WESLEY HEIGHTS!

ADJOINING THE GROUNDS OF THE AMERICAN UNIVERSITY.

Have you visited Wesley Heights? It is only a thirty minutes' drive from the centre of Washington to this beautiful suburb. If you take the electric cars, get off at the power house of the electric road and take the short cut. After a walk of ten minutes you will find yourself in a charming spot, with magnificent views, fine shade, and good water. Just the place for an ideal suburban home.

The Heights is one of the highest points within the District, and is very picturesque and romantic. The ground slopes gently from its crest toward the city, and is all available for building purposes.

The extension of Massachusetts avenue will give this property a direct line of communication with the city, and will assure a magnificent driveway to the University grounds. Ultimately the avenue will be the most fashionable thoroughfare leading out into the northwest

With past experiences westward, the prices of land have far exceeded the most sanguine expectations of all holders, and to-day outside capital will buy real estate in the northwestern part of the District when it cannot be induced to touch property elsewhere. From long experience capital is more willing to develop and look for a prospective

profit than to deal in securities that only pay a small rate of interest. Taking into consideration what has been done in and about Washington during the past

ten years it would seem that this subdivision, being so advantageously situated, at the prices offered is hardly an atom of its prospective value. To-day it offers an unusual opportunity to this community for safe and profitable investments when its success is already a foregone conclusion.

If you contemplate purchasing do so at once. The best lots are being sold.

Prices, \$375 to \$750 per
