Sheldon walked all the way from the pumping station to Beretana street and was there picked up by James Hunt who took him to the office of Dr. Wood where the injuries of the man were attended to.

## CHILLINGWORTH, THE DEPUTY

On the 1st of August, Charles Chillingworth, second deputy marshal will take the place to be left open at that time by R. H. Hitchcock who resigned as first deputy marshal yesterday, the resignation to take place at the time mentioned.

Mr. Chillingworth went into the Police Department as a clerk in the Deputy Marshal's office. He showed himself a worker and was soon promoted to be second deputy marshal. Since that time Chillingworth has worked harder than ever and his friends are glad to learn that the Marshal has given him the well deserved promotion.

Seen about the matter this morning Marshal Brown stated to a BULLETIN reporter that there would probably be but one deputy marshal in the future.

### Forgot to Signal Back.

Quite a number of the apprentice boys on the Adams have got themselves into trouble. Yesterday afternoon they were being given target practice. One lot was off the ship and another was on the deck with signal flags. When it came time to answer back some signals sent to the ship the boys were found "skylarking" about on deck. As a result of this little escapade the boys are getting no liberty.

### California Horticultural Here.

## RESIDENCES OF OFFICERS

Commandant Merry Looking for Eligible Site Therefor.

Government Land First Preference—Site of Old Powder Magazine Under Consideration.

Captain Merry, commandant of the Honolulu naval station, has been looking about for a site for residences of officers of the navy. As in the case of harbor frontage and privileges, the commandant has power to take possession of any land required by the United States Government. Where Hawaiian public land is found suitable, there is no question of condemnation proceedings. It may just be marked off and declared United States property.

One of the places under consideration by Captain Merry, for the purpose above mentioned, is the site of the old powder magazine. The Hawaiian Government lately declined to receive proposals from real estate dealers for this tract of desirable building property. The commandant is out on his quest this afternoon. His own office on the esplanade is in course of construction.

### Acquitted of Sedition.

## WITH EXECUTIVE COUNCIL

Several Matters of Business Attended to This Morning.

The Honolulu Sewerage System—Outfall Part to Wilson & Whitehouse—Other Part to Vincent & Balsar.

All the Ministers were present at the meeting of the Executive Council this morning. The most important item of business of the session was the matter of the bids for the construction of the Honolulu sewerage system. The report of the Superintendent of Public Works was read. The bids were found to be as follows: Wilson & Whitehouse—Outfall, \$29,500 and other part, \$149,443.50. Time of construction, from July 15, 1899 to July 19, 1900.

W. J. Schmitt & Ansen S. Blake—Outfall, \$40,000 and other part, \$89,765. Time of construction, three hundred days.

Vincent & Balsar—Outfall, \$36,250 and other part, \$67,929.50. Time of construction, from August 1, 1899 to July 1, 1900.

R. C. Mattingly—Outfall, \$18,910 and other part, \$32,432.60. Time of construction seven months.

The report of the Superintendent of Public Works recommending accepting the bid of Wilson & Whitehouse of this city for the outfall and that of Vincent & Balsar for the other part. The report was adopted by the Cabinet.

It will be noticed that the figures of R. C. Mattingly fall ridiculous below those of the other bidders. It will also be noticed that the Superintendent of Public Works did not recommend anything for this contractor. The action of the Cabinet this morning in adopting the report of the Superintendent of Public Works shows that the BULLETIN was correct in its assertion of yesterday in regard to the lucky ones.

The appropriation for the sewerage system is \$257,000 and the cost of construction according to the bids will be \$974,950. This leaves \$159,570.50 for material which the Government will have to purchase.

The report of the Superintendent of Water Works in regard to analysis of water from the Kahe, Ai, Gulick and other wells in Kalihi was read. It was found from the report that the water improves the farther west one goes. It was recommended that the Kalihi pumping plant be located near the Gulick well where the best water is to be found and the matter was then referred to the Superintendent of Public Works to pick out a fitting site.

An amendment was made to the rules of the Auditor's office. This will be published by the Government later on.

Articles of Corporation of the Merchants' Stevedore Company and the Hawaiian Dry Goods Association were received and referred to the Attorney General for action.

The application of the California Feed Company and A. F. Cooke to lease the old Custom House that is now occupied by the feed company mentioned were referred to the Survey Department for a report. The lease of the building has run out.

## PRETTY CHURCH WEDDING

Marriage of Miss Auld and Mr. Pfeuger Last Evening.

St. Andrews Cathedral Artistically Decorated—Reception at the Home of the Bride's Uncle.

