

HOW TO CARE FOR BEDS.

The Washing of Blankets and Dusting of Mattresses.

Mattresses, blankets, pillows and other articles of bedding require much care to be kept odorless and clean.

The main enemies to mattresses are dust, damp and moth, and frequent brushing must be given them, for in an incredibly short time they will harbor dust all along the edges and where the button is fixed.

Blankets are a difficulty to many people, mostly because they cannot make up their minds as to how often they should be washed. In many houses they are only washed once a year; but somehow that does seem rather too rare a proceeding.

How the Letter "i" Came to Be Dotted. The letter "i" has not always been dotted, for Dissraeli, in detecting a literary forgery, says, "Besides that there were dots on the letter 'i,' a custom not practiced until the eleventh century."

How the World's Goldfields Have Developed.

Victoria and California were both phenomenally rapid, the former having, however, an undoubted claim to the first position in this respect. Gold was first discovered in California in Colonel Sutter's mill race, 1848.

To My Patrons:

It gives me much pleasure to announce that MR. M. R. COUNTER, one of the most skilled watchmakers ever in these Islands, is now managing my repairing department. No watch is so complex in its mechanism but we can give perfect satisfaction in correcting the evils to which watches are heir. Watches are delicate things to handle. We guarantee that they will receive no injury at our hands and will leave our store in perfect repair.

Respectfully,

E. A. JACOBSON,
