

LIFE IN FORT DELAWARE.

Experiences of a Confederate Prisoner of War During 1863 and 1864.

By W. A. JOHNSON, Co. D, 2d S. C.

One day, I was leaning against the barracks, very weak and much emaciated, a Yankee soldier sauntered through the gate and walked past me, looking at me with a stare that I never forgot.

I was well fixed, but I became tired of being away from the boys, and I spoke of the entrance to the hospital, and I went out with the others in the fort, I went back to the barracks.

Each man entering the hospital was well washed. He then was dressed in clean underclothing and put in a clean bed. His old coat and trousers were bundled, marked, and deposited in the store-room, to be returned to him if he went back to the barracks.

Dr. Stone visited the ward twice each day—once at 10 o'clock, and once at 2 o'clock. He came in with a book, and he would read to the men, and he would ask them questions.

When I had done this the nurses refused to carry in the food. They said that was not the way they had been doing. They gave each man what they thought he ought to have, and kept the balance for themselves.

BATTLE OF FRANKLIN.

A Defense of the Conduct of Gen. Schofield.

EDITOR NATIONAL TRIBUNE: I have before me the issue of your issue containing the sad news of the death of Gen. Stanley. I also read your editorial record of his military career with interest.

I was at the battle of Franklin, Nov. 30, 1864, and, as the phrase has it, "I was back to back with the rebels." I was in the Carter-House door-yard, and on down to our line, a few rods farther down the pike.

What Battery Killed Gen. Polk? EDITOR NATIONAL TRIBUNE: It is always a most difficult thing to convince an "eye-witness" that he is mistaken in his judgment, especially when the subject is a military event.
