

NO MERCY FOR COOK.

The Territory Outlaw is to Be Shot on Sight.

All of the Deputy Marshals Are So Instructed.

ANOTHER HOLD UP.

Gibson Station is Robbed by Six Armed Men.

FORT SMITH, Ark., Oct. 26.—A report has reached this city to the effect that the little town of Gibson Station has been robbed in pretty much the same fashion as the Watroba hold-up, the express office and several stores being looted. The place is six miles south of Wagoner, on the Missouri, Kansas and Texas road, and there is no telegraph office there, particulars of the robbery have not been received here. It is said that six men took part in the hold-up.

Mazabal Grum received a telegram yesterday from Deputy Lambton, who had gone in pursuit of the Cook gang, saying a fight between the bandits and officers was expected at any time. The latest robbery reported here up to this morning was that of a preacher last night at Illinois Station by two men. It is not known how much was secured. The train from Wagoner, which arrived here at 1 o'clock this morning, was guarded by a force of twenty-five men under the leadership of Sheriff Brown. The same posse guarded the west-bound train leaving here a few hours later, and were reinforced by twenty-five others at Kennebec as the railroad people are expecting a hold-up at Illinois station. The Cook gang is supposed to be in that vicinity, as men were seen at the water tank there when the east-bound train came through. Conductor Conklin was on the lookout for a hold-up at Bragg and later at Illinois, but he came through all right. He reports the whole country as up in arms and on the hunt for outlaws, saying there are fully 500 men in the chase. Bill Cook is to be shot on sight.

TERRITORY TROUBLES.

War Department Asks an Opinion Regarding the Sending of Troops.

WASHINGTON, Oct. 26.—The officials of the war department are by no means of the opinion that the interior department has made out a proper case for the employment of troops as posse commitatus in the Indian territory. Agent Wisdom's dispatch on which the application for troops is based, states in one place that they wanted to run down a band of robbers and in another that the treaties require the Indians to be protected. There is an question with the war department officials that the employment of troops under the first point would be clearly illegal and as to the second there is no evidence that the Indians themselves have suffered or have appealed for protection. Nevertheless, to set at rest all doubts in the matter, Acting Secretary Doe has referred the application for troops to the attorney general for his opinion as to the legality of their employment in this case.

Indiana Amnesty Bill Passed.

TERREHAUSE, Ind. Ter., Oct. 26.—The senate passed the amnesty bill, which, if it passes the house, will give the Wilburton political prisoners freedom. This is the last resort for Silon Lewis, who is under sentence to be shot November 5 and the Indian agent has notified his attorneys that the interior department will not interfere any further in the case. The council adjourned to-day and there has not been a general law of importance passed yet.

VICTORY FOR THE JAPS.

They Rout the Chinese and Capture a Fort With a Rush.

LONDON, Oct. 26.—A dispatch from Tokio says that Field Marshal Count Yamagata has telegraphed to the war office that a detachment of 1,000 Japanese infantry crossed the Yalu river on Wednesday morning and attacked the enemy. The Chinese force consisted of 600 cavalry and 100 infantry, with two guns. The enemy fled. The Japanese captured a Chinese fort, two guns and many rifles. The Chinese loss was twenty killed and wounded, while the Japanese sustained no loss. The Japanese advance columns are marching upon Lishiyen.

A dispatch dated W. J. October 24, apparently delayed in transmission, says that the Japanese were ferried over the Yalu river at Sukochin at daybreak. Chinese engineers had been thrown up to oppose the landing of the Japanese force, but a slight deviation enabled the Japanese to cross the river and land without opposition. The Chinese fled after the first few rounds were fired at them and the Japanese captured the works with a rush. The Chinese fled to batteries that had been constructed lower down the river, throwing away their arms in their flight. These were found to be antiquated muskets.

Cleveland in Washington.

NEW YORK, Oct. 26.—At 3:30 yesterday afternoon President Cleveland, accompanied by Dr. Joseph D. Bryant and Miss Bryant, left the doctor's residence and entered a carriage which was in waiting. The party was driven to the Pennsylvania railroad depot in Jersey City, where they were to meet Mrs. Cleveland and the children, who were coming on the Colonial express from Greenwich, Conn. A cordon of detectives surrounded the president during his wait at the depot, and no reporters were allowed to speak to him. In answer to a note, however, sent through one of the guardians, the president said he had left no letter to be read at Cooper Union. The president and family reached Washington last evening.

Trial of White Caps.

MEMPHIS, Tenn., Oct. 26.—The trial of twenty-five white caps was resumed yesterday at Helena, Ark. The sensation of the day was the testimony of Gus Bryant, the leader of the gang who turned state's evidence last spring and made a confession. Bryant's evidence was directly opposite to that contained in his confession. The prosecuting attorney openly charged that the state's witnesses have been tampered with. Three negroes identified several of the defendants as being members of the white cap organization. The trial will continue several days.

Princess Alix Not Yet Baptized.

LONDON, Oct. 26.—A dispatch from St. Petersburg says the baptism of Princess Alix has not occurred yet. Whether the delay is due to her protests against declaring the Evangelical church accused, as the Greek church dignitaries insist she shall do, or to the condition of the czar is not known. All hope of sustaining his majesty's life has been abandoned. The worst may happen at any moment through heart failure.

STILL TANGLED.

N. Y. Democrats Are Unable to Settle Their Troubles.

Chairman Faulkner Admits He Could Do Nothing.

