ONE VOTE FOR Capt. THE MOST POPULAR CAPTAIN OF THE ISLAND FLEET.

VOL. VIII. No. 1429.

HONOLULU, H. I., TUESDAY, JANUARY 16, 1900.

PRICE 5 CENTS.

BY AUTHORITY.

Requests to the Public BY THE Citizens' Sanitary Committee

The Citizens' Sanitary Committee make the following requests to the public:

- 1.-In order that the census to be taken for sanitary purposes may be a full and accurate as possible, the citizens of Honolulu are requested to remain at home, so far as practicable, on Wednesday, January 17, until they have been registered by the Sanitary Inspector of their district. 2.-In order to help the inspectors and make the inspection as perfect as possible, citizens are requested to report to the sub-inspector of their district each day before leaving the district; or if this is impossible, leave word where they have gone to. 3.-MORE SUB-INSPECTORS ARE REQUIRED. All persons willing to volunteer as sub-inspectors are requested to immediately send their names and addresses to the Central Committee. Citizens' Sanitary Committee. Honolulu, January 16, 1900. 1429-21

NOTICE.

The Citizens' Sanitary Committee request the total suspension of business on Wednesday, January 17, (a legal holiday) and request all persons to remain at home as far as possible on that day, in order to facilitate the taking of a complete census.

Citizens' Sanitary Committee. 1429-11

Regulations of the Board of Health.

Honolulu, January 15th, 1900.

The following named persons are hereby constituted a Citizens' Sanitary Committee to assume such duties in connection with the suppression of the Plague as may be assigned to it by the Board of Health: L. A. Thurston, A. W. Carter, J. H. Fisher, J. F. Colburn, A. Perry, S. M. Ballou, E. D. Tenney, J. A. McCandless, J. G. Rothwell, J. R. Galt.

The District of Kona, Island of Oahu, for sanitary purposes is hereby divided into forty districts, numbered from 1 to 40, respectively:

- The Districts are bounded as follows: 1. Moanalua Valley. 2. Moanalua Valley to Kamehameha IV. road and along street to Kalihi stream, thence to sea. 3. Kamehameha IV. road to Kalihi road mauka of King street. 4. Kalihi stream to stream through Ah In's plantation mauka of King street. 5. Kalihi road to Insane Asylum road mauka of King street. 6. Ah In plantation stream to Nuuanu stream mauka of King street. 7. Asylum road to King street, to Liliha street, to Judd street, to Asylum road. 8. Nuuanu Valley mauka of Wyllie street. 9. Nuuanu Valley, Wyllie street to Judd street. 10. Liliha street to Judd street, to Nuuanu stream, to School street to Liliha street. 11. School street to Liliha street, to extension of Kukui street, to Nuuanu street to School street. 12. Kukui street to Nuuanu street, to Beretania street, to Nuuanu stream, down Nuuanu stream to King street, along King street to Liliha street, up Liliha street to Kukui street extension. 13. Beretania street to Nuuanu street, to Hotel street, to River street, to Beretania street. 14. Hotel street to Nuuanu street, to Queen street, to River street, to Hotel street. 15. Pauoa Valley bounded on the south by Judd street, Nuuanu stream, Nuuanu street, Pauoa road to bridge, and up Pauoa stream to the end of the ridge. 16. School street to Nuuanu stream, to Pauoa road, to Punchbowl street, back to School street. 17. School street to Nuuanu street, to Beretania street, to Emma street, to School street. 18. Beretania street to Alakea street to King street to Nuuanu street to Beretania street.

WHEN DOCTORS AGREED

Of One Mind Upon Various Subjects Discussed at Last Night's Meeting.

Set of Sanitary Regulations for Submission to Board of Health - Discussion of Plan for Creating a New Chinatown.

The Hawaiian Medical Association held a meeting at the office of the president, Dr. C. B. Cooper, last night. Drs. Cooper, Herbert, Myers, Raymond, Alvarez, Taylor, Sloggett, Hodgins, John and Cleveland were present. Dr. Taylor reported verbally on the conferences held with the planters and merchants, and Dr. Raymond on those with the Executive. Dr. Herbert presented a written report from the committee to confer with the Board of Health on sanitary rules and regulations. On motion of Dr. Sloggett, seconded by Dr. Hodgins, the reports were unanimously adopted. Following are the recommendations submitted by Dr. Herbert's committee:

