MISS PHOENIX BAILEY, Box 445, Pasadena, California.

"I have suffered from the effects of impure blood, boils, pimples, etc., for five years. I have tried various remedies without relief and finally purchased six bottles of Hood's Sarsaparilla. SAMOA AGAIN DISCUSSED

Washington, October 17.—Negotiations have been commenced between the three Powers signatory to the Berlin treaty contemplating a permanent settlement of the Samoan question. Herr Mumm von Schwarzenstein, German special envoy, called at the State Department Monday and discussed Samoan matters with Dr. Hill, Acting Secretary of State. It is understood that neither Herr Mumm nor Dr. Hill has received any information confirmatory of the report that the natives have declared Tamasese King, although it is known that peaceful conditions do not exist in the island. The character of the treaty for the permanent settlement of the question has not yet been determined, nor will it be until after a conference between the representatives of the three Powers. It has not yet been determined whether this conference shall take place in Washington, Berlin or London. All that can be said about the matter is that the three Powers are considering the joint report of their commissioners and will make that report the basis of the plan which will be presented to the proposed conference.

It is understood that three Governments are giving serious consideration to the advisability of the partitioning of the islands. Germany is not opposed to such a plan, declaring that its adoption will be the only effectual means of settling a troublesome question, but she wants the island of Upolu, giving Tutuila, upon which Pago Pago harbor is located, to the United States, and Savaii to the English. Such a method of partitioning will probably be objected to by Great Britain, as Upolu is the most important island of the group. Apia, the capital, being located thereon. In the coming conference undoubtedly consideration will be given to the suggestion of partitioning the islands.

Berlin's Proposal.
Berlin, Oct. 17.—The "Schlesische Zeitung" announces that a new proposal has been put forward regarding the Samoan question.

England has offered Germany compensation if she will renounce Upolu.

The Agrarian organ adds that it is not impossible that Germany will accept the proposal, provided that a very high indemnity is paid.

The Foreign Office intimates the report in the "Schlesische Zeitung" is an indiscretion and is not quite exact. It is true that England made the proposal in question, but it was declined.

As a consequence the "North German Gazette" yesterday declared that Germany's position on the Samoan question remains unchanged.

In regard to the question of compensation to individuals, both Germany and England have agreed to appeal to arbitration, if they fail to come to an agreement themselves.

The consent of the United States to this course has not arrived, but there is no doubt that the reply will be favorable.

Simplicity of Science.
Science is always simple. It's only quackery that juggles with jargon. Medical treatment of the past dealt with "simples," the pure vegetable remedies provided by Nature. Sagwa is compounded of simples. It is purely vegetable. It is scientific, because it is based on the known curative properties of the herbs, roots, barks and gums which it contains. It is the most efficient blood purifier and blood builder known. Ninety per cent. of diseases begin in the blood, and ninety per cent. of diseases are curable by the prompt and proper use of Sagwa. It expels from the blood all the corrupting and corroding elements and builds up a new body with new blood. There is no substitute for Kickapoo Indian Sagwa. Hobron Drug Co.
