The basis for the advance was the Cuba news showing that 27 Centrals stopped grinding and that the weather continues unfavorable for the growing crop. The European market was immediately affected, as well as our own, and beet sugar advanced to the highest point yet of the campaign, say to 11s. 10 1-2d. per cwt., f. o. b. Hamburg.

Also the weather in Europe is unfavorable for the beet crop.

The business of the week consisted mainly of Cuba Centrifugals for April \$28.25; 40 Ewa, \$28.25; and May shipment, of which some 200,000 bags were taken by the refiners at 3c, c. & f. and 3 1-8c, c. & f for 96-degree test, and 31-16c. c. & for 95-degree test.

Beet sugars are quoted a little of from the highest point, now 11s. 9 3-4d, for May, the new crop at 10s. 6 3-4d. for October-December, being affected by the low offerings of Russian Crystals (at 11s, 3d, for Danzig) for delivery after September 1st.

Beet for shipment to the U. S. is offered at 12s. 2 1-4d. c. & f., being the parity of 4.49c. for Centrifugals. A new feature is the offerings of

Java sugars for shipment here from the United Kingdom at 13c. c. & f. equal to 4.51c, landed, duty paid, 96-