- 1st. The law relating to the erection of buildings should be amended so as to require a certificate of a duly authorized official as to its sanitary arrangements, plumbing, etc.; also to the suitability of the proposed location where the building is to be erected. 2d. There is no existing law to prevent the erection of shacks which in all probability would become unsanitary in a short time. 3d. The fire limit should extend westerly to the Nuuanu stream. 4th. No building should be allowed on the burned district until some fixed period. 5th. A general law should be passed providing for the sanitary arrangement of all houses, requiring proper plumbing and compelling connection with sewerage system where sewers are laid. 6th. Land that has been exposed by firing buildings should be fenced in and no one allowed inside the fence. 7th. Houses that are lying empty, (i. e. unoccupied) and that are not daily aired are an extreme menace to the public health, acting as incubators during epidemics of plague, and would suggest that the owners of such dwellings or buildings be compelled to keep them clean and properly ventilated and open to the visiting inspector. 8th. After the sewerage system is established no cess pools should be allowed inside the fire limits. 9th. We are of the opinion that the Coroner should be a medical man of experience, and consider this a matter of vital importance. Quite probably if investigations in this department with regard to improperly certified and sudden deaths or deaths after a short period of illness had been conducted by a medical man, this plague might have been recognized earlier. 10th. A sanitary inspector should also be appointed by the Board of Health from the medical men, and given general surveillance, and plenty of assistance (a thing the Board has never had). Mr. Reynolds, as executive officer, has done excellent work, and won the consideration of everyone who has run across him in his official capacity, but he has been endeavoring to do the work of five men. 11th. A law should also be enacted enforcing the cremation of the remains of all those who die from an infectious disease, such as cholera, plague, etc. 12th. Dumping grounds for garbage should be abolished and all waste material destroyed by fire. Fraternally, ROBT. P. MYERS, GEORGE HERBERT.

President Cooper suggested a general conversation upon the situation as it existed that day. D. Herbert considered the working up of the town by common rumors of

(Continued on page 6.)

QUARANTINE WHARF PLAN.

A special meeting of the Chamber of Commerce was held this forenoon on the subject of a quarantine wharf. The committee, consisting of Messrs. Clifford, Ems and Suhr, presented a report. It recommended a wharf on the other side of the harbor, upon the Dowsett and Sumner properties, for quarantine purposes, where goods could be landed and discharged without coming ashore on this side. The committee submitted a plan for a warehouse and wharf over there. It was resolved "that the Chamber look with favor on the committee's recommendations, and that the committee be requested to report further as to the financial plans advisable and the possibility of obtaining a lease of the ground."

CLOSING OF SCHOOLS.

All Government Schools in this district are hereby ordered closed until further notice. By order of the Minister of Public Instruction. C. T. RODGERS, Secretary. Honolulu, Jan. 15, 1900. 1428-21

Band Engagements.

The band will play as follows during the present week: Thomas Square this evening; 9 a. m. and 3 p. m. tomorrow. Executive building grounds. Thursday evening, Thomas Square. There will be no further concerts at Emma Square or the Hawaiian Hotel until further notice.

THE PATHFINDER'S CAPTAIN

Guaranteed to Land Major Purdy in Hilo Town.

Told Captain Freeman of the Kinau He Would Land the Other Three Cabin Passengers Also.

Among the passengers who left for Hilo a week ago today was Major Purdy of the First National bank who had with him \$125,000 in gold as well as his bicycle and a small amount of baggage. Upon arrival in Hilo he was, along with the other three passengers for Hilo was told he could not land. This was very much resented by the passengers since their business was of such a nature that it would not brook delay. Major Purdy's mission was the establishment of a branch of the First National bank. When Sheriff Andrews' ultimatum had been delivered the captain of the United States survey ship Pathfinder, which had been in port but a short time, came over to the Kinau in a small boat and told Major Purdy if he would go aboard with him he would see that he landed in Hilo as had been his intention. Major Purdy accepted at once. He then turned to Captain Freeman of the Kinau and offered to take the other three passengers, but the passengers themselves thought that, to avoid complications, they had better return to Honolulu and see what could be done for them.

The captain of the Pathfinder is known to be a man of his word so that, trouble or no trouble, Major Purdy was very probably in Hilo soon after the Kinau weighed anchor and left again for this port. The Orpheum company had a little trouble in getting away from Hilo and on board the Kinau. They were told that no boat would be allowed to come anywhere near the shore and that, if an attempt at landing was made, there would be a force of at least four hundred armed men on the wharf ready to do all kinds of blood curdling things. As a matter of fact a boat did go to the landing and not only did take the Orpheum people aboard but did not meet with any resistance. Not even a cap was found in the possession of anyone on the wharf.

