What Mills Said—Forty Percent on Sugar.

When the Turpie resolution came up in the Senate, Mills of Texas, who did not vote, explained that the resolution did not meet with his approval, although he would not vote against it.

The compromise amendments to the sugar schedule were adopted in the Senate on June 5, and the principal schedule on which the fate of the tariff measure depended went through without change.

As adopted the schedule imposes a duty of 10 percent ad valorem on all sugars, raw and refined, with a difference of 1 of a cent per pound on sugars above 16 Dutch standard, and an additional one-tenth of a cent against sugar imported from countries paying an export bounty.

The schedule goes into effect January 1, 1895, and the bounty is continued until that date.

The Republicans could not hold their forces together. Had all the Republicans and Populists and the two disaffected Democrats joined hands sugar, raw and refined, would have gone on the free list.

NAVAL OFFICERS AND SHIPS.

Coming Assignments—The Charleston Coming to Honolulu.

WASHINGTON, June 7.—A number of important naval assignments will be made in the near future. Captain Phythian's term as superintendent of the Naval Academy is nearing an end.

Captain Watson, commanding the San Francisco, will also be given shore duty on the return of that vessel from Bluefields.

The Lancaster is on her way home from China and the Alliance from the Pacific. They will be put out of commission on their arrival at New York and Norfolk respectively.

The Charleston, which has just returned to the Pacific station from her visit to New York, where she took part in the Columbian naval review, will be put in the dry dock at Callao, Peru, and given a thorough overhauling.

The Baltimore has arrived at Honolulu, Corea. Captain Benjamin F. Day is ordered to Yokohama by the S. S. China sailing from San Francisco on the 14th inst.

LUCOL :-

IS THE BEST PAINT OIL!

The following testimonial has been received from a prominent plantation owner and manager:

HONOLULU, H. I., May 29, 1894. You ask my opinion of Lucol as a Paint Oil.

I have experimented with Lucol Oil for outside and inside work, also on iron work, painting my vacuum pan, machinery and centrifugals, with it and the result has been most satisfactory.

Certain paint work which was always sticky with linseed oil, dried hard when Lucol Oil was used.

Direction for Use. Use Lucol in every respect in the same manner as you would linseed oil.

NEVER USE JAPANESE. Where hard surfaces such as floors, steps, etc., are required use litharge only, never use Japanese.

LUCOL MIXES WITH VARNISHES and assists their working and improves their appearance BUT THEY SHOULD BE USED SAME DAY THEY ARE MIXED.
