**Red Cross at Work to Save
Lives and Conserve Health**

The Red Cross believes that there is work to be done here at home as well as abroad in combating misery, sickness and disease. As evidence of this belief thirty-five Health Centers have been established in the Pacific Division in the last two years to aid in the nation-wide fight to reduce unnecessary sickness, according to the statement of Miss Olive A. Rauch, Division Representative.

In addition to these centers many other Chapters are contributing some form of health service to their communities, such as a dental clinic, a loan closet, or the transportation or salary of a Public Health Nurse. Efforts are being made by means of plays and games as well as through formal class work to enlist the interests of our child population in their own well-being, in order that they will apply voluntarily the laws of hygiene that will insure their growing into citizens of A-1 physical fitness.

The growth clinic is one of the many devices for building up the nation's health. Here children are weighed and measured, and their development and habits discussed with an expert. By this simple method abnormalities are detected early, and normal children are aided in becoming superior children.

By careful, consistent work of this sort the infant deaths in a group of 269 cities in this country have been brought down from 130 for every 1000 live births to 87 in a few years. It is possible to save many more babies than this, both in city and country, if only arrangements can be made to get the right information to the right people at the right time.

Miss Rauch points out that every Red Cross membership in the coming Roll Call will be a stamp of approval on this wide-spread effort to save life and conserve health.

4 REASONS YOU SHOULD USE ALUMINUM WARE

FIRST. ALUMINUM will not crack nor break.

SECOND. ALUMINUM has the good feature that when you cook potatoes or any other food that may have a little dirt on it, the dirt will leave the food and settle on the sides or the bottom of the kettle. Why it should do this is a problem that has never been solved, but it does.

THIRD. ALUMINUM always looks good no matter where it may be--on the stove, in the closet, or on the table--and it makes a kitchen so attractive and sanitary! No one knows the real value of ALUMINUM WARE until they use it. Once used nothing else will satisfy.

FOURTH. An ALUMINUM kettle offers one of the best and easiest ways to clean silverware. This may sound rather doubtful, but it is true. For instructions step in and ask us. We will be glad to furnish the information required so that you can clean your silverware without any labor attached to it what so ever.

Now that we are giving a 20 per cent discount on all ALUMINUM WARE this week, there is no reason why you should not get started and furnish your kitchen with the beautiful "Life Time" Aluminum ware.

Situation Serious
London, Sept. 19.—Official investigation at Condiemns, India shows the situation more serious than at first believed. Military forces sent to the troubled district on the Malabar coast have been experiencing difficulty owing to the rebels and the nature of the country. Two thousand rebels are said to be massed in the Pandalar hills, northeast of Calicut where action is imminent, according to dispatches.

Mr. James D. Rupe, of Maine was a Williams visitor the end last week. He drove in a span of spirited young mules, and states that, except for the help of a friend he does not believe he would have been able to find a hitching post in town. He said that he had concluded that farmers were not wanted in Williams because no hitching posts were provided. He declares that this is the first town he ever visited where no place had been provided for the farmers to tie their teams, and hopes that someone will get busy and put up some posts or else notify the farmers to stay away.
