

MONDAY.

It all depends upon what you want in a soap. If you require simply a dirt remover, almost any soap will do. But if you care at all about the thing which is to be washed, you must think twice before you act. Any soap will clean linens and muslins, but Ivory Soap leaves them as white as snow. Any soap will clean sheets and table cloths, but Ivory Soap leaves no coarse, strong odor. Try it once!

IT FLOATS.

KANSAS LAW AND ORDER.

The Old Temperance Organization Has Been Revived.

At a called meeting last Saturday night the law and order people reorganized the "Kansas Law and Order Bureau." The work of the bureau is religious-political. It will gather and disseminate information continuously concerning the maintenance and enforcement of the prohibitory law and other lines of good citizenship. Special reading will be issued from time to time, the standing of all parties and candidates, churches and societies, ascertained and published. If thought best, moral suasion and pledge signing for the drinker will be advocated and legal suasion and the iron hand of the law for the illegal liquor seller. To this end the following officers of the Kansas State Bureau were elected:

S. C. Hart, chairman; J. W. Berrett, recording secretary; W. S. Lemmon, treasurer; M. R. Butler, field agent and organizer.

Motion prevailed that the field secretary superintend the general work of the bureau throughout the state. It was recommended that where neither old party put up proper candidates that independent ones of known principles and openly pledged to special enforcement of the prohibitory law be nominated and voted for in every county.

A discussion of ways and means outlined a thorough canvass of Shawnee county to inaugurate the work, several having volunteered to aid in the canvass.

The Shawnee county organization is as follows:

W. L. Humbert, chairman; Wells, recording secretary; C. P. Carouff, lecturer. The headquarters were located in the Lemon building at 1301 Kansas avenue.

RANIER MUST RETURN.

Requisition Issued For the Atchison Murderer.

The Atchison murderer, Douglas Ranier, was captured in Missouri but declined to return to this state without a requisition. Sheriff Kipp of Atchison came to Topeka last night, secured the necessary requisition and will bring Ranier back to St. Joe to Atchison today. Ranier killed James Burchett and C. C. Gouthart at Atchison in a trivial quarrel.

WAR PLANS.

Permanent Army of 40,000 to Be Maintained in the Philippines.

Washington, June 5.—In order to prevent misapprehension as to the future policy of the war department respecting the military forces in the Philippines, Adjutant General Corbin made a brief statement of the facts in the case today. He said there had been no change of policy since the departure of General Otis, and that none was contemplated. Under the law the entire volunteer army now serving in the Philippines will go out of existence June 30, 1901, and the problem before the war department is now to get the 21,000 men of that army home from the Philippines before the date named, at the same time relieving them with other troops of the regular establishment, as far as possible, without loss of military prestige in the Philippines and with-

MUSCULAR PASTOR.

Muscles Built up on Postum Food Coffee.

"For years I have not been able to drink coffee, as it made me very nervous and gave me a headache. No one loved coffee more than I and it was a severe trial to abandon its use. Nearly three years ago I saw Postum Cereal Coffee advertised and concluded to try it."

"I have been so well pleased with it and its healthful effects that I have used it ever since. I carry packages with me when I visit other places."

"When I began to drink Postum, my muscles were flabby, as my habits are sedentary, but for the past two years my muscles have been hard and I never felt stronger in my life than I do now at sixty years of age, and I attribute my strength of mind and body to the use of Postum. I drink it three times a day. I feel so enthusiastic about Postum that I cannot recommend it too highly wherever I go. Wishing you great success, yours truly,"

Rev. A. P. Moore, 474 Rhode Island St., Buffalo, N. Y."

"The reason Postum builds up the human body to a prime condition of health, is that when coffee is left off, the drug effects of the poison disappear and the elements in Postum unite with albumen of the food to make gray matter and refill the delicate nerve centers all over the body and in the brain. This sets up a perfect condition of nerve health, and the result is that the entire body feels the effect of it."

COST OF SCHOOLS

Estimates For Next School Year Have Been Made.

Increase is Only \$552.12 Over That of Last Year.

THE NEW BUILDINGS.

Additions to Polk and Euclid Will Be Made.

Expansion to Keep Pace With City's Growth Goes on.

At the regular meeting of the school board last night it was decided to have the plans and estimates for the completion of Polk school and the enlargement of Euclid school made at once.

