of renewing your old Hair, Tooth, Nail or Flesh Brush, before the in-

crease of price takes place, and save 15 per cent.

We have anticipated the change which annexation would bring about in prices, and in consequence we have imported a large and complete line of fine Bristle Brushes from Dupont, the leading maker of France.

We now propose to give our cus-tomers the benefit of our purchasing at low figures, and will continue to

sell all brushes at the 15 per cent. re-

FISHING SMACK MALOLO.

Will Go Out Tomorrow to Take Soundings.

The fishing smack Malolo baul ed alongside the Waikiki and of Brewer's wharf this morning to make preparations for putting to Her papers were taken

from the Custom House today and Captain Sass says he expects to for the channel between Lana and Molokai sometime tomorrow It is there that the Malolo will

operate mainly. The trip will take about a week and the time will be spent in taking soundings and making other measurements so that the large net brought from San Francisco can be arranged accordingly.

After this is done, expert native fishermen will be sought out and employed to do the work of hauling out the finny creatures.

Mr. Sass thinks there is a fine

outlook for the fishing business. Out in the deep water there will be no paying of exorbitant rates that are now being de manded of the fishermen and the consequence is that fish will be sold at much lower prices by the owners of the Malolo than are at present asked at the market.
