

BY AUTHORITY.

Tenders for the Purchase of Hawaiian Government Bonds.

Notice is hereby given that under authority of Section 21 of "An Act to Amend and Consolidate the Laws relating to the Hawaiian Postal Savings Bank," approved on the 7th day of September, 1892, and on that day taking effect, the Postmaster-General offers for sale \$50,000 of Coupon Bonds of the Hawaiian Government, such Bonds being of the denomination of One Thousand Dollars each, redeemable in not less than five years, nor more than twenty years, with interest at six percent per annum, payable semi-annually, principal and interest payable in United States Gold Coin.

The Bonds express on their face that they are issued as security for the Postal Savings Bank Deposits.

Tenders for the purchase of the whole or any part of said Bonds will be received at the office of the Registrar of Public Accounts, Finance Department, up to 12 o'clock noon on THURSDAY, the 17th day of November, 1892.

The Postmaster-General does not bind himself to accept any tender or the whole of any tender.

WALTER HILL, Postmaster-General. Approved: P. C. JONES, Minister of Finance. M. P. ROBINSON, Minister of Foreign Affairs. G. N. WILCOX, Minister of Interior. CECIL BROWN, Attorney-General.

Mr. MARCUS R. COLBURN has this day been appointed a member of the Board of Inspectors of Animals for the District of Honolulu, Island of Oahu, vice Jno. H. Brown, deceased.

The Board now consists as follows: Wm. T. MONSARRAT, Executive Inspector. PAUL ISENBERG, Jr., MARCUS R. COLBURN, G. N. WILCOX, Minister of the Interior.

Interior Office, November 11, 1892. JNO. H. BABCOCK, Esq., has this day been appointed Notary Public for the Second Judicial Circuit of the Kingdom. G. N. WILCOX, Minister of the Interior.

Interior Office, Nov. 10, 1892. THE DAILY BULLETIN. Pledged to neither Sect nor Party, But Established for the Benefit of All. WEDNESDAY, NOV. 16, 1892.

THE APPROPRIATION BILL II.

It will be remembered that, as we published previously, Section 1 of the Appropriation Bill now before the House authorizes the expenditure of \$2,663,878.57 as against \$3,127,582.12 authorized by the Appropriation Bill for the period just ended. It would indicate on the face of it that a retrenchment of \$463,703.55 in the expenditures had been made by the Legislature. This, however, is not the true state of the case; as will be seen when the expenditures are examined by departments, and the nature of the alterations made in each considered. A portion of the lowering of the amount has indeed been effected by legitimate retrenchment, that is, by the reduction of cost to the state while continuing the efficiency of the service performed. Some has been done by false retrenchment, that is, stopping altogether the service performed, even if necessary, and so ending the cost to the state. And some by the natural cessation of the expenditure through the completion of the service required and the non-necessity for its renewal. Instances of each kind will be noticed in considering the departments in the already published list serial and in detail.

As we published previously the total sum set apart for Her Majesty's Civil List is \$53,500 as against \$72,800 for the preceding period—a reduction of \$19,300 for the period. Of this amount \$40,000 is devoted to Her Majesty's Privy Purse and Household Expenses, as against \$52,000 in the past period. We may remark in passing that this is a less amount than has been asked for on behalf of any Sovereign during any period since 1870, or over 22 years ago, and that, proportionately to the revenue of the country and the increase of expense, it is considerably less than any Sovereign has been granted at any time since the days of Kamehameha III.—a period of 40 years. It is but a just tribute to the evident continuous desire of Her Majesty for the welfare and happiness of her people to point out, on the authority of the public statement of Her Majesty to the House, that Her Majesty personally deserves the entire credit of making this notable reduction in the expenditure of the nation. The other reductions are caused by the merging of the position of H. R. H. Kaulani in that of the Heir Apparent, which struck out \$4800, and a reduction of \$2000 in the amount actually allowed to the Heir Apparent and \$500 in the amount allowed to the Chamberlain. The whole reduction of \$19,300 in this section is thus accounted for.

