EVENING BULLETIN

2:30 EDITION

Advertising activity is the life of business and every buyer knows it

ANY OLD FURNITURE you don't need—advertise it for sale in the Bulletin. There is always some one looking for such things. There is no better way to reach them than by a Bulletin Want Ad.

VOL. XI. NO. 4205.

10 PAGES.—HONOLULU, TERRITORY OF HAWAII, MONDAY, JANUARY, 11, 1909.—10 PAGES.

PRICE 5 CENTS.

FREAR'S POSITION OUTLINED IN LETTER ATCHERLEY TALKS OF HIS TROUBLES

WHAT FREAR SAID TO COMMITTEE

DETAIL OF HEARING BEFORE SENATE COMMITTEE ON AMENDMENT TO ORGANIC ACT AS PROPOSED BY GOVERNOR.
OR'S BILL INTRODUCED BY SENATOR
FLINT

The printed report of the hearing on the amendments to the Organic Act proposed by Governor Frear came in the last mail and will be published in detail by this paper. The stenographic record follows:

Friday, Dec. 11, 1908.
The committee met at 10:20 a.m. Present, Senators Foraker (chairman), Flint, Piles, Warner, and Milton.
Hon. Walter F. Frear, governor of the Territory of Hawaii; Hon. John K. Kahanamoku, Delegate in Congress from the Territory of Hawaii; and Mr. George B. McClellan, secretary to the Delegate, appeared.

Statement of Governor
Walter F. Frear
The Chairman (Senator Foraker)—Governor, while the committee are gathered, I will ask you some questions about the bill (S. 7933) to prohibit importation of opium into Hawaii except by the Government

for medicinal uses only. Will you kindly tell us what, in your opinion, is the necessity, if any at all, for such legislation as is by this bill proposed?

Governor Frear—There is a considerable Chinese population in Hawaii which naturally is, to some extent, addicted to the opium habit, and through that the habit has been spreading somewhat among other classes of the population, particularly among the native Hawaiians. Any thing of that sort is very apt to spread rapidly among that class of people and at the same time prove most disastrous.

The Chairman—You would recommend the passing of this bill, then?
Governor Frear—I should, most decidedly. I might add that the habit has spread some among the whites, but of course that is not so open.

The Chairman—But the habit is

Examination of Stayton's Books Shows Discrepancies

Assistant Postmaster Stayton, who was arrested the other day on a serious charge, may have to face still more serious charges, as it is intimated from the authorities that the examination of the young man's books in the office do not show anything in his favor, and, as a matter of fact, make things look rather bad for him.

He is now out on bond of \$1000. His many friends in the city were astonished at his arrest, as he always bore an excellent name, and it is expected that more surprising developments will come.

COMING OF GOONEYS IS SIGN OF STORM

Captain Black Predicts
South-Westerly
Gale

Captain Black, the veteran skipper, who is regarded as one of the most weather-wise men in the islands, predicts the coming of a heavy south-westerly storm, probably such a one as Hawaii luckily sees only once in a decade or even less frequently.

"The gooneys have come," said the Captain. "Lots of them were seen at Waikiki yesterday, and they only come south of the thirtieth degree when there is a heavy southwesterly coming. The last time I recollect seeing them here was in 1888, just before the famous big Kona storm."

Although the Kona wind which has been prevailing for some time, has not done much damage in the outer districts, it is generally expected that something worse will be experienced during the next few days.

According to the weather observer, it is to be surmised that the Kona has been felt more severely on Hawaii than here. Unless the conditions change for the better, the genuine Kona will bring heavy rains, strong wind, and floods, which will keep the employees of the road department busy for some time.

No reports of material damage have been received from the outside districts. The railroads are reported safe and undamaged. The telephone and electric wires are in position.

Consider Wills

Consider the advisability of making out a will NOW. Think of the necessity of leaving an "iron-bound" will—one that not even the cleverest lawyer can smash.

Our business is to draw up wills in proper legal form. We do it free of charge, if made one of the executors.

H. P. BALDWIN IS SERIOUSLY SICK

H. P. BALDWIN

H. P. Baldwin is seriously ill with appendicitis. A wireless was received from Maui this morning, telling of his serious condition and calling for a surgeon. Within a short space of time the Inter-island steamer Helene, specially chartered for the purpose, steamed out of the harbor, carrying Dr. Judd to Kahului.

The wireless did not state how serious Mr. Baldwin's condition is, but Dr. Judd went prepared to perform an operation, should such a thing be necessary.

Just as such as the message, telling of Mr. Baldwin's illness, was received, the Inter-island offices were communicated with. Preparations were at once made to put the Helene to sea, and by the time the physician reached the wharf the ship was ready.

As quickly as Dr. Judd got on board the Helene cast off her shore lines, and a few minutes later she was fighting her way out of the channel in the teeth of the Kona storm that threw clouds of spray over her.

Considerable worry is felt regarding Mr. Baldwin's condition. His age makes his trouble more serious than it would be for a younger man, and a report from Dr. Judd is being anxiously awaited.

TILLMAN SCORES THE PRESIDENT

WASHINGTON, D. C., Jan. 11.—Senator Benjamin Tillman in an impassioned speech today vigorously denied the imputation of President Roosevelt that he had committed improper acts. He scored Roosevelt in picturesque terms. The President has stated that secret service men found Tillman dangerously near implication in Oregon land frauds.

TWO BATTLESHIP PROGRAM FOR NAVY

WASHINGTON, D. C., Jan. 11.—The House Committee on Naval Affairs today agreed to report favorably on a naval program providing for an appropriation at this session for two battleships, five destroyers, three colliers, four submarines, and one sub-surface boat.

The total appropriation for this program amounts to \$29,000,000.

Supplies Lost And Earth Opens

MESSINA, Sicily, Jan. 11.—Recurring shocks of earthquake accompanied by a severe storm have destroyed the temporary shelters erected and a part of the dock on which supplies had been landed.

An immense fissure has been discovered in the earth near Gianne.

MARE ISLAND, Calif., Jan. 11.—Naval Constructor Evans was today granted a divorce from his wife.

WORK of GOVERNOR IN CAPITOL CITY

SOME CHANGES IN AMENDMENTS TO ORGANIC ACT, WHICH ACT FOR BETTERMENT OF TERRITORY — USELESS TO INTRODUCE IMMIGRATION BILL THIS SESSION—COMMISSION

Acting Governor Mott-Smith has received several interesting letters from Governor Frear. The first one, dated December 21, states that the Federal appropriation for leprosy can be used for the investigation and research work on the island of Oahu, but cannot be expended in constructing a building for a laboratory.

In the Governor's amendments to the Organic Act he refers to a certain Commission's report in relation to the exclusion of certain Federal statutes from applying to Hawaii. The Commission's report section has now been changed to read the "Sections

from the Revised Statutes," which recite in detail the different provisions which are mentioned.

This Act has been already submitted, but since the hearing the Governor has suggested another amendment with relation to the publication of the notices of land sales, to the effect that notice of sales must be published in a newspaper thirty days before the sale. Public notice is all that is required at the present time.

Another important amendment has been introduced, to the effect that no exchange of public land involving more