Polk school will be completed by the erection of a west wing which was provided for in the original plan of the building. Euclid school will be enlarged by a two-room addition. A new building to take no further action on the building question until the estimate of the cost of the two additions is made. A new building and several additions are needed this year. Polk school is crowded and needs a two-room addition. A new building, in addition, the heating plant at the High school must be replaced. The building fund will not exceed \$25,000, but part of this work can be carried out this year.

The finance committee submitted the following estimate of running expenses for the coming year. This does not include any estimate on the new furnace needed at the High school.

GENERAL FUND.	Estimate 1899-1900.	1900-1901.
Teachers' salaries	\$33,042.25	\$36,524.00
Janitors' salaries	\$2,100.00	\$2,100.00
Supt. and clerks	\$3,700.00	\$3,700.00
Printing (increase due to report)	\$34.71	\$60.00
Supplies for janitors, office, indigent pupils, incidentals	1,852.71	2,000.00
Repairs and improvements, (hardware, lumber, labor and incidentals)	4,886.84	5,000.00
Apparatus and chemicals	1,558.62	1,600.00
Fuel and light	\$3,523.59	4,500.00
Socks and stationery	\$57.00	1,000.00
Insurance	\$20.00	1,000.00
Scavenger	\$5.62	100.00
Furniture	7,721.35	1,500.00
Taxes	\$97.24	100.00
Incidental expenses	1,023.00	1,250.00
Total without estimate on furnaces	\$113,236.88	\$118,540.00

INTEREST AND SINKING FUND.

Interest	\$15,310.00
Sinking fund	\$1,178.00
Total	\$16,488.00

BUILDING FUND.

What a mill levy will bring on assessed valuation.

The increased estimate of teachers' salaries is due to an increase in the schedule of \$24.75, and an estimated increase of \$3,523.59 for the coming year, based on the theory of three new rooms at Brainer, two new rooms at Polk and two new rooms at Euclid schools. This makes a total increase of \$3,500 for the school year. The estimate for the coming year raises all but two of the appropriations, but the increase in the total estimate is but \$52.12 over the expenses of the previous year. The difference is made up in the furniture and fixtures, the purchase of the new desks and seats in many of the schools have been replaced at an expense of \$7,721.35. The financial report submitted for May was as follows:

Deposited in banks	\$14,276.36
General fund	\$3,458.00
Interest and sinking fund	\$16,488.00
Building fund	1,094.93
Total	\$14,276.36

Warrants unpaid for wants of funds.

The taxes for the second half will be paid into the county treasury this month and the school will receive about \$5,000, which will be divided as follows:

General fund	\$22,000.00
Interest and sinking fund	6,500.00
Building fund	6,500.00
Total	\$35,000.00

The building committee was instructed to investigate the matter of heating the High school and to report at the next meeting. The hot air system at the High school is unsatisfactory. It does not properly heat the building and the rooms are filled with smoke. Arrangements will be made for steam heat by either connecting with the Edison heating plant or the building of a boiler house in the rear of the High school building.

Superintendent Davidson suggested that the old plan of leasing an annual report be revived. The board voted unanimously to have the report compiled at once and published soon after the schools open this fall. It has been nearly 10 years since a report of the work of the Topeka public schools has been issued. An appropriation of \$500 for 2,000 copies will be made.

Can't be perfect health without pure blood. Burdock Blood Bitters makes pure blood. Tones and invigorates the whole system.

HOUSE CONCURS

In Senate Appropriation For St. Louis World's Fair.

Washington, June 5.—The house last night agreed to the senate amendment to the sundry civil bill appropriating \$5,000,000 for the Louisiana purchase exposition at St. Louis. There was not a word of debate on concurrence in the amendment. It was before 5 o'clock when the matter came up and owing to the lateness of the hour and the overwhelming majority in its favor, the opponents of the bill did not even make a show of opposition. They contented themselves with demanding a roll call which resulted 127 ayes to 15 nays in favor of the appropriation.

There are only four appropriation bills still in dispute between the two houses.

Mr. Tawney (Minn.) is making an effort to delay final adjournment unless action is had on the Grout oleomargarine bill, but he met with no success today.

Everything so far as the house is concerned indicates final adjournment on Wednesday.

A LATE ENTRY.

Is Expected to Stampede the Indiana Democratic Convention.

