Haw schr General Seigel, from French Frigate Shoals, due Nov 20-30.
Ger bark Hydra, from Hongkong, due December 1-15.

VESSELS EXPECTED.

Haw S S Zealandia, R van Oterendorf, from San Francisco, due Nov 17.
Haw schr General Seigel, from French Frigate Shoals, due Nov 20-30.
Ger bark Hydra, from Hongkong, due December 1-15.

The Rifles will not drill this evening. The drill that was to have taken place at Makiki to-morrow afternoon is declared off, and a drill at the armory Monday evening substituted.

THE Union Feed Company held their regular annual meeting this morning, and elected their officers for the coming year. H. R. Macfarlane, president; Bruce Cartwright, vice-president; F. W. Macfarlane, treasurer; Walter S. Hank, secretary and auditor; John H. Paly, A. J. Cartwright, G. W. Macfarlane, and F. W. Macfarlane, directors.

Mr. J. P. Bowen has apparently received pointers in billiards from some of the professionals in town, as he challenged Mr. W. Howe to a game this morning, offering him double discount, notwithstanding the fact that before McCleery and Saylor came here, he could not give Howe single discount and beat him. Howe declined the challenge for reasons best known to himself.

PROGRESS OF WATER WORKS.

The Superintendent of the Honolulu Water Works is not quite through with the valley line of new pipes. The rain has prevented the skilled hands from working, though it did not interfere with the prisoners, who have been diligently filling up the trenches. When the weather is again fair, Mr. Wilson will resume work, with the prospect of finishing in one month.

CHINA ENGINE COMPANY.

It will be remembered that the boiler of the China Engine Co. was rendered useless by the great fire of April last. A new and improved boiler was ordered, and arrived here by the Zealandia last Wednesday. As soon as the boiler is landed, it will be attached to the engine, and immediately action will be taken to provide a house for the company. The probability is that the space formerly occupied by the Government dispensary, on Mannaeka street, between Hotel and Beretania streets, will be secured for that purpose.

THE ELECTRIC LIGHT.

The electric light, at the Palace, is the Thomson-Houston system, the patents on which are dated 1879, '80, '83 and '84. There are ten arc lights of 2,000 candle power each, a supply of incandescent lights arrived by the steamer Wednesday. Mr. D. P. Smith is electrician, assisted by Mr. A. W. Smith. The last named gentleman had charge of the company's electric apparatus at the New Orleans, Philadelphia and Chicago exhibitions. The Messrs. Smith have also a variety of globes, in amber, canary, ruby, green, porcelain, ground glass, clear glass and opal, which will be brought out in due time.

PROCESSION RAIN OR NO RAIN.

On telephoning to Col. Curtis P. Iaukea, this morning, to ascertain if rain would prevent the historical procession to-morrow, the questioner was referred to Mr. F. L. Clarke. On telephoning to Mr. Clarke, the questioner was politely requested to ask the Chamberlain. But on making known what the Chamberlain had said, Mr. Clarke replied that would be a procession to-morrow, rain or shine, as far as he was concerned. Later on, a message was received from Mr. Clarke, who says the procession will positively take place to-morrow morning, at 9 o'clock, provided a Kona is not raging.

A VAST AREA BURNED OVER.

Intelligence has been received from Dunreith, Dak, in the Turth Mountain region, of the most extensive prairie fires ever known in the Northwest. They have been raging for 10 days, both in the mountains and on the prairies. Thousands of tons of hay have also been destroyed, with a large number of houses, barns, crops and all kinds of stock. Many settlers have lost their all. The losses will reach \$1,000,000. One hundred and ninety-two thousand acres of land in all were burned over.

THE JOLLY FIREMEN.

After the parade on Tuesday evening, the members of some of the fire companies assembled in their halls for a few hours' entertainment. The hall of Pacific Hose Co. No. 1 rung with toasts, speeches and songs. Officers of engine companies Nos. 1 and 4, some members of No. 2, and a delegate from the Hook & Ladder Company visited the hose-men, at their quarters, and were received with appropriate honors. Sundry extemporized orations were delivered, in which the unity and fraternity of the several bodies composing the fire brigade were duly recognized. Mr. Souza of No. 4 saying that the Pacific Hose Company ought to participate on equal terms with the engine companies in the division of the money appropriated to the Fire Department for the celebration of the day. The same speaker brought his remarks to a close with the very emphatic but terse peroration, "let us all work together." The entertainment continued until about midnight.

THE WRONG MAN MARRIED.

In a small community like that of Honolulu, it is not surprising that different persons of the same name should occasionally get a little "mixed," but it is carrying the joke a little too far when we come to marrying a married man twice over. The Herald of this morning says:

Mr. R. A. Macfie Jr., manager of the Kilauea Plantation, Kaula, is to be married next week to Miss Ritson, daughter of Mr. John Ritson, of the Finance Department.

