The Daily Bulletin.

SATURDAY, SEPT. 18, 1886.

THE LEGISLATURE.

104TH DAY.—CONTINUED.

AFTERNOON SESSION. House resumed at 1:30. Consideration of the Electriclights bill.

Section 1. The right is hereby granted for the term of ten years to C. O. Berger, his associates and assigns, to maintain electric works and to light the City of Honolulu with electric lights.

Rep. Dickey moved to amend by inserting the words "The Minister of Interior is hereby authorized to grant to any person, associations of persons, or corporation the right" before the words "to maintain."

Rep. Brown moved the eyes and noses be taken on his amendment. Rep. Aholo moved the further consideration be postponed until Monday.

Rep. Kalua said the Ministers might give the required information in two hours. If they were allowed their own time, they might want until after the close of the session.

Rep. Richardson asked how much time the Minister required. Minister Gibson said it was true the Government had entered into a contract with certain persons to light the city.

Minister Gibson said it was true the Government had entered into a contract with certain persons to light the city. This engagement was a bona fide one on both sides; but it is alleged there is an omission as to reference to Privy Council.

Whether the fault was with the Government or the contractor remains to be seen. There may be ground for a decided grievance on the part of these people holding the contract. In view of the engagement the Government had not contemplated any other arrangement.

But here is a plan proposed by enterprising men, and the Ministers are alive to the fact. This matter of electricity was only in its infancy, yet it was wonderful to think of the effects it had produced. He had seen the electric light in San Francisco at the Palace Hotel, New York and Boston, when in the States several years ago.

He had conversed with Mr. Edison and was delighted to hear him talk on electricity. In conversation with gentlemen interested in these electric bills, one question was whether the Government should take the matter in hand or leave it to other persons. It was a matter for the Assembly to consider, and he was happy to see the members alive to it.

The Ministers had not brought the matter forward, but were listening and seeking information. He was not prepared to say whether the Government would take up one or the other of these enterprises. It would be for the best welfare of the city to light it up good and cheaply.

Rep. Castle said they might find themselves involved in the double expense of paying for electric lights and for a law suit for damages by the present contract. The members of the house do not really know what the bill contains. He moved its further consideration be postponed until Thursday next, and that meanwhile the bill be printed.

Second reading of an act supplementary to chapter 39 of the Penal Code, relating to gaming. Rep. Brown moved the bill be read by title. Carried.

The same member moved it be considered section by section. Carried. The first and second sections passed as in the bill.

Rep. Dickey moved to strike out all that part of the section which gave permission to the Minister of the Interior to grant licenses to persons who wished to dispose of paintings, drawings, etc., by raffle or chance. He considered gambling in all its forms to be wrong and degrading in its character.

If it was wrong for a Chinaman to gamble for ten cents, or a person to play poker for \$1,000, it was just as wrong for a church society to have a lottery or a grab bag. He did not believe in excepting any privileged person or class of articles.

Continued on page 2.

Rep. Richardson said he would like to have the views of the Government on this question. He wished to have information from the Minister of Interior respecting the present contract for lighting the streets, especially as to whether the passage of this bill would interfere with that contract.

Minister Gibson said he was not prepared at that moment to answer the honorable member. A contract had been entered into by his predecessor, Mr. Gulick, and he understood there were certain conditions that had not been complied with. It would be better for the matter to be submitted to the Attorney-General.

This contract had been entered into with the Government, and was a bona fide one. Those were his views at present. There might something arise that would invalidate this contract.

Rep. Richardson said his reason for asking the Minister the question was, that during the recent exhibition of the electric light at Palace Square a person interested in the present contract for lighting the streets said that if the Government passed this electric light bill, a bill for damages would be presented against them. He (the speaker) was in favor of trying electricity

for lighting purposes, if the expense was reasonable. At the same time, he was afraid of this old contract. They may have to pay twice—this company for the electric light, and damages to the old contractors. He thought the Government should have prepared themselves in the matter. The house ought to be careful not to enact a law that would cause anyone to bring in a claim for damages.

Electricity would cost a large sum of money. If the Government had no views, it would be better to postpone the consideration of the bill. He moved the further consideration be postponed until the Ministers are prepared to inform the house of the status of the present contract and the possible effect of this bill with relation to it.

Rep. Baker spoke, in Hawaiian in favor of the bill, without interpretation.

Rep. Brown moved the eyes and noses be taken on his amendment. Rep. Aholo moved the further consideration be postponed until Monday.

Rep. Kalua said the Ministers might give the required information in two hours. If they were allowed their own time, they might want until after the close of the session.

Rep. Richardson asked how much time the Minister required. Minister Gibson said it was true the Government had entered into a contract with certain persons to light the city.