One of the members of the Orpheum company tells another story on Sheriff Andrews. It seems that, upon the arrival of the Maui in Hilo Andrews said he would not allow anything to land. Later on he put the 200 Japanese passengers aboard the Kinau and allowed the mules to land. The Orpheum company informant saw the owner of the mules who said he had them safe on the plantation. He could not see why they were landed unless it was because the mules were of such a proverbially stubborn nature that they would resist any attempt of plague bacilli at attaching themselves to their bodies.

Cooper Met With

Guns and Rocks

Evidently the people of Hilo are much more in favor of the regulations of Sheriff Andrews than at first supposed. The report came by the Mauna Loa today that the citizens of Hilo would not allow Minister Cooper to land when the Kinau arrived there Monday. Purser Tuft of the Mauna Loa kindly furnished the Bulletin with the following report:

"The Kinau arrived in Hilo Monday morning with Minister Cooper aboard. Evidently the people of Hilo were expecting some steamer from Honolulu, for they flocked to the wharf with their guns and rocks. "When the Kinau did finally arrive they lined up and stood shoulder to shoulder to prevent the landing of any boat. Sheriff Andrews then went out to the Kinau for a conference with Minister Cooper but when he returned in one of the Kinau's boats the citizens refused to allow him to land. "Andrews was forced to put back to the Kinau and later on was landed in one of the survey ship Pathfinder's boats. "We stopped at Kailua at 5 p. m. Monday to hear whether any landing had been effected, but learned that neither passengers nor freight had been allowed to land. A final decision was expected today. "Andrews tried to get the Mauna Loa to go from Kau to Hilo to be fumigated and threatened to send police to enforce the order. The Kau people told him to go to a warmer climate and send his police. They would attend to their own matters and the police."

LEWIS AND TURK FINED.

Lewis and Turk, the two young men who have been operating along the water front of late and who were arrested on the charge of violating Section 1300 of the Penal Laws by aiding and abetting foreign seamen to desert vessels to which they are lawfully bound, were fined \$75 and costs each by Judge Wilcox in the Police Court this forenoon.

Plague Conditions

Shows Improvement

2 p. m.—No new cases today and the situation is very much more promising. Mrs. Boardman is very much better and her case has not yet been entered in the Board of Health books as an assured case of the plague. The Japanese woman from the Arlington is about the same. The Chinese woman from King and Kekaulike streets, stricken with the plague, died yesterday afternoon and her body was cremated. A native without friends or relatives died at the Kakaako detention camp of consumption yesterday and the body was cremated as it had been lying in the morgue for hours awaiting a post mortem examination. So far there have been 35 cases of the plague and 28 deaths, leaving five patients at the pest house and one at the Chinese hospital.

Block 9 in Flames.

Block 9 was set afire this morning the first house to be burned being the Chinese store at the corner of Smith and Pauahi streets. As in the Block 10 fire, only half the block at a time is being burned. The flames have reached the corner of Beretania and Smith streets. This afternoon the Maunakea street hall will be burned. Inspectors and others are busily engaged moving goods out of Block 11 preparatory to being set afire tomorrow. The firemen have at least three days' hard work ahead of them.

Citizens' Committee.

At a meeting of the Citizens' Sanitary Committee yesterday afternoon the following officers were chosen: L. A. Thurston, chairman; S. M. Ballou, secretary and Col. Fisher, treasurer. The Rapid Transit Co.'s office was chosen as temporary headquarters. A permanent place, probably on Queen street near Fort, will be moved into tomorrow. The committee met this morning. The work of inspection will begin this afternoon and a complete census will be made in by tomorrow forenoon.

More National Guardsmen.

At a meeting of the Board of Health yesterday Minister Mott-Smith reported that he had fifty men who wished to join the N. G. H. for guard duty. If the Board was in need of guards the men under military control would certainly be better for the purpose. President Wood stated that the Board could use the men, whereupon Mr. Mott-Smith went out to attend to the work of enlisting the men.

Death From Injuries.

Jackson, a colored man, who was severely injured in an accident Sunday, died at the Queen's Hospital this morning. A coroner's jury was summoned to view the body preparatory to the inquest this afternoon.

Nothing Has Been Withheld.

