ASK GREECE TO POSTPONE WAR

ENTENTE TO APPEAL TO GREECE IN EFFORT TO FORESTALL WAR ON TURKS.

AID OFFERED BY ALLIES

CONSTANTINE IS REQUESTED TO LEAVE SETTLEMENT TO BRITAIN, FRANCE AND ITALY.

(Western Newspaper Union News Service.)

Paris, June 20.—Great Britain, France and Italy have again appealed to Greece to postpone her offensive and accept their mediation, in an effort to forestall war in Asia Minor. This is the outcome of a conference between Premier Briand and Lord Curzon, British foreign secretary, which ended here with the dispatch of a note to King Constantine, asking an immediate reply as to whether Greece would let the allies settle the Turkish question.

If the answer is favorable it is probable Greece will be asked to state her peace terms, and the Turkish Nationalists will then be approached.

M. Briand and Lord Curzon decided to ask the high commissioners of Upper Silesia for an unanimous report on the disposition of the territory; failing in this, experts will be sent to make equitable distribution, and measures will be taken against the Poles and Germans, if either or both refuse to accept the allied decisions.

The British plan in the Near East involves withdrawal of the Greek forces from Smyrna and restoration of Turkish sovereignty over this territory, international police forces to guarantee protection of the minorities.

The ministers decided that no settlement as to Thrace could be determined until the Turks and Greeks agree to mediation.

Smyrna.—A letter received from an American living in Marash, near the frontier between Cilicia and Syria, says that town is the center of a Nationalist mobilization.

Thirty thousand Nationalist troops have arrived and 20,000 are said to be well equipped with uniforms furnished by Italians. The letter adds there are indications the Nationalists may attack Adana, a city held by the French. Up to the present King Constantine has not visited Smyrna, but has spent the most of his time on the balcony of his villa in the suburb of Cordelio.

Constantinople.—The delay in the predicted Greek offensive is believed in many neutral circles here to be due to the uncertain morale of the Greek troops, coupled with what is reported to be the fairly good condition of the Turks. This also is one reason why the British are not backing up the Greeks, these circles believe.

The reception of King Constantine at Smyrna, it is pointed out, was not a triumph, while reports indicate that he has failed to win over the Venizelos troops in the Greek army. Quarrels have been occurring for several months among the Greeks and various portions of the army, and the draft of the senior officers has been replaced by adherents of the Constantine party.

Six squads, all directed by State's Attorney Crowe, conducted the raids.

Jones has been assigned to command the Atlantic fleet with the rank of admiral. He will succeed Admiral H. B. Wilson.

Seize \$15,000 Whisky. El Paso, Texas.—Ross M. Dante, of Rodeo, N. M., and Fay Krup, a woman, were arrested near Deming, N. M., in a machine which prohibition officers say carried whisky to the value of between \$10,000 and \$15,000. Officers trailed the pair from here on being informed the party had crossed the Rio Grande from Juarez. Both the man and the woman were armed with pistols and officers say they attempted to run them down when commanded to halt.

EVERYBODY SEES A CHANGE IN FATHER

Grateful Son Says His Father Looks Like Different Man Since Taking Tanlac.

"My father has suffered from chronic stomach trouble for over twenty years and has paid out thousands of dollars for medicines and doctors," said O. W. Slayton, a well-known Cobb County farmer, living a short distance out of Atlanta, Ga. "We tried nearly everything trying to cure him and he went off to the Springs, thinking maybe the water might help him, but it just looked like nothing would reach his trouble. Then he tried dieting and lived on liquid food until he almost starved, but even that failed to do him any good and he just kept going from bad to worse.

"I don't guess there ever was a case as stubborn as his, and if there ever was a confirmed dyspeptic he was one of them, and I guess he would have been one yet if it hadn't been for this Tanlac.

"The first we heard of this medicine was when my father saw an advertisement in the papers from parties he knew in Tennessee, who were friends of his and he knew what they said about it was the truth, so he got it right away and began taking it. Well, sir, it acted just like magic—everybody notices the change in father. Why, he is just like a different man and sits down to the table and eats like a farmhand. Only yesterday he ate pork and turnips for his dinner and ate so much we were actually afraid he was going to overdo the thing, but he laughed and said nothing hurt him now and that he was hungry and expected to eat and make up for lost time.

"Now, when a medicine will do things like that I think people ought to know about it, and I want to say right now that I would not give one bottle of Tanlac for all the other medicines and health resorts in the country put together."

Tanlac is sold by leading druggists everywhere.—Advertisement.

HER LOVE DREAM SHATTERED Naughty George's Late Hours Responsible for the Ache in Heart of Young Wife. The mother of the young husband went to the bridal nest, and found her daughter-in-law in tears. "My child," she gasped, "what is the matter? Has anything happened to George?" "No," sobbed the young wife; "but my heart is b-breaking. He's taken to stopping out late at night!" "What, already!" said his mother, in consternation. "It doesn't seem possible. How late does he stop out, dear—very late?" "Well," said the bride, "you know he usually leaves his office at half-past five. The night before last he didn't get home till half-past six, and last night," she sobbed bitterly, "last night it was a quarter to seven! What shall I do?"

Probably Lester Could Have Determined Without the Appeal to His Physical Feelings. Two men passed away. One had been born, and in due course admitted to the bar, soon ran for office, was elected a continuous Hon. until at last he went to his reward, such as it was. And the local paper gave him an obituary as long as your arm. The other man followed in the footsteps of his brawny sire, and became a maker of harrows. He was industrious and honest, and for years the Hilligoss harrows which he whacked out by hand were known nearly all over the country as reliable utensils. By-and-by he, too, passed on. The paper announced his demise in a few lines and spelled his name wrong. Now, tell me, Lester, which of those men would you rather have been? Do not say the former, or I'll slap your jaws for you and not let you go to the picture show, either.—Kansas City Star.