BOTH SIDES ACTIVE.

No Diminution in the Efforts of Either Faction.

NEW YORK, Oct. 26.—Senator Faulkner, chairman of the Democratic congressional campaign committee, returned to Washington yesterday. He admitted, prior to his departure, that his mission hitherto had been a failure, so far as the Democratic congressional situation was concerned. He has been unable to bring the factions to an agreement. Congressman Dunphy's retirement from the Eight was his own act and will have no bearing upon the situation in the other districts. In Brooklyn, Senator Faulkner says the outlook is better. The independent Democratic candidate in the Fifth district accepted the decision of the reform executive committee and has filed notice of his withdrawal. John L. Nostrand will probably withdraw also. In the other two Brooklyn districts there will be no concessions on either side, according to present understanding.

The campaign orators of both parties are both now under full swing and the general political situation all over the state is indicative of the fierce fight that will be fought out on election day. The most prominent men—Republicans and Democrats alike—have been drafted into service, and the headquarters of both forces were never so alive with bustling politicians as the past two days. The declination of Congressman Dunphy of the nomination of the New York Democracy for the Eighth district was received yesterday. The candidate, J. J. Walsh, the Tammany nominee, a clear field. The Eighth district was one of those which a few days ago was thought might possibly be sacrificed to Tammany in the interests of harmony. Following this official announcement came the resignation of a number of members of the New York State Democracy organization in the Twenty-fourth assembly district, the deserters from Grace's organization at the same time announcing their intention of supporting the entire Democratic ticket.

At both headquarters there was the usual rounding up of official statements with none that might materially affect the situation either one way or the other.

Vice President Stevenson in New York.

NEW YORK, Oct. 26.—Vice President Stevenson arrived in this city and went direct to the Park Avenue hotel yesterday. The vice president said he was too tired to speak at Cooper Union last night, and that he would rest until to-night when he would speak in Poughkeepsie. Although at 6 o'clock last night he decided that he was too tired to speak at Cooper Union with Senator Hill, half an hour later he decided he would speak at Brooklyn with Amos J. Cummings. About 1,000 people greeted the vice president at Tivoli hall, Brooklyn.

Endorsed Senator Hill.

NEW YORK, Oct. 26.—A vast crowd assembled at Cooper Union last night to hear Senator David B. Hill speak. The gathering assembled under the auspices of the combined labor organizations of the city. John Phillips presided.

AWAITING THE END.

Russia's Ruler Calmly Views Death—His Strength Decreasing Daily.

ST. PETERSBURG, Oct. 26.—A bulletin issued from Livadia at 8 o'clock last evening says: "Neither somnolence nor spasmodic symptoms were observed to-day. His majesty's appetite is satisfactory. The oedema did not increase as usual." The bulletin is signed by the five doctors in attendance upon his majesty. The czar's strength is daily decreasing, but he awaits death with perfect composure. In order to counteract the depression of those about him, he has ordered that the band at the palace play during lunch. The czarina, though suffering severely, never quits her husband's side. She sits for hours beside the arm-chair occupied by the emperor, and watches by his bedside when he is unable to sleep. The czar, it is said, has made all his arrangements with a view to death.

NEW DIPHTHERIA CURE.

The New Treatment as Practiced in France a Wonderful Success.

WASHINGTON, Oct. 26.—The new treatment by inoculation of diphtheria and croup, as practiced in France, is the subject of a special report to the state department by United States Consul G. W. Chancellor at Havre. He says that by this method of treatment only one out of four diphtheritic patients succumb, whereas the figure is double for other methods of treatment heretofore applied. Consequently the consul, who is a Baltimore physician of repute, says that it would seem very desirable that the anti-diphtheritic serum should be introduced and come into general use at the earliest period practicable in America, where many thousands of children and numerous physicians, students and nurses die from diphtheria and croup.

The consul gives in detail a history of the development of the treatment by Dr. Pasteur and his assistant, Dr. Roux, who have been experimenting with it for five years, keeping it secret until they had satisfied themselves of its efficiency and had subjected the animal (the horse) best adapted to transferring diphtheritic poison into an anti-toxine. A trial of the new treatment at one of the largest hospitals of Paris resulted in reducing the death rate from diphtheria from 51.70 per cent to 24.33 per cent. In addition, it is stated that children vaccinated with the serum were protected from the disease even while living in close contact with diphtheritic patients. As the Pasteur Institute can not meet the great demand for the serum, movements are on foot in different localities to establish auxiliary stations. In slight cases one injection of the serum is sufficient, while the ordinary case yields to two.

IMMIGRATION MATTERS.

Superintendent Stump Returns From a European Tour of Observation.

WASHINGTON, Oct. 26.—Superintendent Herman Stump of the immigration bureau returned to Washington yesterday from a six weeks' tour of European cities. While Colonel Stump's tour was wholly unofficial, the subject of immigration was investigated with more or less care in all the cities he visited. In Italy he found the government willing, and indeed very anxious to co-operate with the United States in wiping out the admittedly pernicious padrone system.

In Germany the officials were taking unusual precautions to prevent any of the prohibited classes from sailing to America from German ports. Colonel Stump had several conferences with agents of Baron Hirsch in regard to exodus of the Jews from Russia. He was assured that the persecution by the Russians had practically ceased and that in consequence comparatively few were now leaving Russia. Speaking generally, Colonel Stump was of the opinion that a far better class of emigrants were now coming to this country than at any time in the past.
