STANDARD KEY BOARD

Mr. Geo. W. Fitch, with Simpson & Miller, San Francisco, Cal., 411 Montgomery St. Says on March 26, 1902.—"As I said I have put the Chicago in the office where it is at work from 8 to 4. 30 P. M., right by the side of Smith's and the Bar Lock machines and my employer is astonished at the capacity and superior quality of the work of the $50 machine. It will hold its own against any of the high-priced machines, and I congratulate you on the production of this little beauty. I have owned a Hammond-Bar Lock, and have run a Smith for years, but I would not exchange The Chicago for any of them. Then it does not need a draymen to carry it around."

Examine this Typewriter at the local agency. Machines sold on "little at a time payments".

INDIVIDUALITY

There is individuality about eyeglasses the same as dress. Not every one can be fitted with the same clip and spring. Eye-glasses should be made to fit the face becomingly and a small featured person needs a smaller lens than one with a broad face. We fit each individual, and take all necessary care without piling the price up.

Complaint is made of the condition of Young street between Piikoi and Keeaumoku. Residents of the blocks in question state that carriage instead of taking the road drive on the sidewalks, much to the damage of the same and further complaint is made that residents of King and Beretania streets whose back yards front on Young street use that thoroughfare for a dumping ground for refuse, old tin cans, the sweepings of the yards and stables.

A recent Associated Press dispatch of March 12 from Tacoma gives a very favorable report from the operations of the Montezuma Mining Company and the Washington Cooperative Mining Company of which R. A. Jordan is the local agent. The companies are jointly opening up the largest coal mines in Washington at Fairfax. "During the past week they have struck a new ten-foot coal vein on the 500-foot level. These companies control the vein for three miles, giving 25,000,000 tons of coal that can be taken out through water level tunnels."

ORPHEUM OPENING.

The Elleford company is booked to appear at the Orpheum, Saturday evening next, April 5. This excellent organization of dramatic players will remain with us for several weeks and during their stay promise to produce a repertoire of popular eastern successes by famous play writers.

For the opening, Mr. Bates, the manager in advance, has selected a comedy melodrama, "The Man of Mystery," by Mark Swan, author of "Brown's in Town," "Whose Baby Are You?" and other notable successes. The author claims it was written for laughing purposes solely with an occasional thrill thrown in to work up a curtain climax. It is a play sure to please all classes—from the pit to the gallery it is a hit. Several members of the troupe will introduce appropriate specialties. It is the intention of the management to change the bill every other night. "A Man of Mystery" will run until Wednesday—on that evening David Belasco's famous play "The Girl I Left Behind Me," will be presented. It deals with the Indian uprising in Montana in early days, special scenery will be used in this production. The cast is a large one calling for every member of the company.

Popular Orpheum prices of 25, 50 and 75 cents will prevail. Seats will be placed on sale Thursday at 2 p. m.

FUMIGATION IS OVER

WATERFRONTERS GLAD OF ITS ABOLISHMENT

All Vessels Arriving After April First Can Leave Port Again Without Being Fumigated.

Since yesterday, vessels arriving here will not find it necessary to undergo fumigation before leaving again for San Francisco or elsewhere.

Heretofore vessels have for some time been moving over to the quarantine wharf to be pumped full of sulphur fumes before leaving port. All this has been declared off by the quarantine department and skippers putting in here now will not have to bother about fumigation.

Those vessels which arrived here before the 1st of April will have to submit to the fumigation. The S. C. Allen will be fumigated tomorrow morning and other vessels will follow until all those which put into port before April 1st have had a taste of the fumes.

Dr. Cofer, head of the quarantine service here, gave notice of the new condition of things yesterday. There is much joy among all interested in shipping, for the fumigation idea was never very popular and was responsible for more trouble and language than was comfortably endured.

Vessels now in port, which arrived prior to April 1st, are as follows: Ship A. J. Fuller, from Sydney; ship Ellen A. Read, from Manila; bark Gerard C Tobey, from San Francisco; schooner Frank W. Howe, from Mauritius; schooner Alice Cooke, from Port Gamble; schooner Olga, from Newcastle; ship Edward Sewall, from Oyster Harbor; barkentine Klikitat, from Port Ludlow; steamship Oregonian, from San Francisco; bark S. C. Allen, from San Francisco; and ship S. D. Carleton, from Tacoma. After these vessels have been fumigated the plant on the quarantine wharf will enjoy a rest for an indefinite period.

DANGER TO KAHN HOME

The Kahn home very close to the School street bridge on the Ewa makai side was almost washed away by the heavy rains of Monday and even now, the house is in imminent danger of being toppled over and sent down into the stream by the water which continues to flow upon the premises.

The people of the locality mentioned and the Kahn family in particular, feel that this matter is one which the Public Works Department should look into immediately. Water has always flowed upon the premises at a great rate whenever there has happened to be a rain but Monday's downpour caused a perfect stream of great proportions to flow through, carrying away a large quantity of the earth and loosening the supports upon which the house stands.

What has caused this state of affairs is not quite clear but the impression prevails among residents of the locality mentioned that the culvert at Liliha street is very probably out of order. The cessation of the rain yesterday had no effect whatever on the stream flowing through the Kahn premises.

QUICK DISCHARGE.

The bark S. C. Allen, Captain Johnson, which arrived from San Francisco with a general cargo on March 28, has already discharged at the Irmgard wharf and moved over to the Channel wharf to be fumigated before loading sugar for San Francisco. The Allen is receiving quick despatch and will probably sail the first thing next week.

At 1 o'clock this afternoon the tug Fearless moved the Allen from the Irmgard to the Channel wharf. Fumigation of the vessel will be started tomorrow morning. A whole day will be occupied at the quarantine wharf whep the Allen will probably move to the railway wharf and receive her sugar.

The new method of cultivating tobacco in Connecticut by enclosing the fields entirely within cheesecloth covering costs $250 an acre; but the tobacco thus raised sells for more than twice as much per pound as that grown outside.
