HOKA.

The Alameda's failure to arrive this morning according to expectation was a great disappointment all round. Everybody was in readiness at day light, but the steamer, with the baseball players, was not on hand. Business has been suspended most of the day about as much as if the steamer had come. Hope was entertained by many until the major part of the forenoon had gone, that the steamer would yet be in time for a baseball exhibition this afternoon. But everybody is "hoka." It is expected, however, that what the community had calculated for to day will be realised on Monday next.

RELIGION IN GOVERNMENT SCHOOL HOUSES.

The Board of Education has adopted an expedient which has been tried and found to work well in some other countries; viz., to allow clergymen of any denomination the use of Government school houses for the purpose of giving religious instruction to children, after the regular school hours. The Board has instructed the School Agents that they "may arrange with the clergymen of any religious denomination to allow them the use of the public school houses after 2 o'clock, p. m., for a time not exceeding one hour once a week for each denomination applying, for the religious instruction of such scholars as may choose to attend with the consent of their parents."

This is a perfectly fair and equal proposition, giving no one denomination the advantage of others, and allowing all an opportunity to impress their religious beliefs upon the minds of those disposed to receive them. Some objection may be raised against the shortness of the time permitted—only one hour in each week to each denomination; but probably the Board will not hold very tenaciously to this point, if it be shown that the time is insufficient.

The Board provides for the entire youth of the country, of all classes and creeds, the rudiments of a secular education—teaches them to read, write, and cipher, and endeavors to instil into their minds the principles of morality. No form of religion is included in the curriculum, for the good and sufficient reason that in a community where several religious beliefs obtain no one of the number can be acceptable to all, and it is manifestly unjust to force upon a child a creed which is obnoxious to the conscience of the parent. And yet the Board does not interfere with parents bringing up their children to any religious belief they may deem best, but allows full liberty of conscience, even permitting its school houses to be used as schools of religion out of regular school hours. This is precisely what is done in the Australian colonies and some other countries, and is, in our opinion, all that the various religious denominations can reasonably require.

CURE OF CONSUMPTION.

EDITOR BULLETIN:—Dr. L. Weigert has discovered a cure of consumption by inhaling overheated dry air and Dr. L. Hafter has simultaneously proved this theory to be true by his experience. According to Dr Koch the tubercula bacilla cannot live in a temperature of 41 degrees Celsius, but Dr. Weigert constructed an apparatus by which dry air is heated as high as 100 degrees Celsius.

It is a remarkable fact such important discovery has been made simultaneously by two doctors, who had no connection with each other whatever. This discovery will be a great blessing to suffering humanity.

ANON.

BOSS RULE.

EDITOR BULLETIN:—I happened to get hold of a stray Honolulu Daily Advertiser the other day, of Nov. 5th, and in it I found quite a lengthy editorial against Bossism in Hawaii Nei. In one part he says: "Thus far in our 'history' we in Hawaii, can hardly be said to have ever known what it was to have a boss." Then again he says, "But however that may be, and however the present may differ from the past, we don't want any boss in Hawaiian politics; and we dont intend to have any if we can help it." What gall! Does he not know that the Islands from Hawaii to Niihau since our little unpleasantness, has been under boss rule? and how about the last Legislature! Was it not under a complete control of the bosses? and what a mess they made of it. Also about the Advertiser. Is it not under boss rule? How can it be otherwise, when unfortunately for the good of the country it is owned and controlled by a select few of the bosses. I give the Advertiser clan timely warning that the people are in no mood to be trifled with a second time. But if thou art really in for reform, and determined to be honest and consistent in the future, thou must cut the cord of the bosses, that thou art so entangled with, and commence on the ewa side of Queen street in Honolulu, "and quickly too," and strike out boldly and manfully against boss rule, and for true reform this time. "For by thy deeds, not words, shalt ye be judged in the future." Don't bother yourselves about us here we will take care that Hawaii and the whole country in fact goes right for true reform next time. I don't know, but I am afraid the "Advertiser" is not sincere in his harrangue about boss rule, but fears a change of bosses. Possibly he may be sincere, the worst of men sometimes reform, but we shall see.

ALOHA.

Hamakua, Nov. 17th.

KING STREET TRAMWAY.

EDITOR BULLETIN:—In common with other residents at the Waikiki district I observe with much interest the progress now being made in the construction of the tramway in that direction.

The laying down of the rails is now completed for a distance of nearly a mile beyond the turning near Mr. Jaeger's residence, or, about three miles from town. Not bad work when the kinds of labor and materials at the disposal of the contractor is considered, but of very little service so far as either the public or the tramway proprietors are concerned, until the road on either side of the rails is so far completed as to enable the tram cars to be used. As they are at the present time, and, judging from the rate of progress made during the past few months, the existing road is not only a positive nuisance, but an absolute menace to public safety, more especially at night time, for carriage traffic. In places the rails stand up 8 or 12 inches from the road on either side, making it quite impossible for a carriage to cross over, and, since the road in many places is so narrow, it is a most hazardous matter to pass vehicles coming from an opposite direction.

The rainy season must now be close at hand, and I, for one, protest most strongly against a system that will grant a concession to lay down a line of rails along a much-used highway, and yet neglect to use the most ordinary precautions for making it safe for ordinary traffic. If the Government were not prepared to put King street in sufficient good order to make the road safe, it would have been better for all concerned to have deferred the laying down of the rails until they were.