Indianapolis, June 5.—Nearly all the candidates and a large part of the delegates have arrived for the Democratic state convention which opens at 9 o'clock tomorrow morning. The full delegation of 1,357 members is expected in during the day and until they arrive the strength of the various candidates can not be determined. The situation is chaotic and no accurate forecast can be made.

The absorbing topic of conversation is the contest for the gubernatorial nomination. There are three candidates now in the field, John W. Kern, of Indianapolis, Frank B. Burke, of Indianapolis, and Nelson J. Burdett, of Valparaiso. Kern has the support of the Marion county Democratic organization and will be backed by Democratic Mayor Targart, a member of the Democratic state central committee from this district. On the other hand Burke is in active opposition to the Targart faction. An element of uncertainty in the situation is the likelihood of B. F. Shively of South Bend entering the race at the last moment, and in that case an effort may be made to stampede the convention in his favor.

A week ago Shively positively declined to become a candidate but his friends among the delegates insist that he will be endorsed for the nomination and will eventually permit his name to go before the convention.

Shively was the Democratic nominee in 1896 and was defeated by Governor Hanft.

Shively has not yet arrived, but is expected this evening. There is talk among the delegates of endorsing Shively for the vice presidential nomination in case he refuses the gubernatorial honors.

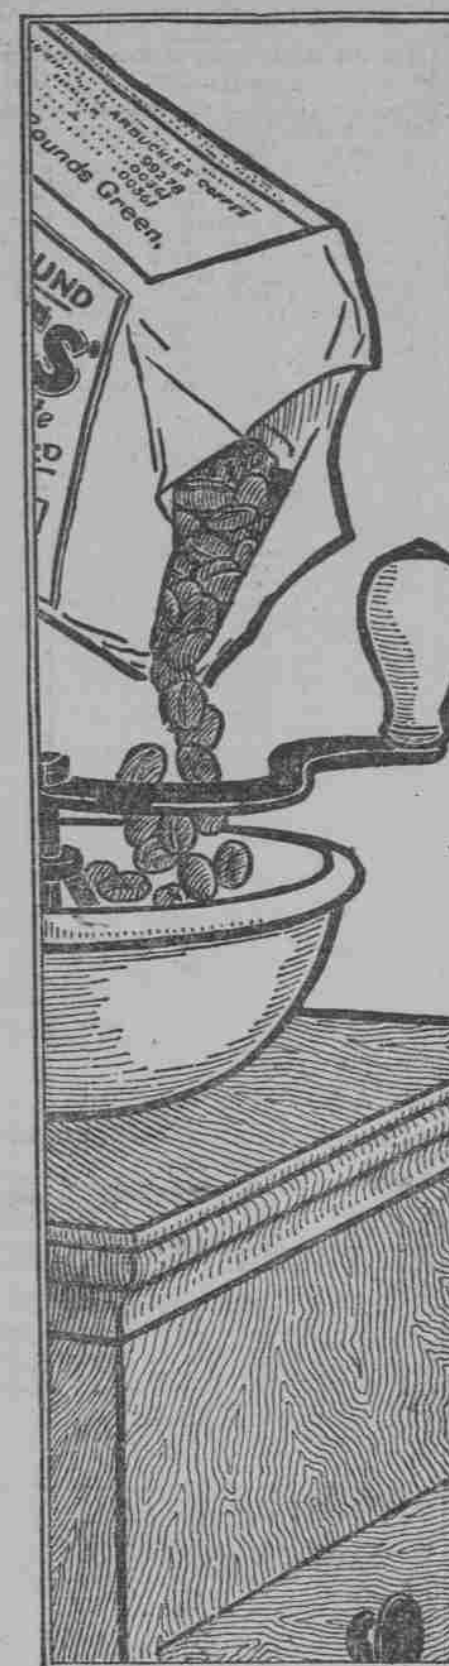

Much interest in the convention centers in the battle for national committee. Judge Shanklin, the present incumbent, is seriously ill at his home in Evansville, but his candidacy is being pushed by his friends. Opposed to him is Mayor Targart. There is apparently among the delegates no sentiment against Bryan and it is probable that he will be endorsed for the nomination for president. Vice Chairman Johnson and Secretary Walsh of the Democratic national committee are expected from Chicago tonight.

