeur D'Alene policy of the State administration. the Democratic convention unanimously voted to close negotiations with the Populists and fuse with the Silver Republicans. The convention adopted its platform, but remained in recess most of the afternoon, hoping the Populists would recede. But the Poulists voted not to recede and late this evening it looks as though there would

not be fusion of the three parties. The platform of the Democrats indorses the Kansas City platform and especially the financial plank, and ratifies the national ticket. It demands the election of Senators by direct vote and indorses the record of the State administration. The platform is devoted largely to State affairs. Senator Shoup is denounced for his | eral Fitzhugh Lee. vote on the financial bill and other measures. It favors compulsory reference of disputes between labor and capital to a nonpartisan board of arbitration. It declares for enforcement of the law and protection of all in enjoyment of their rights under the constitution and laws. The Populists have nominated a full

ticket, headed by T. L. Glenn, of Bear Lake, for representative in Congress and J. A. Ballentine, of Blaine county, for Governor. The Democrats nominated Judge C. O. Stockslager for Supreme Court justice. On the eighteenth ballot they named Capt. Frank W. Hunt, of Lemp county, who served in the First Idaho Regiment in the Philippines, for Governor. The Silver Republicans nominated Fred T. Dubois for senator and C. J. Bassett for secretary of

Illinois Democrats Carry Optimistic

Views to Mr. Bryan. LINCOLN, Neb., July 21.-A party of distinguished Illinois Democrats visited Mr. Bryan to-day and brought to him what they regard as cheerful news on the political outlook in Illinois. The party consisted of General Alfred Orendorff, of Springfield. J. W. Yantis, of Shelbyville, and H. W. Clendenin, editor of the Illinois State Register. They were with Mr. Bryan much of the day, accepting an invitation to visit his farm and later conferring with him relative to his coming trip to Chicago while on his way to meet the notification com-

mittee at Indianapolis. The gentlemen represented the Illinois Democratic state central committee in arranging a programme for Mr. Bryan's entertainment at Chicago, and it was partly to consult his wishes that they came to Lincoln. General Orendorff and Mr. Clendenin discussed political conditions in their State with some freedom. Mr. Clendenin said the Democrats had a fight on their hands and a big majority to overcome in Illinois, but the party leaders were hopeful of electing a majority of the Legislature at least, and possibly the state and

Suicide in a Switzerland County Family-Dr. Casto Acquitted -Fatal Lightning Strokes.

Special to the Indianapolis Journal. EVANSVILLE, Ind., July 21.-Herman Strasser killed his divorced wife, Carrie Long, this morning, and then committed suicide. She had refused to return to him and he had threatened her life.

Telephone wires in the neighborhood of where Miss Long lived were cut by Strasser, and then he went to find his former wife. He got into the house, chased her from room to room and finally shot her through the neck and heart. She dropped dead in the yard.

Two more shots were put in her body and then, facing a crowd that was collecting, Strasser shot himself in the mouth, and fell dead across the woman's body. He was a railroad engineer.

Second Suicide in the Family.

Special to the Indianapolis Journal. VEVAY, Ind., July 21.-Irvin Lock, aged thirty-three, a well-to-do farmer, who lived eight miles from Vevay, last evening committed suicide with a shotgun. Upon his return from Vevay yesterday, about 5 o'clock, he told his wife he was going to hunt for a squirrel or rabbit for supper and left the house with a shotgun. Not returning at dark, the neighbors commenced hunting for him and about 12 o'clock his body was found leaning against a rail fence, the entire top of his head being blown away by the shot. The position of the body and gun showed clearly he had purposely shot himself.

He was a man of good character, temperate and prosperous. His father was accidentally drowned several years ago and his mother hanged herself.

HIGH TRIBUTE TO A JUDGE.

Hancock County Republicans' Indorsement of Judge Offutt.

Special to the Indianapolis Journal. GREENFIELD, Ind., July 21.-Repubheans of Hancock county met in delegate convention here to-day and nominated a county ticket. The convention was called to order by County Chairman Newton R. Spencer. The Rev. J. C. Leech, of the Fresbyterian Church, made the invocation. A. W. Hammer was temporary chairman and Eldon Robb and H. W. Walker secretaries. Committees on organization, credentials and resolutions were appointed and the convention then adjourned until

Col. W. T. Durbin and Representative J. E. Watson were present, and during the recess met with the precinct committees and went over the county situation.

