SATURDAY, DEC. 8, 1894

Rev. F. W. Damon advocates that the Teachers' Association have a technical library. It would doubtless be a great help to education, with or without a normal school.

W. C. Wilder has had a buggy fitted with an electric light for several years, supplied from the storage plant at his residence. The Star is a little behindhand in recording local modern progress.

Johnson the bicyclist is breaking records so often that he must rank in that line with the speediest steamers and horses of the day. Somebody must be the fastest wheelman in the world, and Johnson has a right to the honor so long as he sustains it.

Their latest atrocities in Armenia make the Turks more unspokeably detestable than ever in the eyes of the civilized world. It looks as if the United States will be compelled to take a hand in the Turkish question along with the European Powers. Some of her citizens laboring in Armenia as missionaries are among those the Turks keep in dread of their lives. The question with America will be whether she can go into European affairs in any case without abandoning the Monroe doctrine.

All praise is due the young Hawaiians who have banded themselves together in an association for mutual improvement. They should receive the encouragement of well-disposed people, at the start especially, when they are equipping their places of rendezvous. They have an excellent piano on trial in their hall, and propose to give a concert to raise money to buy it. They have talent that will make the price of a ticket be for "value received" and not a gratuity. Mrs. T. R. Foster has come nobly to the assistance of the Institute by granting it a commodious hall rent free for one year.

IT TWINKLES FURIOUSLY.

From reformulating pulpit thunder, the Star turns lightly to ordinary, vulgar, commonplace newspaper controversy. It is worked up grievously over a statement in Ka Leo that the BULLETIN is loyal to the Republic, which Ka Leo meant to be a damning count in its indictment charging the BULLETIN with treachery to something else. The Star enters a demurrer to the count, and pretends to offer proof of the BULLETIN's disloyalty. Its proof is exceedingly thin, being partly baseless assertion, partly statements that have no bearing on the issue, and the rest a weak defense of certain branches of the administration criticized by this paper. Similar arguments to those that the Star employs to prove the BULLETIN treacherous to the now established form of government—recognized as such by the leading nations of the earth—would if applied to the great Republican and independent papers of the United States, with regard to their dealings with the national policies of that Republic, convict all of them of treasonable expressions. If the BULLETIN followed the course of the Star, in trying to earn Government pay by being treacherous to the public interests, it would indeed be guilty of disloyalty to the Republic. When affairs are going manifestly wrong in different branches of the administration, it is the worst of treachery to the Republic for a public journal to keep on harping that everything is lovely and reputable. When the community is aware that the mounted police has been a nuisance instead of a protection, and that numbers of the special police engaged by the

bureau have turned out to be desperate criminals, and that several captains and subordinate officers have been expelled from the force in disgrace—too often with apparent reluctance—what sort of a reply is it to moderate statements of these facts for a public journal to say, "With W. O. Smith as Attorney-General and E. G. Hitchcock as Marshal the bureau administration has no need of a special pleader?" The BULLETIN is not aware that it has been conducting a systematic campaign against either the Attorney-General or the Marshal. It has published the news pertaining to the police bureau with much care exercised as to its credibility. If any or all of its news can be disproved by the Star, its own confidence in the bureau can only be shown by proving that such information as was in the ordinary routine, have given it untrustworthy. Some of the matters it has been our duty to criticize are long past, and we have been glad to notice some changes for the better. Moreover, this paper has had very much praise of particular police work from time to time. We believe that Messrs. Smith and Hitchcock are both men who will try to do the right thing, but they, like all other officials in responsible positions, would find it much harder to do their duty if there were no journals independent enough to tell them unpleasant truths about what is being done in their departments. A public press entirely of the cringing, flattering, beslobbering type of the Star would be one of the chief factors in bringing about the failure of the Republic. God save the Republic from such defenders as the Star.

Timely Topics OLD, YET NEW

December 8, 1894.