The wedding of Miss Maud Auld and H. C. Pfeuger at St. Andrew's Cathedral last evening was one of the prettiest events of the season. The church was most becomingly decorated for the occasion. A large concourse of the friends of the contracting parties were present to see the tying of the knot and congratulations were showered upon the happy couple at the close of the ceremony.

Rev. Alexander Mackintosh was the officiating clergyman. The bride was given away by her uncle Wm. Auld. E. B. Barthrop was best man and Miss Harriet Morton of San Francisco bridesmaid. The ushers were W. Wright, Geo. Smithies and E. L. Stiles. Wray Taylor presided at the organ. The bridal party was ushered into the church by the strains of the Lohengrin Wedding March. During the ceremony Schubert's Serenade was softly rendered by the organist. After the ceremony and during the signing of the register by the contracting parties and witnesses Wagners' wedding march was played. The party was met on issuing from the vestry by Mendelssohn's wedding march.

Following the ceremony at the church was a reception held at the residence of Wm. Auld at Palama. Mr. and Mrs. Pfeuger received their friends under a wedding shower of most beautiful flowers. The whole house was transformed into a fairylike garden. Dancing to music furnished by the Quintette club and the discussion of a most pleasing repast was enjoyed until a late hour.

The presents were many and costly, consisting of silverware, china, bric-a-brac, paintings, and the usual number of lamps and clocks. Mr. and Mrs. Pfeuger are occupying their new cottage on Fort street near School.

## THE OMAHA EXPOSITION

There will be a special meeting of the Board of Agriculture tomorrow morning, for the purpose of formally granting the use of the Board rooms for assembling and packing the Hawaiian exhibit for the Greater America Exposition.

Yesterday afternoon the Commissioners of Education, at the instance of Minister E. A. Mott Smith, took action toward preparing an educational exhibit.

It is intended beginning the work of collecting articles, for which considerable canvassing has been done, the first of next week. Some contributions from Hawaii and Maui may arrive tomorrow.

The canvass for the \$10,000 fund has been hampered somewhat by the large steamer business this week, yet the result to this moment is not very unsatisfactory. Half of the amount is in sight, with several promises of increase in individual subscriptions if necessary. Many of the business houses seem to take a real interest in the scheme, evincing confidence that it will yield returns of great general benefit to the city and islands.

### New Millinery.

Mrs. Naphthaly received by the Australia a choice selection of seasonable millinery and invites her patrons to call at No. 537, Fort street, Love building.

## THEY LEFT PLENTY OF COIN

Soldier Boys of the 16th Had Upwards of \$50,000.

They Spent Their Money Freely and Small Dealers Made a Winning—Chinamen Objected to American Paper Money.

The members of the 16th Regiment who sailed for Manila today on the big transport Grant, received two months' pay on Wednesday last. Since receiving this money the soldiers have expended most of it in Honolulu, purchasing for the most part fruit and souvenirs of the country.

Scores of the boys in blue and browns were to be seen riding bicycles, not a few tandems figuring among the lot. Kodaks were also in demand to say nothing of tobacco, pipes and photographic views of the islands as well as of themselves.

The restaurants have been monopolized almost by the military since pay day, anxious as they were to relieve the monotony of ships fare by eating ashore.

Thousands of leis were purchased by the soldiers, whole squads of them marching down to the transport just before 6 o'clock last night, generously bedecked with the lovely flowers of Hawaii. The Pikes were very wary of the crisp new United States five and ten dollar notes, in many cases unaccustomed to them they refused to accept them.

The boys made it a point to spend their money here as another pay day is due shortly after their arrival in Manila—and they will need no money aboard the Grant.

Over \$50,000 was necessary to pay off the men, and it is known that the greater part of this amount was left in Honolulu.

### The Shakespeare Recitals.

One of Shakespeare's greatest tragedies, "Othello," has been chosen as the play with which to open the series of Shakespearean recitals to be given tonight in the Y. M. C. A. hall by Mr. and Mrs. Hannibal A. Williams of New York. This masterpiece of dramatic composition will be interpreted by Mr. Williams in dialogue and comment in such a way that the literary beauty, the moral that the play teaches, and the varying emotions and sublime tragic force of the play will be shown and felt. Mr. Williams is an acknowledged master in his particular field—namely the interpretation of classic dramatic literature.

### Notice to Doctors.

The Board of Health give notice under New Tidy column that the provisions of Act 34 of the Session Laws of 1888 entitled, "An Act to Provide Against the Adulteration of Food and Drugs," will be enforced from and after July 1, 1899.