By putting on a strong force of men the road might yet be put in a decent condition before the inevitable rainy weather makes road work next to impossible, but I fear stronger arguments than my feeble pen can use, will be needed to induce our much extolled "Reform Government" to hurry this important work.

WAIKIKI.

The beet-sugar manufacturers of Saxony met on Sunday. October 21st, and unanimously passed resolutions declaring that the Sugar Bounties Convention was incompatible with their interests, and likely to injure the beet-sugar industry.

The Bombay police have discovered a secret traffic in guns, revolvers and ammunition, sent from Bombay in bales of goods to the Afghan frontier tribes. Four Afghans have been convicted and sentenced to two years' imprisonment each.

Telegraphic!

SAN FRANCISCO, Nov. 17.—The Alameda does not leave to-day on schedule time. Delayed by the English mails. But she will stay at Honolulu to give the baseball players an opportunity to play, all the same.

[This telegram, although dated the 17th inst., did not, for some unexplained reason, reach the BULLETIN office until this afternoon. It is in time, however, to set at rest all uncertainty.]

DOOMED.

A Chinaman Sentenced to be Hung.

The steamer Lehua which arrived this noon brought a Chinese, Ahop alias Ah Hapa, heavily handcuffed. He was tried at the present term of Court at Waimea, for the murder of D. Kapahee, the school teacher at Puna, Hawaii, a short time ago, and being found guilty was sentenced to death by Mr. Justice Bickerton. The prisoner is now in Oahu jail. The sentence will be carried out sometime in February.

DEATH OF MRS. EMERSON.

The sad news of the death of Mrs. U. S. N. Emerson at about 3 this a. m., from old age, was conveyed across the wires from Waialua, Oahu. In Mrs. Emerson is taken away another of those whose whole soul was devoted to good works. The prime of her life, the pride of her health and strength and her old age was a glad, continuous offering to her Saviour.

She was born Sept. 27, 1806, at Nelson, New Hampshire, U. S. A. She was married to Rev. J. S. Emerson in 1831, and the same year, with her husband, started with the reinforcement of missionaries, of which Alexander Armstrong, Lyman, Hitchcock, Clark and others were members, for these Islands. They left New Bedford, Mass., on Nov. 28, 1831, and arrived in Honolulu May 17, 1832.

The story of their voyage hither, their privations and hardships after arrival, the glorious success of their endeavors among the natives, are all matters which make many pages in the history of this nation. Those who knew Mrs. Emerson could but love and admire her: patient, gentle, kind, forgetful of self, ever ready to assist in times of trouble, with a firm and unfaltering trust in God, whose promises she tested so well she endeared herself to all with whom she came in contact. She was the true friend of the natives, helping them in all ways she could, excusing their shortcomings as does a mother those of her children.

She will be buried to-morrow, Sunday, the 25th inst., in the cemetery at Waialua, beside her beloved husband who preceded her in 1866, and 2 of her children. She leaves 5 sons: Samuel N. Emerson of Waialua, Dr. N. B. Emerson, President of the Board of Health; Dr. Justin E. Emerson of Detroit, Michigan; J. S. Emerson, Civil Engineer; and Rev. Oliver P. Emerson of Peacedales, R. I., U. S. A.; to mourn her incalculable loss. They have the heartfelt sympathy of all. Her life was a glad, glorious triumph, her end a sudden and peaceful victory.

The steamer Kaala leaves for Waialua this evening at 5 o'clock with a few invited friends.

A singular legacy has recently been left to the town of Dresden by Jean de Block, a Court Councilor. It consists of a collection of boots formerly belonging to Emperors, Kings, Queens and celebrated characters who have lived in recent times.

The Steamer 'Lehua'

Will sail on

Monday, Nov. 26th, at 4 p. m.

For Lahaina, Maalaea, Makena, Mahukona and Kawaihae; returning to Honolulu, Saturday morning, Dec. 1st.

Norwegian Citizenship.

CONSULATE OF SWEDEN & NORWAY,
Honolulu, Nov. 22, 1888.

EXTRACT from Norwegian Law, relating to Norwegian State-citizenship dated April 21, 1888:

Any Norwegian state-citizen having left Norway, and having the rights of a Norwegian born state-citizen in virtue of §2 of the Constitution, may retain his rights as a Norwegian state-citizen by making a declaration of his intention to remain as such, before the local Norwegian Consul previous to April 21, 1889, or within one year after his departure from Norway.

This declaration shall be valid for the space of ten years, within the expiration of which term it may be renewed for a similar period.

In all cases in which such right is retained, it applies likewise to the wife and to his or her children under age, who reside with their parents, or are educated and provided for by them.

Any Norwegian not complying with the above verbally or in writing, will lose his state-citizenship.

Scrub Exterminator!

THE "SCRUB EXTERMINATOR" is a specific recently discovered and patented, which will most Completely Destroy all Noxious Weeds or Scrub to which it may be applied, and will not injure the fertility of the ground nor prevent either vegetables or seeds of any kind from growing immediately after eradicating the weeds or scrub. Its extensive use in other parts of the world has been attended with great success, and it is certain to prove of great value to the land owners of these Islands whose property is infested by lantana or other scrub or weed.

The manner of using the "SCRUB EXTERMINATOR" is very simple, being merely to sprinkle it over the leaves or apply it to the stumps in liquid form.

The first shipment of this preparation being small, early application for a supply is necessary.