Upon reconvening the temporary officers were made permanent and the following ticket was nominated: Judge, Charles G. Offutt; prosecutor, Ray E. Gerry; treasurer, P. J. May; sheriff, Arthur H. Thomas; assessor, Sylvester Burke; coroner, Dr. Sisson; commissioners, Robert S. N. Oldham and John Ward Walker. The County Advisory Board will be named by a committee later. Charles G. Offutt, the nominee for judge,

is the incumbent of the office, and about a year ago renounced the Bryan Democracy, declaring himself a Gold Democrat. The nomination was made by resolution, of which the following are the salient points: "The duties of a judge being judicial and not political—he having nothing to do with making of laws, but is duly charged with the due administration of the same, and whereas the present judge of the Circuit Court, Hon. Charles G. Offutt has with signal and distinguished ability and learning, faithfully, honestly and impartially discharged all the duties devolving upon him as judge of said court to the satisfaction of the people, thereby placing the court upon a high plane of efficiency, which fact is duly recognized throughout the State, therefore, resolved that we fully indorse Judge Offutt's administration while he has been on the bench; and recognizing in him an able, fearless, competent, conscientious jurist, who ought to be continued in office; not for his own sake merely, but because the people's interest demand it, we therefore indorse Judge Offutt and hereby nominate him for the office of judge. * * and we pledge him our earnest and undivided support, and confidently appeal to the voters of Hancock county, irrespec tive of party, to stand by and support this faithful and efficient public servant. The platform adopted indorses the administration of Mr. McKinley and of Gov-

Special to the Indianapolis Journal. ELKHART, Ind., July 21.-During Friday evening's storm the barn of E. P. Rockwell, three miles from town, was struck by lightning and Mr. Rockwell and a neighbor, William Brandon, who were inside, narrowly escaped death. Brandon was hit and was horribly burned on the left arm, side, breast and leg, and is in a dangerous condition. Mr. Rockwell was not shocked but his hands were burned in trying to rescue Brandon from the burning building Mrs. Rockwell went to his aid and dragged Brandon's limp form away while her husband rescued the horses. Her exertion caused a hemorrhage of the lungs, which became serious. The barn was destroyed:

Dr. Casto had expected acquittal in a few minutes, but for a day had no hope for better than a disagreement.

Special to the Indianapolis Journal. WINAMAC, Ind., July 21.-Ener Enerson, of Medaryville, has entered suit in the Pulaski county Circuit Court against John P. Roberts and Mrs. Bettie Priest, for \$12,500. Mr. Enerson set forth in his complaint that he exchanged 260 acres of land in this county for a tract of timber land in Tennessee and \$1,000 in cash; that on investigation after he went to Tennessee, he found that the present defendants had no title to the Tennessee lands; that he has been paid only part of the \$1,000 in cash, and that Roberts has deeded away the Pulaski coun-

Grasshoppers Raid South Bend Stores

Special to the Indianapolis Journal. SOUTH BEND, Ind., July 21.-The swarms of grasshoppers that swooped down on the city last Monday are causing merchants no end of trouble. In clothing stores they are particularly bothersome They seem to possess an appetite for fabrics of any kind and in several places have damaged suits of clothes on display. Merchants who have had experience with the many pests common in the bus say the grasshoppers are far more destruc-tive than moths or any other insect they have encountered. They work holes in cloth and are very ambitious. As yet no had sought refuge from the storm in a suce of the grasshoppers in such small piece of woods, but it was not until numbers. There is nothing to attract

to the barren pavements of the city, and yet the business district is alive with them.

Linton Railroad Improvements. Special to the Indianapolis Journal.

LINTON, Ind., July 21.-The Illinois Central Railroad put on a large force of carpenters yesterday in the erection of its new \$3,000 depot. The building will be located at the foot of East street, and will be 18x76 feet, containing two waiting rooms, ticket office and freight room. It will be similar in style to the Southern Indiana. This is the beginning of general improvements along the lines, as eighteen new depots are under contract for erection. The Southern Indiana Railroad is now within ten miles of Terre Haute with ballasting the road. An official of the road said regular trains would be put on to Terre Haute, Sept. 1. Linton is now a
