**NOTICE TO MARINERS.**

During the process of deepening the channel at the entrance to Honolulu harbor the Dredger will be in operation night and day. At night there will be a danger signal placed on the forward derrick of Dredger about 30 feet above sea level, which can be seen by all vessels approaching the harbor.

The signal consists Red Red of three red lights and a white light as in the diagram, the red lights being about 3 feet apart with the white light in the center.

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

**ENEMIES OF HAWAII.**

EDITOR BULLETIN:—

There is an article published in the Illustrated American, issue of April 23, which is a cowardly attempt to ruin these Islands and an atrocious libel on the Hawaiian race. It is evidently written by some idiot who is bitten with the idea that the United States have only to say, as was said of Carthage, "Delenda est Hawaii." The American papers delight in writing about the aggressive policy of England and insolent bearing of her inhabitants; but, sir, an average American can discount the greatest brag of England ever produced. The article I speak of is calculated to do more damage to these Islands at the present time when foreign capital is required than many such puerile publications as the last illustrated Record will counteract.

It is time the native population should bestir themselves and by one universal declaration of independence give the lie to the scandalous emanations from these idiotic annexationists. Let them know once for all that there are other interests here besides American and that they and their country are not to be sacrificed to fill the pockets of men who came here, some of them too poor to pay their passage, and who have not only grown rich but sent the money to be invested in other countries preparatory to their leaving after draining the last cent. I presume such speeches as those delivered last night are the cause of these damaging articles in the American papers, and it shows what a reckless disregard to the welfare of the country the speakers have. Now if these leaders of the Republican party will just try to do (by force of arms) what they are so anxious to bring about, viz., annexation, it would be far better for

these Islands, as it would be short, sharp and decisive, the people unfortunately having nothing to do could devote their time to it; but they dare not! they are like a lot of duckling geese, and are afraid of drum-head court martial the next time they are caught.

You must admire the gall of the future President? this brave leader? when he delivers his tirade against woman, a part of God's creation which he of all men ought to speak of with gratitude if he has no respect for them, but "Quos Deus vult perdere, prius dementat."

ROYALTY.

**AN ARTIFICIAL CIRCULATION.**

Is anyone so blind as to be deceived by the brag of the Advertiser in this morning's issue? A claim is made of a daily consumption of four reams of paper. We shall point out the deception. Four reams means 1920 sheets. Take one-third of this amount for the extra page, which is 640 sheets; and from 400 to 500 extra for sale of baseball ballots, and what daily circulation has the Advertiser? About 800! The extra edition containing the ballot consists of only 1280 copies. This can be easily verified by their own statements of sales of papers for voting purposes only—a artificial circulation, and at best only temporary.

**EXPLOSION AT KILAUEA.**

The boiler of the steam plow on Kilauea plantation, Kauai, exploded last Thursday, wrecking the machine and injuring two Portuguese workmen. The men were hurled into the air, one of them a height of 20 feet. One of the men was driving the engine, and it is said he did not understand the business. He had 165 pounds of steam on and let the boiler run nearly dry. The eldest of the men had two ribs broken, while the other was not so badly hurt. When the steamer Waiialea left yesterday the injured men were recovering rapidly and the doctor was confident of no serious results.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. Fifty cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

**"August Flower"**

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used Relieved in your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never Two Days. without a bottle, and if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. Constipation While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken Life of Misery with judgment. A. M. **INSURE IN THE Equitable Life Assurance Society of the United States.**

An Eminently Conservative and Safe Company.

FINANCIAL STRENGTH.  
The consideration of first importance in judging of the condition of any financial institution (and notably of a life assurance company, the majority of whose contracts extend over long periods of years) is its surplus strength. The Equitable has, over and above all liabilities, a larger surplus than any other assurance company.

Assets, Dec. 31, 1891. \$136,193,518.38  
LIABILITIES, including the Reserve on all existing Policies, (4 per cent. Standard) and Special Reserve (to provide the establishment of a 3 1/2 per cent. valuation) of \$1,500,000 109,905,537.82  
Surplus, \$26,292,980.56

This Surplus remains after making provision for every obligation, on a rigid calculation of Liabilities based on the standard prescribed by the Insurance Law of the State of New York, which assumes that Assets will be invested so as to realize interest at the rate of 4 per cent. per annum. In addition to this, in a spirit of conservatism, the Directors of the Society, on the recommendation of its Finance Committee, have set aside a Special Additional Reserve, looking towards even a more stringent and conservative future standard of valuation than the law now prescribes.
