## RUCABADO, PORTELA & CO'S

### GENUINE PUERTO RICAN CIGARS

PORTO RICO for obvious reasons produces tobacco of varying degrees of excellence. The bad impression caused originally by careless cultivation and manufacture of the tobacco, due to inexperience, has now been dispelled, and those smokers who desire a cigar with more aroma than the flat-tasting domestic cigar unmixed with Havana, and still lacking the overpowering heaviness of the latter, at a reasonable price, find their choice in the Porto Rican cigars. For this reason it is smoked in offices during business hours with every sense of satisfaction by many in whose estimation Cuban cigars hold first place for quality, and that portion of the general public which is frugal on this item of expenditure finds it a good substitute for high-priced Havanas.—Albert A. Vold in New York Sun

### THE NEED OF PARKS.

The Advantages of a Breathing Place For The Public.

In the October number of the Hawaiian Forester and Agriculturist there appears an article on the development of public parks. An extract from the pen of G. A. Parker, Superintendent of Keney Park, Hartford, is quoted in part as follows:

"To begin with, I would have parks from three to ten acres, located near the homes of the workmen, open every day in the year and every hour of the day and evening. I would have playgrounds for the children, lots of shade, and, if possible, grass, where his wife and friends could sit during the summer afternoons. I would have lots and lots of seats and tables and a superabundance of light so that the working man after his day's work would find a pleasant place during the evening hours, one in which if desired he could take his evening meal. I would have as many bright flowers as circumstances would permit, but none or few shrubs.

"I would have a stadium where contests could take place, and an outdoor and indoor gymnasium. I would have a shelter with an abundance of room, light and heat for rainy evenings, and for the winter. I would have band concerts and would have him arrange for himself lecture courses, debating clubs, theatricals, concerts and parties. There are lots of things he could do for himself if he had the opportunity, but remember he is an independent person, does not like to receive a service from another without giving service in return. The one thing he does not need, and ought not to endure, is paternalism, but he does need and he is willing to pay for communityism if the city will provide the way in which it can be brought about. Take care of your industrial cities and the industrial sections of all cities, and the other functions of a city cannot go far wrong, but neglect your industrial cities and there will be troublesome times, the mutterings of which can even now be heard. I do not believe that parks in industrial cities will solve all their problem, but I do believe that parks suitable to them will help to the solution of many problems."

Commenting on the subject, the Forester and Agriculturist says:

"Mr. Parker's ideas given above are not all new or altogether suitable to our conditions. The Hilo people have already hold of one of them in the pavilion erected in Mooheau park, a great public convenience for meetings, entertainments and indoor recreation. Mr. Cooper forestalled another of the ideas in designing Aala park, including free playgrounds for various popular games in the plan. The Park Commission was forehanded with Mr. Parker in some of the details of its work at Kapiolani park. These facts only make it a greater pleasure to quote Mr. Parker, as showing that the progress we are making here is in consonance with the advanced views of a mainland park expert. Our main duty is to see that the cause of park development shall not be permitted to retrograde."

CHAMBERLAIN'S COUGH REMEDY IN OLD VIRGINIA.—The Hutchinson Drug Company, which is located at Perry, Oklahoma, U. S. A., in speaking of the sale of Chamberlain's Cough Remedy, says: "We take pleasure in recommending it to our customers because we believe it honestly made and a meritorious preparation. We sold it in Old Virginia and several other states, covering a period of over twenty years, and have always found it to give perfect satisfaction." For sale by Hilo Drug Co.

### ROOSEVELT'S "MISTAKES."

Some of the President's National Achievements.

The following excellent article from Leslie's is one of the best answers to the statement that Roosevelt is not a safe man to trust in the executive chair, that we have ever read: "The Democratic and assistant Democratic papers are saying that President Roosevelt has made many mistakes. Let us mention a few of these:

"The president ended the coal strike in 1902, and thereby opened the mines, gave work to tens of thousands of persons who had been idle for months, and reduced the price of coal to 80,000,000 Americans.

"He carried out the country's pledge with Cuba, first by withdrawing the troops from the island after pacification had become complete and then by inducing an apathetic congress to grant to the island the reciprocity which had been promised.

"He led congress to pass the national irrigation act, which will benefit every state and territory west of the longitude of Missouri's western boundary, which will open to settlement a new empire in the arid region, comprising over a third of the contiguous part of the United States.

"He enforced the Sherman anti-trust act of 1890 so that the people can repeal it if they dislike it, can strengthen and extend it if they want to retain it and if it needs strengthening and extending, and in so doing gave vitality to a statute which had been forgotten, and he also carried out a Republican pledge repeated in many of the national platforms.

"He called a halt on England Germany and Italy in their projected attack on Venezuela, compelled the disputants to submit their case to arbitration and thus gave international and fernal sanction to the Monroe doctrine.

"He negotiated a commercial treaty with China, overcame Russian menaces at Peking, induced the emperor of China to ratify the treaty, and thus opened the Manchurian ports of Mukden and Antung to the trade of the United States.

"He induced England to agree to the abrogation of the Clayton-Bulwer treaty of 1850, which tied the United States' hands in canal building across the isthmus; negotiated a canal treaty with Colombia, which that country blindly rejected; then he turned to the newly created Republic of Panama, which seceded from Colombia on account of the latter's folly in refusing to accept the canal treaty, gained a treaty with Panama under which the canal is to be built and a world dream of four centuries' duration is to be transmuted into fact. For his work in getting an isthmian canal under American control he brought the bulk of the southern Democracy over to his side and for the time blotted out party lines throughout the United States more thoroughly than they had been blotted out before or since the Monroe era of good feeling.

"The American people love Roosevelt for some of the 'mistakes' which he has made."

In proof of this we call attention to the statement below. It is an expression by an eminent authority. It speaks for itself:

OFFICE OF STATE ANALYST  
CERTIFICATE OF ANALYSIS

BERKELEY, July 18, 1904.

DR. N. K. FOSTER,

Secretary State Board of Health.

I have examined sample marked "A. B. C. Beer," St. Louis, received April, 1904, and report as follows:

This analysis was made at the request of the "HILO MERCANTILE CO.," the sample having been bought by me in open market. The beer was in a good state of preservation and was clear and sparkling. The chemical analysis showed that it was free from adulteration, artificial preservatives and impurities.