A platform has not yet been agreed upon. An element of discord is the monetary plank. One faction insists on a straight reaffirmation of the Chicago platform, while another desires to keep the 16 to 1 issue in the back ground and fight the campaign battle on a platform largely devoted to trusts, imperialism and the Cuban postoffice scandals. It is believed by the leaders that this point will be settled in the committee room and the platform will be ready for presentation when the convention opens tomorrow.

The convention will be called to order tomorrow morning by Parks M. Martin, chairman of the state central committee, and while no temporary chairman seems to have been chosen as yet it is authoritatively stated that S. M. Ralston will be the presiding officer.

More Crookedness Found.

Washington, June 5.—There is a doubt as to whether the collection of United States postage stamps intended to be exhibited at the Paris exposition will be sent to France for that purpose. It has been learned that three sheets of "proof" stamps were lost after being sent to the exposition, and there is some question as to whether it would be safe to trust further collections of a similar kind there.

All the Strength

When you grind Arbuckles' Coffee you get full value out of every bean that goes in the grinder. You get all the goodness, all the delicacy, all the aroma nature put in the berry. Every bean is covered with an airtight coating, made from a combination of nutritious substances. This keeps in all the goodness—keeps out all the moisture and foreign substances that mar the delicate flavor of coffee.

That's only one point in favor of Arbuckles' Coffee. You can't get it in any other coffee. Then there's the price. And the flavor. There's not a coffee sold that offers the same high quality in flavor, fineness and aroma at anything like the price you pay for

ARBUCKLES' ROASTED COFFEE.

Everybody likes it; the careful blending is done by experts to suit the taste of the millions—not the few. Get a pound package and try it. Don't forget to examine the list of many useful articles to which you are entitled as a part of your purchase. Full information in every package.

ARBUCKLE BROS.,

DIPLOMA MILL RAIDED.

Faculty of a Chicago College Placed in Jail.

Chicago, June 5.—Government officers today invaded the Metropolitan Medical college, an alleged "diploma mill" at No. 866 West Van Buren street and arrested the officers, President James Armstrong, Vice President J. H. Randall, Secretary Thomas Armstrong and former Secretary Charles M. Hovey. The men are charged with having used the mails to defraud and it is said their receipts amount to many thousands of dollars. Failing to give suitable bonds, all four went to jail.

The institution with which the defendants are connected is also known as the Independent Medical college and the National Law school and the evidence shows that its faculty has been selling degrees for the practice of medicine and law at prices ranging from \$3 to \$200, the compensation being determined by the amount the would be professional men were willing to advance. Postoffice Inspector Gould who made the arrest says the fraud is one of the largest the postal authorities have ever had to deal with and the graduates of the institute are practicing in every state, and even abroad. He says frequent complaints of malpractice have been made against the holders of the diplomas of the institution. Regular medical colleges and law institutions in all parts of the United States have been fighting the officers of the "diploma mill" for several years in vain and up to the time the

men were arrested it is said they "were graduating" their subscribers at the rate of a dozen each day. The complaint on which the warrants were issued was sworn to by Joseph De Barthe of Baker City, Ore., who was formerly connected with the institution as an agent for selling diplomas and is listed in the college prospectus as "professor of medical jurisprudence." He says he paid \$5 for a degree issued by the Independent Medical college August 30, 1898, and thought his authority to practice medicine was valid until he was refused certificates in several states. He says he never allowed his name to appear on the faculty list, though he occasionally transacted the law business of the institution. Inspector Gould indicted a friend of the defendants, the vice president of the Metropolitan college for information. The institution offered to give a course in medicine and a degree for \$200 and a shorter term of study for smaller amounts.

Inspector Gould has a bunch of unsigned certificates of practice for the state of Texas and he says the name of the district clerk is forged to these for an extra compensation. Texas is said to have been the most fertile field for the "diploma mill" of the institution. The British consul has made recent efforts to run the Metropolitan faculty out of business as Great Britain is said to have been covered with their diplomas. It is said that dozens of "graduates" of Dr. Armstrong's institutions are practicing in India and in all parts of the world. The diplomas bear the names of the whole faculty, but two girls declared they were employed to write these on all degrees issued by the college.

HOLT THE FAVORITE.

For Democratic Nomination For Governor in West Virginia.

Parkersburg, W. Va., June 5.—Among the delegates already here for the Democratic state convention that meets tomorrow Judge John H. Holt of Huntington is apparently the favorite for the gubernatorial nomination with Judge Lewis N. Tavenner of Parkersburg, second. Lewis and Flournoy have normally withdrawn, but their headquarters show no such activity as those of Holt and Tavenner.

