THAT TREE BLIGHT.

By the Australia Mr. A. Jaeger received a letter from Mr. H. W. Harkness of the California Academy of Sciences, respecting the tree blight now found in Honolulu. The letter says, "The contents of the box to hand prove to be a living specimen of Icerya purchasi, sometimes called the Cottony Cushion scale. It is one of the most dreaded pests with which the horticulturist has to deal. It was brought to this State from Australia and has already spread over a large area of territory, and has utterly ruined a very great number of fruit and shade trees. Lately a parasite, the Wedelia cardinalis, has been imported from Australia, and it will we hope eventually exterminate the pest."—[P. C. Advertiser.]

But the department was informed that the copper had been subject to purchase and sale after recovery from the wrecks, and that the importers had not proved that it came from the wrecks of those vessels.

HER WEDDING DRESS.

The Brilliant Garment M. Arnaud of Paris Has Made for Tessie Fair.

Paris, April 18.—A cable to the New York Herald says: M. Arnaud has completed and sent to San Francisco the wedding dress that Miss Fair will wear when she marries Herman Oelrichs. The dress is of white satin, manufactured at Lyons especially for Miss Fair. It is covered with rare Alencon and Argentan lace, purchased piece by piece from the lace collectors and curiosity shops of a sort not manufactured at all nowadays. The train is three yards and a half long, covered with lace à la Louis XVI. A drapey of lace trims the bottom of the front skirts, and is held by a bunch of orange blossoms. The sleeves are of satin covered with lace, and the neck is finished by a high Medici collar of lace. The veil is of white tulle fastened by a spray of orange blossoms. The cost of this dainty wedding garment was 25,000 francs, the insurance over the Atlantic 15,000 francs, and the duty nearly 8,000 francs more.—[S. F. Examiner.]

PROTECTION OF LAWNS.

Every owner of a nice lawn is concerned to preserve its beauty. To do this it is necessary to avoid its concealment as to prevent its defacement by the unrestrained inhabitants of the street.

Heretofore the choice has been between two evils, but the Hartman Mfg. Co. solved the problem when they put on the market their Visible Steel Picket LAWN FENCE. It is not only a protection to the lawn, but even enhances the artistic effect.

So much has been said in its favor that there may be a suspicion of high price in the minds of our readers, but the first inquiry will dispel such a delusion; for it is actually cheaper than an ordinary wood picket fence.
