THE DAILY BULLETIN.

Pledged to neither Sect nor Party, But Established for the Benefit of All.

TUESDAY, AUG. 1, 1893.

Two comets are now described by the evening twinkler. Hope it's not a case like the "two speakers" seen by Sir Robert Peel's colleague on entering the House of Commons late one night.

It looks as if the P. G. were sailing close to the wind, when Stevens' "best" have to be called together only 5 1/2 hours before the regular session, to pass an urgency vote of money for expenses.

Both the Advertiser and Star are discreetly evasive when challenged for proof of their insinuations that the State Department disavowed the action of Minister Blount in extending United States protection to Mr. Nordhoff against the persecution of the Provisional Government.

A comet that was waxing in brilliancy for a few nights suddenly came within sight of the Hawaiian Star, when it immediately began to recede from the earth at the rate of a million miles a day. The pilot on the heavenly chariot thus showed he was an angel of good taste.

Abuse is the cheap and only answer the annexation organs can give to the exposures by Mr. Nordhoff. Why do they not work up some explanation of the fact that a resolution in contradiction and condemnation of Mr. Nordhoff could not get a seconder in the Executive and Advisory Council?

On July 16 the bark Royal Tar, Captain Logan, sailed from Brisbane for Montevideo, S. A., with 227 "New Australia" colonists to settle in Paraguay. Whether this strange expedition will end in delight or disaster to the adventurers remains to be seen. The landing of the "New Australians" may be to South America as great an event as the landing of the Pilgrims was to North America.

The Herald is forever angling for compliments in official waters, and has often amused its readers by telling how this or that European monarch or African king had acknowledged its world-wide influence.—Star.

What about that editor in Honolulu who lately paraded his receipt of alleged complimentary resolutions from the ex-executive of San Diego? Of course he never fished for anything of the kind, but the compliments were a long time a-comin', nevertheless.

In his Argonaut letter, republished with a slight excision to-day, Mr. Nordhoff gives another knockdown blow to the hypocritical lottery pretext of the revolution. He shows that to have been a supporter of the lottery scheme has been no bar to anybody's preferment by the Provisional Government. The part left out in this paper refers to a man who has strenuously denied having signed the lottery petition, and we have not seen the affidavit on the strength of which Mr. Nordhoff insists now that the same person was a signer.

Perhaps many of the three score and three readers of the "take one" evening twinkler do not keep the muddy thing in their hands long enough to see what a trick the owners are playing on them. They issue a sheet and a half of paper inked on all sides and call it a six-page paper, but generally a page and a quarter of advertising is printed twice. Many of the advertisements again are "dead," that is, their time has expired and they are only used to fill space. In some recent issues of the Star the same advertisements have been printed in three places! There has never been such a fraud in Honolulu journalism as the Hawaiian Star.

Mr. Nordhoff showed that the self-righteous lights of the revolution had always previously regarded the Queen as "an altogether wise and adorable sovereign." This presentation of fact has nothing to do with a recent statement of Mr. Nordhoff, quoted by the twinkler from the New York Recorder, that "after restoration the Queen will behave well." To contrast the former views of militant missionaries with the present views of a disinterested foreign correspondent may be an instructive performance, but its significance in any controversy is something no fellow can see. You may draw a strong contrast between a cow and a crab, but it will neither sour the cow's milk nor reverse the order of the crab's locomotion.

Doubtless in desperation over the rapidly waning prestige of its publications—a prestige belonging to years long past—the Hawaiian Gazette Company in its Pacific Commercial Advertiser of this morning publishes a lie out of whole cloth about the BULLETIN's foreign circulation. There have been no subscriptions to the BULLETIN in the United States stopped for many mails back, contrary to what the Advertiser asserts. If the Gazette office has received an order to stop the BULLETIN it has not carried out the order. A few months ago a relative of a Honolulu filibuster, who had been getting the WEEKLY BULLETIN at a friend's expense here, wrote a boorish note asking to stop his paper. This was the latest instance of the kind in the remembrance or records of this office. Our subscription lists and our daily and weekly editions, as they go through the press, are open to the inspection of any business man. We challenge comparison of our daily circulation in itself on the other islands with the boasted circulation of either the Gazette or the Advertiser. Outside of Honolulu there has not been one subscription to the DAILY BULLETIN stopped this year, while many new names have been added to our lists. A gentleman from Hawaii, who is not usually regarded as a politician, said the other day that he frequently does not take the wrapper of the Gazette, as he has no confidence in either its information or its sentiments. Almost daily we hear of copies of the Advertiser and of the Star being left at houses in Honolulu where they are not wanted and for which payment is refused.

