## PLANNING FOR A GIANT WAR SHIP

Navy Considers Construction of Vessel With 14-Inch Guns

Washington, Dec. 19.—The Navy Department is considering the desirability of constructing monster battleships, bigger than anything yet built or even designed elsewhere. One plan presented by the Naval Board on Construction calls for eight fourteen-inch guns and displacement of 25,000 tons. In the fourteen-inch gun ship, the thickness of the turret, side and barbet armor will be greater than in the twelve-inch gun ship, giving better protection than the latter will enjoy. Two designs have been prepared for a fourteen-inch gun ship.

There have long been serious differences among naval experts regarding the advisability of using bigger guns than twelve-inch on account of the probability that the discharge of bigger guns would seriously rock the ship. Moreover, it is known that under some conditions the eight-inch guns, for instance, are more effective than ten-inch. The Navy Department is pretty well committed to the all-big-gun ship plan and Congress may consider it favorably when the matter is properly presented. The speed of the new ships is intended to be from 20½ to 20¾ knots under trial conditions.