Mr. R. A. Macfie Jr., will object to this and probably also Mrs. R. A. Macfie, Jr. The bride elect—no opinion is offered as to what she will say. Let us explain in a few words. There are two Macfies at Kilauea—R. A. Macfie, Jr., and Edward Macfie. The first named is son of R. A. Macfie, Esquire, of Droghda Castle, Clinton, Scotland, and is manager of Kilauea Plantation. Mr. Edward Macfie is a nephew of the old gentleman, and hails from Sweden. Of his marriage, more will we said hereafter. Miss Ritson is well known in this community and the courtship has been conducted in a most unostentatious, but earnest manner, amid the groves and happy retreats of the Garden Island.

TALK WITH TUCKER.

Good morning, Mr. Tucker, how about your hot-air bridge? Oh, hunky-dorry! I have introduced 22 of them in California. You don't say so! Yes, sir, there's one on the Zealandia, but I don't want to boat of that, so if you want to know anything about its workings, just ask some of the boys. I have put one of my hot-air bridges in the Chicago Brewery, in all the Pacific Coast Co.'s steamers, four in Stockton, three in Sacramento, and one in Hon. J. A. Cummins' new steamer; and they all work well. How about Cummins' new steamer? She's a beauty; solid as a rock, and has two splendid boilers. She'll be ready to sail for Honolulu about December 15th. She's about 100 tons burden, and cut for a goer, I tell you.

WHALING NEWS.

The schooner Clara Light, was abandoned in the Ice in September last, about 15 miles north of Cape Franklin. The Ohio, has 1,515 barrels of oil, and 14,000 pounds of bone; the Abram Barker has 350 barrels of oil and 6,000 pounds of bone.

An officer of the Abram Barker reports the following as the success the fleet met with up to the time they left the islands: Atlantic, 1 whale, Fleetwing, 1 whale; Northern Light, 1 whale; steam schooner Reliance, 1 whale; Ellen Mar, 3 whales; brig Hidalgo, boiling blubber when last seen; Dawn, 4 whales; the Bounding Bill was cutting; Sea Breeze, 4 whales; Ocean, 1 whale; Mars, 1 whale and lost 1 in the ice; Young Phoenix, 3 1/2 whales, and the Reindeer 2 1/2 whales.

The latest advices from the steam whalers concerning the catch are as follows: Orca, 15; Grampus, 7; Balena, 4; Narwhal, 4; Thrasher, 5.

OUR HANSARD.

Our reports of the legislative proceedings of the session of 1886 is now published in book form, consisting of 744 pages, including a comprehensive "table of contents," carefully prepared by a gentleman who has taken a deep interest in the work during its progress through the press. These reports are impartial and entirely free from any partisan bias. The book is on sale at Mr. Soper's (formerly Oat & Co.'s), Merchant street, Mr. T. G. Thurms, Fort street, and the DAILY BULLETIN Office. The price is \$3.00.

RESULTS OF THE ELECTION.

The vote between the two principal contending parties in the late State election was remarkably close. The official count is now in progress in every county. So far as it has proceeded, it makes no change in the relative position of the rival candidates as shown in the unofficial returns. These represent Washington Bartlett's plurality over John F. Swift as a little over six hundred votes. The returns have not been carefully enough computed to determine beyond doubt the result in all the Congressional districts. There is reasonable certainty, however, that McKenna, Vandever, Felton and Morrow (Republicans) have been elected, and a strong probability in favor of Biggs and Thompson (Democrats). Sullivan, the defeated Democratic candidate in the Fifth Congressional district, has taken the preliminary steps toward contesting the election of Felton. There is no certainty as to the position of any of the candidates for the Supreme Bench, excepting Temple who has been elected by a large majority. The Legislature will be Democratic by a majority of eight on joint ballot. Pond (Democrat), has been elected Mayor of San Francisco, and the majority of the Democratic ticket was successful.—[S. F. Bulletin.]

Berlin, Nov. 8.—A French police agent named Roth, and a wine merchant, named Georges, have been arrested at Ars-sur-Moselle, for decorating the tombs of Frenchmen who fell in the Franco-Prussian War. The prisoners were taken on a train to Metz. Crowds cheered them along the route, and upon arriving at Metz they received an ovation. Prince Hohenzollern has advised the Berlin Government not to press the charge, but to release the men.

Toronto, November 9th.—Extradition proceedings commenced this morning against John F. Hoke, charged with forging and uttering bills of exchange on the Merchants' National Bank of Peoria, Ill.

Great Excitement in Wales about a Marvellous Cure.

Living Six Years Without Going to Bed.

Mr. EORROR.—While spending a few days at the pleasant seaside town of Aberystwith, Cardiganshire, Wales, I heard, related what seemed to me either a fabulous story or a marvellous cure.

The story was that a poor sufferer who had not been able to lie down in bed for six long years, given up by all the Doctors, had been speedily cured by some Patent Medicine. It was related with the more implicit confidence from the circumstance, as was said, that the Vicar of Llanyrtyd was familiar with the facts, and could vouch for the truth of the report.