We think nothing of losing a subscriber now and then, as there are always two new ones to replace it. Whereas, nobody can order a paper from the Gazette concern stopped without immediately being visited by an attaché thereof and badgered for his reasons and begged to continue. Proof of this statement can be furnished. Notwithstanding that there has been another evening paper in the field for several months, it is a fact for which we offer proof that the circulation of the BULLETIN has not suffered in the slightest degree. Business men are invited to verify this assurance at their pleasure. Our doors are open, our press is in full view, and our subscription books are available for inspection. And, moreover, we happen to know that some old advertisers who withdrew their patronage for political reasons have lost much more business thereby than many times what they would have paid us for their advertisements.

Trusts and Combinations. Are unpopular. But there is one form of trust against which no one has anything to say. That is the trust which the public reposes in Hood's Sarsaparilla, and the best of it is the trust is fully justified by the merit of the medicine. For, remember, Hood's Sarsaparilla Cures.

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

German Syrup

G. Gluger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief."

The yarn about the Chinaman dying the tail feathers of canaries and passing them off as a new species of feathery songsters is equal to the one about the man from Jaytown who paid a ventriloquist \$500 for a white owl believing it to be a new species of parrot. There's tricks in all trades but ours. You may wash our Cages or scrape them with a knife, you can't get the brass off—they're solid metal all the way through.

The amount of building going on in Honolulu is suggestive of a boom—a building boom rather than a peace destroying land boom; and these improvements suggest others, bath tubs for instance, not the flimsy zinc affairs but the handsome Enamelled Tubs which you see advertised by the Standard M'g Co. in all the magazines. There's no need for you to send off to the States for them, we can show you an assortment large enough for anyone.

Our California agents sent us some new fangled Key Rings by the "Castle" that ought to take well. They're decidedly easy of manipulation and very cheap. We have also a lot of Key Rings of the conventional patterns such as you have been using for the past twenty years. The styles are varied and the stock large.

The Red and White Glassware proved such a go that we have replenished our stock. The tall Water or Lemonade Tankards beautifully cut will grace any table. We have also the Salad Bowls, Dishes and Glass Tumblers to match the tankard. The price will win your admiration as quickly as the ware.

If you wish to know how rapidly and well brass work may be cleaned with Liquid Putz, watch the artist at McInerney's corner any morning as you come down to business. It is decidedly the best polish for Brass, Copper, Zinc, Steel, Tin, Bronze, Gold or Silver, a half dozen rubs and the article is handsomely burnished.

A month hence and the nimrods will be preparing for an active campaign against native ducks. Sportsmen are as fastidious about their ammunition as the average woman is about her Easter bonnet, the dealer must cater to the wants of the man who swears by Wood powder as well as those who believe Schultze and S. S. to be the only powder fit to use in a gun. When the season opens we will have a supply of the best "loaded to order" Cartridges obtainable. Our orders for the fall supply have gone forward and the stock will be here in ample time for the Sept. 1st sports. We have in stock some of the best Cleaning Rods that ever entered a gun, and we have also handsome Sole Leather Shell Cases. Last year we imported a few on special orders, this year we will keep them in stock if the public will allow us to; we would rather sell them.

A few Soup Ladles of exceptionally neat designs came to us the other day and are ready to go to you. Nearly every one uses them and when you want a new one why not get something new in pattern. We have them to show you or sell you.

Ever since the Hendry Breaker was introduced here and proven a success we have been working on a plan for an improved Double Furrow Plow. We received a few by the "Castle," two of them were shipped away Friday. It's the best Double Furrow Plow ever made.
