C. E. Desky is the proud possessor of a relic of monarchy in the shape of a big sword which has "K. III." on the hilt. Plucky Young Mountaineer.

While anxiety relative to the mysterious disappearance of Mr. Smith was at its height, the nine-year old son of Sam Decker volunteered his services to go and find him. The lad is a good rider and, from having made frequent excursions up Tantalus and the neighboring valleys, believed that he might find Mr. Smith. Sure enough, he was the lucky one, locating Mr. Smith after a little more than an hour's search and guiding him out of the lantana in safety. He loaned Mr. Smith his horse to carry him into town.

W.W. DIMOND'S

A half dozen years ago a gentleman of Honolulu remarked after buying and riding a bicycle that "the day will come when half of Honolulu will be on wheels."

The remark or prophecy has become literally a fact, for who is it who will not ride a bicycle when they can get one that is as reliable as the Iver Johnson?

This is a new wheel here and it will take time to introduce it, but once it gets a hold, or rather once it is seen on the street and tried it will replace nearly all the makes now sold here. We have the Iver Johnson; it is a high grade bicycle of 1896 pattern and is sold under a guarantee. George H. Paris will ride a Johnson and you who are used to wheels and know a good one when you see it will recognize at a glance the good points.

We have others. Four months ago a bicycle agent in San Francisco in order to introduce his wheel took over from the proprietor of a cycle-ry all the wheels he had in stock. Some were a week old, others new, some had been used a month. They are as good today as when they left the factory. We took the whole stock at a bargain.

You have a chance to get them from us.