Having a little curiosity to know how such stories grow in travelling, I took the liberty while at the village of Llanyrtyd to call upon the Vicar, the Rev. T. Evans, and to enquire about this wonderful cure. Through a total stranger to him, both he and his wife most graciously entertained me in a half hour's conversation, principally touching the case of Mr. Pugh, in which they seemed to take a deep and sympathetic interest, having been familiar with his sufferings, and now rejoiced in what seemed to them a most remarkable cure. The Vicar remarked that he presumed his name had been connected with the report from his having mentioned the case to Mr. John Thomas, a chemist of Llanon. He said Mr. Pugh was formerly a resident of their parish, but was now living in the parish of Llanddaniel.

He strongly vouched for Mr. Pugh's character as a respectable farmer and worthy of credit. I left the venerable Vicar with a livelier sense of the happy relation of a pastor and people, feeling that he was one who truly sympathized with all who are afflicted in mind, body, or estate.

On my return to Aberystwith, I was impressed with a desire to see Mr. Pugh, whose reputation stood so high. His farm is called Pancom-Mawr, signifying "above the dingle," situated near the summit of a smooth round hill, overlooking a beautiful valley in which is situated the lovely symmetrical Church of Llanddaniel. I found Mr. Pugh, apparently about 40 years old, of medium height, rather slight, with a pleasant and intelligent face. I told him I had heard of his great affliction and of his remarkable and almost miraculous relief, and that I had come to learn from his own lips, what there was of truth in the reports.

Mr. Pugh remarked that his neighbors had taken a kindly and sympathetic interest in his case for many years, but of late their interest had been greatly awakened by a happy change in his condition. What you report as having heard abroad, said he, is substantially true, with one exception. I never understood that my case was ever given up as hopeless by any Physician. I have been treated by several Doctors hereabouts, as good as any in Wales, but unfortunately my prescription by theirs ever brought the desired relief.

Fifteen years ago, he said, I first became conscious of a sour and deranged stomach and loss of appetite, which the Doctors told me was dyspepsia. What I could hold in my stomach seemed to do me no good and was often thrown up with painful retchings. This was followed after a time with a hoarseness and a raw soreness of the throat which the Doctors called bronchitis, and I was treated for that, but with little success. Then came shortness of breath and a sense of suffocation, especially nights, with clammy sweat, and I would have to get out of bed and sit in a chair. My affliction seemed to be working downward into my bowels as well as upwards into my lungs and throat. In the violent coughing spasms which I experienced, my abdomen would expand and collapse and at times it would seem that I should suffocate. All this time I was reduced in strength so that I could perform no hard labor and my spirits were consequently much depressed.

This medicine they administered to me according to the directions, when to my surprise and delight no less than my own, the spasm ceased. I became at ease, and my stomach was calmed. My bowels were moved as by a gentle cathartic, and I felt a sense of quiet comfort all through such as I had not before realized in many years. I could walk around the house and breathe comfortably in a few hours after I had taken the medicine. I have continued to take the medicine daily now for something over two months, and I can lie down and sleep sweetly at nights and have not since had recurrence of those terrible spasms and sweatings. I have been so long broken down and reduced in my whole system that I have not tried to perform any very hard outdoor labor, deeming it best to be prudent lest by over-exertion I may do myself injury before my strength is fully restored. I feel that my stomach and bowels have been and are being thoroughly renovated and renewed by the medicine. In fact I feel like a new man.

Early in this last spring I had a still more severe spasmodic attack, and my family and neighbors became alarmed, believing that certainly I would not survive when a neighbor, who had some knowledge, or had heard of the medicine, sent to Aberystwith by the driver of the Omnibus Post, some seven miles distant, and fetched a bottle of Mother Selgel's Curative Syrup.

I have been much congratulated by my neighbors, especially by the good Vicar of Llanyrtyd, who with his sympathetic wife have come three miles to shed tears of joy on my recovery.

I bade Mr. Pugh good-bye, happy that even one at least among thousands had found a remedy for an aggravating disease.

Believing this remarkable case of Dyspeptic Asthma should be known to the public, I beg to submit the above facts as they are related to me. 299 ft wly] F. T. W.

Inter-Island S. N. Co., LIMITED, The Best Route to the World Renowned Volcano of Kilauea

The new and staunch Steamer W. C. Hall Leaves Honolulu at 10 o'clock A.M. on TUESDAY, November 17th.

The steamer passes along the entire coast of the leeward side of Hawaii, affording tourists a panorama of charming scenery, and will stop at Kealahou Bay, where sufficient time is allowed to visit the Monument of Captain Cook.

Tourists by this route reach Punaluu at 5 o'clock on the day after leaving Honolulu, being only one night on the way, making the entire passage in smooth water. At Punaluu there is the
