OBSERVATIONS.

More than fifteen thousand men have been thrown out of employment at one stroke by the Leather Trust of the United States. How long will the tyranny of trusts be allowed to last, when such gigantic wrongs as these are perpetrated by them?

It would seem that Northwest America is rapidly becoming a veritable Opium. From Washington State, British Columbia and Alaska come reports of the discoveries of fabulously rich gold deposits.

After an interview with Chancellor Hohenzollern, the Turkish Ambassador left Berlin without paying the usual visits. When he left the presence of the Chancellor the Turk seemed greatly agitated. It is reported he implored the Chancellor not to have Germany assist England in forcing Turkey into a road that might lead to revolution. Receiving no satisfactory answer he folded his robe about him and decamped.

In California insect pests are rapidly disappearing before the hosts of ladybirds enlisted for their extermination. There yet remains to be discovered, however, the particular kind of parasite that delights in codlin moth on toasts. That pest fits, by recent accounts, the most destructive one with which fruit-growers have to contend. Paris green is the only antidote to it at present available.

President Cleveland, if it is true he agrees to an annexation treaty on condition of a popular vote in the islands upon the question, doubtless means a vote of all who would be electors now without the test oath. There is therefore work ahead for the true supporters of annexation, which should not be delayed if a majority of the natives is to be won.

MRS. STEVENSON HERE.

The Family Will Stay at Sans Souci for Three Months.

Mrs. Robert Louis Stevenson, together with Lloyd Osbourne and her daughter, Mrs. Belle Strong, arrived from San Francisco on the Mariposa this morning and have taken a cottage at Sans Souci, where they will make a stay of three months.

Mr. Osbourne was quite ill when leaving San Francisco, but is now much better.

During her stay in San Francisco Mrs. Stevenson resided at 7 Montgomery avenue, the lodging-house that so long under "Mother Hunt's" management was a haunt of Bohemians. It was there that Robert Louis Stevenson stayed while in that city, and although the kindly old landlady who made the house so popular has passed to her long rest it still remains a headquarters for artists and newspaper men.

Senator Jones of Arkansas is interested in a new invention, expected to be profitable, the packing of cotton in cylinders instead of bales.

Judge Allen G. Thurman has survived his 82nd birthday in feeble health.

Judge Crisp, ex-speaker of Congress, addressed the Legislature of Georgia. He said the Democrats of Georgia should demand that their representatives in the next Congress insist upon the making of a platform by the people who elected the President and not by those who lived in States that did not furnish the electoral vote. Judge Crisp's speech is considered the opening one in his campaign for the United States Senatorship to succeed Senator Gordon.

The New York branch of the Bank of Montreal has received from Kootenai, B. C., the second largest block of gold that has

ever passed through the New York assay office. It is in the form of a sugar loaf, weighs 2435 ounces, and is valued at \$41,357. The gold comes from the Carbon mine. The bank has also received from the Horsefly mine, in the same section, a gold brick, weighing 1151 ounces, valued at \$26,154. The metal is virgin gold, of greenish tint, similar to Australian gold.

The battleship Texas has been badly damaged in the New York dry dock, twenty-one frames and brackets having been buckled by the ship's own weight.

Ex-Senator Palmer's house at Detroit has been burned, the loss on building and furnishings being \$50,000, with no possible way of estimating the loss of the art collection. Mr. Palmer's record of the World's Fair, which cost him more than \$1000, and his own portrait by Johnson, valued at \$5000, were among the lost works.

Some one wants to buy Keyley motor stock. On the ticker in New York has appeared the legend: "Keyley motor 41" which means that 41 had been bid for the stock by some broker with an order to fill. The bid had for this stock was made nearly two years ago.

It is now definitely arranged that on Sunday, November 17, important changes will be made in the schedules of through California trains via the Chicago, Union Pacific and North-western lines, which will make possible the shortest time ever made by regular trains between Chicago and San Francisco. The special train will leave Chicago at 6 p.m. daily and reach San Francisco at 8:45 p.m. the third day. Connection will be made for Los Angeles which will save twenty-four hours from the schedule.

The State of Kentucky, including blue grass land, blooded horses and tobacco, is worth \$370,743,384.

There are believed to be over 40,000,000 watches in use in the United States.

THE BICYCLE CONTEST.

Interest in the Result is Again on the Increase.

Following is the result of the counting of the ballots in the BULLETIN'S Bicycle Contest at noon today, a total of 10,968 being cast:

Table with columns for BICYCLIST and BICYCLE, listing names like Miss Annie Clark, Miss C. Newton, etc., and models like Monarch, Rambler, etc.

Bulletin Bicycle Ballot. No. 25. Good for Two Days Only. MOST POPULAR BICYCLIST. BEST BICYCLE. Fill in blanks with your choice of bicyclist and bicycle, and deposit this ballot at the BULLETIN business office by 12 o'clock noon, Saturday, November 23, 1895.

Timely Topics

The able address by Mrs. Sturtevant-Peet, president of the California Woman's Christian Temperance Union, on the occasion of the annual convention of that body in San Francisco, contained a passage which takes strong ground on the benefits of the bicycle. In speaking of physical culture and the relation of the clothes to the subject, she said:

"All know the value of a strong unhindered body. For this reason the banishment of the corset and restricting bands is a foregone conclusion. Dress reform has pressed its claims for forty years, with little progress till the bicycle, that graceful, silent steed of motion, dashes through and bursts open the door of prejudice. This mystic wheel that we meet on every road and street is the mute but telling advocate of dress reform."

It has its virtues as well as its charms. It invites, yea, demands, simplicity in dress. It encourages physical exercise and utterly refuses to carry a drunken rider. Unlike the horse, it balks when touched by the hand of inebriety. It inconveniences and discourages the use of cigars and cigarettes to the number of 65,000,000 a year. In short, the wheel is a reformer, and, though, it came not through the virtue of moral conception, we should welcome its presence as we do the advent of every new invention and corporate edict bearing the balm of sobriety, with the promise of stronger and better men and women."

This is a straightforward expression from an able woman who led the California forces of one of the greatest National organizations ever instituted for the uplifting of the race. The dignity and earnestness which characterize her opinion cast into the shades the hallow objections which some physicians have made to the bicycle. Mrs. Peet gives us to understand that in the sole aspect of requiring women to dress sensibly this simple instrument of locomotion has accomplished more at a dash than the preachers on sensible dress for women have been able to bring about in nearly half a century. With so eminent an indorsement as this, even the most timid woman who is not held in what amounts to physical restraint by father, husband or brother from obeying an instinctive impulse to dress rationally and enjoy life and health on a bicycle, may at least console herself with the reflection that her impulse was right and lament that she was born a few years too soon.

In addition to the above Mrs. Peet might have mentioned the saving in labor attained by the patent sprocket attached to the Tribune wheel, which amounts to over 15 per cent, no small desideratum when ladies are concerned.

The Tribune is the wheel par excellence for ladies' use, it has the newest patents and improvements and can be run with 15 per cent less work than any other wheel in existence.