The next section, that of Permanent Settlements (a term by custom here equivalent to the pension list of other countries), amounts to \$9400, against \$5800 appropriated in the last period. The present list contains new items of \$8000 for the Queen Dowager and \$400 for Mrs. Kaula. These are partially offset by the omission of items amounting to \$1800 in last period caused by the lamented deaths of the Prince Consort and the Hon. H. Kuliheiani. This section therefore shows an increase of \$3600. The next division provides for the expenses of the Legislature and the Privy Council, which are set down at \$35,450 against \$35,300 for last period. It is worth while noticing that in 1870 these expenses amounted to only \$15,500, or less than half the present cost, and had been so since 1866. For the information of those who desire to note the increase of cost of the expense of legislation we insert the amounts appropriated since 1874; since which the increase, though not regular, has never fallen to the amount of 20 years ago: 1876, \$23,162; 1878, \$16,500; 1880, \$20,300; 1882, \$25,300; 1884, \$40,300; 1886, \$50,300; 1888, \$25,300. The growth has been mainly due to the successive increases in the compensation of Representatives, but part is also due to the increased length of sessions. The items devoted to the expenses of the Judiciary Department call for \$154,500 (not \$154,000 as footed in the printed copy now before the House which we followed in the first article) as against \$189,441.85 appropriated for last period. This provides for a Chief Justice of the Supreme Court at a salary of \$12,000 for the period, two Associate Justices at \$10,000 each, a clerk at \$6000, a deputy clerk at \$4000 and one at \$3000, a shorthand reporter at \$1800, a Hawaiian interpreter at \$6000, a Chinese interpreter at \$3600, a Portuguese interpreter at \$1800, two circuit judges at \$3600, a circuit judge at \$4000, nine police justices at from \$1200 to \$5000, twenty-one district justices at from \$600 to \$1500, a circuit clerk at \$1000, two circuit clerks at \$600, and a police clerk at \$2400. It provides also \$12,000 for the expenses of the Supreme Court, \$10,000 for circuit courts, \$5000 for witnesses in criminal cases, \$1000 for the purchase of law books, \$1500 for stationery, etc., \$2300 for printing and binding 8th volume Reports, \$2000 for extra interpreters, and \$2400 for pay of messengers.

The apparent reduction of \$35,441.85 on last period is made up as follows: A reduction of \$20,000, as there are now only three Supreme Court Judges instead of five; \$5700, caused by striking out one circuit judge for Hawaii at \$4200, and reducing the other \$200, the Maui judge \$700, and the Kauai judge \$600; \$1000 less for purchasing law books, \$500 less for stationery; a reduction of \$1600, caused by docking the chief clerk \$1000, or 14 percent, the shorthand reporter \$1200, or 20 percent, the Hawaiian interpreter \$1200, or 16 percent, the Portuguese interpreter \$900, or 25 percent, the clerk and interpreter of the Honolulu Police Court \$600, or 20 percent; \$4160 saved on police and district justices' salaries by decreasing the Police Judge of Honolulu \$1000, or 16 percent, taking \$600 off the Wailuku Police Justice or 20 percent, \$200 piece off eight other justices' salaries, and \$400 off one, \$300 off another, \$100 from another, and \$160 from a fourth. One judge for Kalaupapa, Molokai, at \$600, has been struck out altogether, and a new one inserted at \$800 for Central Hilo, and an increase of \$200 given to the Waimea, Kauai, Justice. An increase of \$618.15 for printing Reports is made.

It will thus be seen that over three-fourths, \$25,700, of this reduction is apparent and not real, being caused by the reduction in the number of Supreme Court Judges and Circuit Judges and Circuit Justices' salaries; and even this will be more than offset by the sum required to pay the new Circuit Judges, and the increase in the salaries of the present incumbents, caused by the passage of the Judiciary Bill. The actual reductions in salaries have been made, as briefly indicated above, on apparently so capricious and partial a method as to lay the Legislature open to the possibly undesired imputation not only of favoritism, on account of the haphazard and proportionately unequal reduction, but of the thoroughly deserved one of want of due consideration, comparison, reflection, and investigation in making the reductions. In short, we see in this department but an actual reduction of \$9741.85 made apparently on partial and possibly personal grounds, the whole benefit of which to the revenue has been cancelled by a new act of the same Legislature and extra expense incurred at the rate of about \$12,000 per annum.

The appropriations for the maintenance of the Judiciary department were, in 1862, \$64,400; in 1872, \$73,450; in 1882, \$122,125; in 1886, \$178,500; and in 1888, \$173,100.

The Case of Wramp. EDITOR BULLETIN:—Permit me to correct a statement published by you last evening relating to the case of Henry Wramp. Mr. Wramp was not a luna on the Koloa Plantation, and did not maltreat a Japanese laborer so that he died from his injuries as stated by you. He was an overseer on the Kekaha Plantation and pushed a Japanese, who slipped upon the cane and fell. The man was suffering from a hernia of which Mr. Wramp knew nothing. He died two days later, and after his death the charge was made that Wramp had kicked and abused him in a violent and brutal manner, and Wramp was prosecuted for manslaughter.