Dr. Wood stated yesterday in answer to a statement that people about town had accused the Board of concealing cases: "Not a single case of plague or even a suspicious case has been concealed from the public. The Board wants the public to know the state of affairs. At a meeting of the Board of Health yesterday President Wood stated that men had been hard at work at the place where it was reported a Chinaman had been buried under the house. They had dug through garbage and stuff until they had reached hard pan. No Chinaman was found. Instructions to Inspectors. The Citizens' Committee today issued instructions to the inspectors, describing the work to be done and how it should be done. Every inspector is placed on his honor to follow every detail explicitly. Daily Bulletins. From now on bulletins giving the plague cases and outlining the situation will be posted by the Board of Health. This should go a long way toward stopping the absurd rumors that have of late, been circulated in the city. Clean Up the Mud. Merchants and passers on Fort street ask that the mud of the street be taken care of by the street department before it is dried up to be scattered through the stores as dust. The odor from the street after last night's heavy rain was said to be particularly noticeable this morning.

No Dead Chinaman.

At a meeting of the Board of Health yesterday President Wood stated that men had been hard at work at the place where it was reported a Chinaman had been buried under the house. They had dug through garbage and stuff until they had reached hard pan. No Chinaman was found.

Instructions to Inspectors.

The Citizens' Committee today issued instructions to the inspectors, describing the work to be done and how it should be done. Every inspector is placed on his honor to follow every detail explicitly.

Daily Bulletins.

From now on bulletins giving the plague cases and outlining the situation will be posted by the Board of Health. This should go a long way toward stopping the absurd rumors that have of late, been circulated in the city.

Clean Up the Mud.

Merchants and passers on Fort street ask that the mud of the street be taken care of by the street department before it is dried up to be scattered through the stores as dust. The odor from the street after last night's heavy rain was said to be particularly noticeable this morning.

No More Slavery in Guam.

Manila, Jan. 2.—A naval officer who has arrived here from Guam brings a proclamation issued by Captain Leary, naval Governor of that island, decreeing the absolute prohibition and total abolition of slavery or peonage, the order taking effect February 23d. The prologue of the proclamation declares that the Spanish system of peonage, amounting to slavery, is a menace to popular liberty and a violation of the privileges guaranteed by the American constitution.

CHASING DOWN A RUMOR

President Wood Puts an End to Unfounded Reports.

Visits to Oahu Plantation—No Serious Sickness—Plantation Men on the Alert—Complete Publicity Assured.

"You may state in positive terms that the rumor of a case of plague at Oahu plantation is absolutely without foundation or suspicion of fact. I have examined the Japanese who is ill at the plantation and he has not the plague. This statement President C. B. Wood made to the newspapers this morning after a trip down the railroad to run down a rumor that came from the country last night. The report was that there has been a suspicious death of a native at Aiea, and also a case of plague at Oahu plantation. Early this morning General Passenger Agent Fred Smith placed a special train at Dr. Wood's disposal and he started down the line to learn the facts of the situation. Stopping at Aiea he found the station agent had not even heard of the rumored death of a native. Other people about the place were equally surprised on hearing the statements that had gained currency in Honolulu. "I then proceeded to Oahu plantation," said Dr. Wood, "and found the plantation men and Dr. Blake very much surprised at the rumors that had got abroad. The fact is that a Japanese laborer was taken sick yesterday afternoon about half past four. Dr. Blake did what he should have done—immediately isolated the man until the cause of illness could be determined. The Chinese, Japanese and ignorant people of the plantation got scared and jumped at the worst conclusion. At 9 o'clock I got the report. I saw the Japanese and he has no symptom or sign of plague. "I went throughout the quarters at both Oahu and Honolulu plantations and found every possible precaution being taken to prevent the introduction of the disease. I don't believe there will be one case of plague on any of these plantations and if one does break out the plantation men are in better condition to prevent its spread than we are in town. All that is needed is for the managers and their assistants to keep their eyes open, and this they are doing. They are constantly on the alert. Plantation quarters are guarded night and day by responsible men to prevent harboring strangers. I had a talk with both Ahrens and Low. They are fully awake to the necessities of the situation and are sparing no effort to keep their estates free from infection. At the first opportunity I shall visit the other plantations down the line. "I told Mr. Low of the rumored death near Aiea and he immediately set to work to make a thorough inspection of the waiale district. "The statement that any suspicious cases have been concealed by the Board of Health is absolutely without foundation. Every case, so far as the Board or any agent of the Board is concerned has been given to the public. The people and newspapers will be kept fully informed the moment we have knowledge of assured or suspicious cases of the plague. The public ought to have the facts and I give my personal guarantee that the facts shall be given in every instance."

Recruiting in Switzerland.

London, Jan. 2.—The Berlin correspondent of the Standard says: "The British representative at Bern has lodged a protest with the Swiss Government calling attention to the fact that the recruiting for the Transvaal is in progress in Swiss territory."
