There is another class of symptoms arising from IRRI-TATION OF THE WOMB, which Physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the di ease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpation of the Heart, impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude and Dimness of Vision.

Gents: I freely give you liberty to make use of the folowing certificate of the value of Constitution Water, which can recommend in the biguest manner: My wife, who was attacked with pain in the shoulders, whole length of back, and in her limbs, with Palpitation of the Heart, attended with Falling of the Womb, Dys-menorrhom, and irritation of the Bladder. I called a shysician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine mouths, and while she was under his care she did not suffer quite as much pain; he finally gave her up and said, "her case was incurable." For, said be, "she has such a combination of complaints, that medicine given for one operates against some other of her lifficulties." About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

It threatens a radica change in the institutions and principles upon which the Government was founded, and the destruction of the liberty and rights of the citizen, such as the BROWNING & SLOAN, people of no other nation have enjoyed, and t which may be attributed our unequaled progress in national prosperity and greatness. The issue will soon be upon us, whether this free Government shall be preserved and maintained and the rights of the States under the Constitution perpetuated, or a powerful central authority be permitted to grow out of this war, obliterating State lines, State institutions, and all those checks upon the Federal Government, rights reserved by the States, which have constituted the excellence and supe riority of our nationality-States "one as the sea" for the common objects set firth in the Constitution, but "distinct as the billows" in the management of their purely domestic affairs. These questions were involved in the recent elections, and the voice of the people was most emphatically expressed for the "Constitution as it is and the Union as ji was." Never was there a time when it was so important that the people should be thoroughly advised as to the progress and condition of public affairs and of passing events. A people are not fit for self-government upless with an intelligent judgment they With a large stock of Varnishes, Paints, and Colors of decide upon the questions which affect alike their own

ELDER, HARRNESS, & BINGHAM, Indianapolis, Indiana. LAW BOOKS. STATUTES OF INDIANA.

GAVIN & HORD'S REVISION. The second volume of Messrs. Gavin & Hord's compileion of Indiana Statutes has just appeared. This volume completes their work. Its mechanical execution is ver creditable; and the skill, learning, and labor which the He is also prepared to furnish Meals at all times after editors have bestowed on it, merit the highest praise.

None but learned, diligent lawyers could have produced The second volume embraces all the public statutes of Indians now in force upon the subjects to which it relates, \$150. and the first all excepting the acts of the last regular and extra sessions of the Legislature. The editors have added much to the value of these volof Freedom, &c., &c. Our C TALOGUE, which is run- umes especially the last-by the copious and learned NISHED PREE AS AIR to all who send for it, contains lists notes with which the volumes abound. These notes indiof all our varieties of music, with prices attached. No lady in the country should be without it. Orders by mail cate much labor an legal acumen. They furnish us, in a or express promptly filled, and as faithfully executed as | concise and accurate form, with all the adjudications of though the person ordering were present. Remit money our Supreme Court on these statutes. These adjudications being now very numerous, the references to them in the volumes under consideration; will be of great value to the lawyer, and indeed to all persons concerned in the administration of justice. The editors have also referred, in their notes, to numerous decisions in other States, made on statutes similar to ours.

An excellence of these volumes, not to be overlooked is the full and accurate index appended to each. In Indiana, there never has been a good index to any volumes o statutes published by authority. This provoking defect has been completely remedied in the volumes under review; and these indexes will greatly lighten the labor of all who have occasion to look into our statutes. This is the first time that private enterprise has attempted the publication of Indiana statutes. The attempt, I do not doubt, will be successful, and will duly reward the learned editors and enterprising publishers. Every lawyer will, of course, purchase these volumes;

and every clerk, sheriff, and justice of the peace of the State, will find it to his advantage to own them. DAVID M'DONALD. Indianapolis, June 5, 1862 The toregoing notice by Judge McDonald, of Gaves & Honn's Compilation of the Statutes of Indiana, is not designed as a puff of the work, but is an unsolicited commendation of the ability, accuracy, and completeness

with which these volumes have been prepared. The second volume, which has just been issued from the press, is being delivered to subscribers as rapidly as possible. This edition of the statutes will be found a ne-WHOLESALE AND RETAIL cessity to every lawyer, justices of the peace, and county officers in the State. The publication of the work is a private enterprise, and the publishers' only hope for remuneration is in its sale to those for whose convenience it was prepared. The two volumes contain about 1600 pages of matter, nearly double the quantity embraced the revision of 1852.

The price of the work is \$4 50 per volume, or \$9 00 for

the two volumes. Orders addressed to the subscriber will

receive prompt attention. J. J. BINGHAM,