At the trial before a jury, at the last August term of the Circuit Court, the charge of manslaughter, in causing the man's death, failed, but he was found guilty of assault and battery, and the Court sentenced him to two years' imprisonment. The punishment was deemed so excessive, in view of the circumstances as proved, a petition for his pardon was signed by every member of the jury who tried him, by officers of the court, and by a large number of the influential residents of Kanai. WILLIAM O. SMITH, Honolulu, November 15, 1892.

Are your children subject to croup? If so, you should never be without a bottle of Chamberlain's Cough Remedy. It is a certain cure for croup, and has never been known to fail. If given freely as soon as the croupy cough appears it will prevent the attack. It is the sole reliance with thousands of mothers who have croupy children, and never disappoints them. There is no danger in giving this Remedy in large and frequent doses, as it contains nothing injurious. 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

"German Syrup" For children a medicine should be absolutely reliable. A mother must be able to put her faith in it as to her child. It must contain nothing violent, uncertain, or dangerous. It must be standard in material and manufacture. It must be plain and simple to administer; easy and pleasant to take. The child must like it. It must be prompt in action, giving immediate relief, as children's troubles come quick, grow fast, and end fatally or otherwise in a very short time. It must not only relieve quick but bring them around quick, as children chafe and fret and spoil their constitutions under long confinement. It must do its work in moderate doses. A large quantity of medicine in a child is not desirable. It must not interfere with the child's spirits, appetite or general health. These things suit old as well as young folks, and make Boschee's German Syrup the favorite family medicine.

There are few things in this semi-tropical country more undesirable than the night-singing canaries. They have no beautiful plumage nor does their habit of getting closer to one's heart by affectionate punctures make one year for their society. They are of the pests we would feel better without. For the last two or three sessions of the legislature efforts have been made to inflict upon us the rabbit—another terror equal to the mongoose in depredate characteristics. But the rabbit was kept out of the Kingdom through legislation; the other pest, the mosquito, cannot be reached by the law makers. Pictures of the offenders are herewith presented; if you meet the one the law cannot reach take it between your thumb and forefinger and contribute toward the extermination by a gentle squeeze. We mentioned, incidentally, a few weeks ago, something about the lamps that were expected on the Brig W. G. Irwin. The lamps are in the store and for artistic design and superior workmanship we commend them to your notice. When you are getting something to live with, like a lamp for instance, you may just as well have an article that you will not grow tired of. Where it costs no more than a plain clap-trap affair it is infinitely more satisfactory to you to get something chaste and beautiful. You look at a lamp just as you do at your rugs or your curtains; you want something that will remain new to you. That is the style lamp we offer you. Separate and distinct from these everlastingly beautiful lamps is an assortment of shades selected from the stock of the most celebrated lamp shade builder in the United States—square shades in silk, trimmed with french silk lace; umbrella shades in satin, lined with the same material. Around the edge is a deep silk fringe which shields the eye from the lamp's glare. Another smart shade is the Venetian; for table lamps. Made of surah silk and smothered in the fluffiest sort of lace. For the parlor where a piano lamp is not used nothing is more entrancing than this particular style of shade. We have them in a variety of colors from Pink to Red and from Canary to a Rich Orange. For a shade combining all the good qualities of the very expensive patterns but at a much less cost there are none more fetching than the Lace Canoe patterns. In size they run from the 10 inch, suitable for table lamps, to 21 inches in diameter for a piano illuminator. The lamps and shades of last year sink into insignificance compared with those we show you to-day. Ours is the recognized hot bed of lamps which are at once "rechurchy and distingay." Our present assortment is built of the kind that is sure to find the latch string to the doors of the handsomest residences in Honolulu.

The Number Nine!

The singular properties of the number nine are well-known to arithmeticians. The following is one of the most interesting. If the cardinal numbers from 1 to 9 inclusive, omitting 8, be used as a multiplier, and any one of them, multiplied by 9, be used as a multiplier, the result will present a succession of figures the same as that multiplied by the 9. For example, if we wish a series of fives, we take 5 times 9, equal to 45 for a multiplier:

1 2 3 4 5 6 7 9 6 1 7 2 8 3 9 5 4 9 3 8 2 7 1 6 5 5 5 5 5 5 5 5 A similar result will be obtained by using all the other numbers, including 8 (72). Another interesting fact is that there are nine letters in "EQUITABLE," and nine words in the following sentence: "Insure your life in the Equitable Life Assurance Society." BRUCE & A. J. CARTWRIGHT, General Agents for Hawaiian Islands.