Every silver lining has its cloud. The rain is worth many thousands of dollars to the sugar producers but it has a depressing effect upon the bicycle trade. We are not handling riding wheels but we have the finest lubricating and lamp-oil for bicycles ever brought to this country. The containers have wee spouts to them so that the lamps may be filled direct from the cans and without spilling. This oil may be used in carriage side lights at a much less cost than peanut oil. It's in pint cans and sells at 50 cents. We have also a large stock of sewing machine oil suitable for all kinds of fine machinery including Typewriters.

Our famous Dietz Oil Stoves with ovens and cooking utensils have arrived and are offered to you at low prices. These stoves are arranged so that there is not the slightest odor from the lamps, and they may be used at an expense of about two cents a meal. People in Honolulu who are using this make of stove pronounce it perfect in every respect. One customer told us he would not accept any other kind of stove as a gift. If you prefer an iron stove our stock of Pansy Stoves all sizes is now complete.

Painters will be interested in our stock of Shellac, Copal and all sorts of varnishes as well as lead and oils which has been largely augmented by recent arrivals.

In addition to the celebrated Belding Refrigerators we carry the new Alaskan, constructed on entirely different principles from any other and made of hard wood and parts liable to rust fully protected. This is the same make of refrigerator used in the California Hotel in San Francisco.

We have some Common Sense pot cleaners that are needed in every kitchen in the country. Every lady who occasionally does kitchen work appreciates the value of a good pot cleaner.

Road Scrapers will be needed after these big rain storms. We have some in stock suitable for the work.

We are now selling the "Dandy" anti-rattler for carriages where the shafts keep up a continual shaking. If you want to enjoy your ride do so by using an anti-rattler and ridding yourself of annoyance on that score.

The sugar grinding season is at hand and engineers will have use for oils for the mill machinery. The "Colorado" brands are known as the Standard in this country and can be relied upon for their purity and general good qualities. We have this brand of oil in use on almost every plantation on the islands and wherever it is used satisfaction is the result. We have always in stock Dynamo, Cylinder, Machine, Engine and Car Box oil in "Colorado" brand. It is the best manufactured and the best used.

Our stock of holiday goods is complete in every particular when it comes to useful articles, rich in quality and low in price.

STYLES IN

Tortoise Shell Goods!

The large Pain Top Shell Comb is the correct thing this fall. So the Comb "Grandmother" wore comes in just right. Strange how the old is sure to be revived; how every new idea is but the old in a different form. My line of real Shell Combs is very large at the present time and contains many special patterns not generally found in other stocks. All the shapes in plain and carved, and plenty of them. Some as cheap as \$1.00, some as high as \$10.00.

Side Combs

are also once again revived, and with this season's style of dressing the hair, absolutely indispensable. We have them in many shapes, both gold and silver; and know your taste can be satisfied; while for regular hair ornaments in both gold and silver, our stock never offered such tempting display.

The Board of Health recommend that all drinking water be boiled and filtered. No one doubts the necessity of this precaution with our city supply, but those who drink

NAPA SODA

are always sure of its absolute purity. We warrant every bottle. NAPA SODA is a pure mineral water, just as it comes charged with sparkling gas from the bosom of mother earth. It is prescribed and recommended by the most eminent physicians. It is not one of the new "make-believe" natural waters, but has been in extensive use for twenty-five years. We furnish this "King of Table Waters" by the Bottle, Dozen or Case. We now have cases of Sixty Bottles, especially for families, at the very reasonable price of \$6 per case. ALOHA TOOTH POWDER.

is the most perfect dentifrice yet discovered. It is manufactured after a celebrated formula now in our possession. The materials used are the purest obtainable; contains nothing deleterious to the teeth or gums, and its use cannot be otherwise than pleasant and beneficial.

Many people while laudably attentive to the preservation of their teeth, do them harm by using a tooth powder containing excessive "grit." Daily applied such dentifrices are calculated not only to injure the enamel by excessive friction, but hurt the gums. A trial of ALOHA TOOTH POWDER will convince anyone of its merits and the advantage of using a dentifrice of the purity of which they can be certain. It is attractively put up, and will be sure to please you in every way.