Ever since the arrival last night of John T. McGraw who is the pronounced Democratic candidate for United States senator against S. B. Elkins, there has been a boom for Holt. Friends of McGraw and Holt announced that they have pooled their issues for governor and senator. It is said Holt's following includes James H. Miller, Robert Armstrong, John W. Davis, Homer B. Kinsley, A. Y. Campbell and W. G. Bennett as candidates for the other offices on the ticket.

G. C. & S. F. Changes.

Cleburne, Tex., June 5.—Several changes have taken place at the Santa Fe offices. Mr. W. R. Scott was installed as superintendent in the place of M. H. Pendell, resigned. Mr. James Byrne, formerly chief dispatcher, succeeded Mr. Scott as trainmaster, and F. J. Easley was appointed chief dispatcher. Mr. Easley is from Galena, Ill.

Death of Miss Kingsley.

Cape Town, June 5.—Miss Mary H. Kingsley, the traveler and niece of Canon Kingsley, is dead. She expired at Simonstown, where she had been recovering from the fatigue of her arrangements of the military hospital.

Starvation never yet cured dyspepsia.

TO MAKE HER A TARGET.

An Old Monitor to Be Shot to Pieces For Experiment.

Washington, June 5.—Considerable interest is being taken in naval circles in a plan to authorize the North Atlantic squadron to use one of the civil war monitors as a target for the rapid fire guns of Admiral Farquhar's vessels.

This practice would, naval experts say, supplement the information gained by the British navy from the practice of the battleship Majestic on the old turret ship Belle Isle, built twenty years ago. The Belle Isle was put in condition for action without, however, a crew aboard, and the Majestic opened fire. The firing lasted nine minutes. In six minutes the vessel was in flames and an examination of the ship showed she was a wreck inside and was simply riddled with shell. Naval officers say that the British will make several important changes in na-

British Troops in the Streets of Johannesburg, the City of Gold.

The downfall of Johannesburg means that the end of the war is at hand. The city is more important in a business way than Pretoria, the capital, and the occupation of the one meant the early taking of the other.

val practice as a result of the Belle Isle experiment, and they are hoping that the department will decide to authorize the experiment on one of the old monitors and the use of her as a target for the Kearsarge or New York. The monitors are the only little value, and the loss would consequently not be great while the information that could be obtained would be of great value.

A WOMAN'S MESSAGE.

Causes a Mob to Change the Location of a Hanging.

Mobile, Ala., June 5.—A mob at Mississippi City has taken a negro named Askew, suspecting of outraging and murdering Miss Winterstein late Saturday night, from jail and have gone with him to the woods. The mob's intention is to make the negro confess. A later dispatch from Mississippi City says that investigation has confirmed the mob in the belief that Askew is the man who murdered the girl. His clothing was found covered with blood and he could not explain it. Undoubtedly the mob would have hanged the negro then and there but the mother of the young girl sent a message asking that the man be brought to Biloxi for her identification. Askew was taken to Biloxi by boat, and the hanging will probably take place there.

Washington Notes.

Washington, June 5.—John M. Lander has been appointed a stamper in the Newton, Kan., postoffice.

Kate A. Ellinger has been appointed a substitute clerk in the postoffice at Topeka, Kan.

Victor Murdock and wife, of Wichita, Kan., are in the city, the guests of Delight Flynn.

W. H. Meadows, of Kansas City, and Nelson V. Bruce, of Kansas City, Kan., have been appointed assistant meat inspectors in the agricultural department.

Edward C. Emley, Holingsworth, Kan.; Naham Gibson, Muskogee, I. T.; George North, Poplar Bluff, Mo., have all been admitted to practice before the interior department.

Postoffices have been established at Chickasha, Choctaw nation, I. T.; William Sanderson, postmaster, and at Keak, Custer county, O. T.; Charles A. Keak, postmaster.

G. C. & S. F. Changes.

Cleburne, Tex., June 5.—Several changes have taken place at the Santa Fe offices. Mr. W. R. Scott was installed as superintendent in the place of M. H. Pendell, resigned. Mr. James Byrne, formerly chief dispatcher, succeeded Mr. Scott as trainmaster, and F. J. Easley was appointed chief dispatcher. Mr. Easley is from Galena, Ill.
