SALE BEGINS.

MONDAY, November 29

Goods Now on Display in OUR SHOW WINDOWS

Sachs' Dry Goods Co., Ltd.

Cor. Fort and Beretania Sts.

Opp. Fire Station.

## GREAT BOOKINGS BUT FEW PASSENGERS

One of the practical facts connected with transportation difficulties of the local situation is presented in the record of the steamship *Hilsonian* which arrived from San Francisco last evening, carrying eleven passengers. The record given here with shows that at times the crush of passengers is not what it seems and there must be need for requiring more vigorous measures as regards bookings. If the bookings are to be accepted as a correct presentation of the people really demanding transportation:

Cabin capacity	32
Two days before sailing, total capacity reserved and on waiting list	20
Total reservation and waiting list	52
Actual passengers finally taken	11

Withdrawals within last 48 hours, 41. It is of course possible that some of the people booked on the *Hilsonian* were also on the waiting list of the *China* and were being held off until the *Pacific Mail* people learned how many through passengers they were to carry.

Be that as it may, the figures speak for themselves as far as the record of bookings is concerned.

## STOCKS

Waialua stock appears to be on the road to 125 as fast as the investors can put it there. Two sales were made on the Exchange this morning at 122.50, an advance of half a dollar a

## MORE ARRESTS IN OPIUM CASE

The opium ring investigating committee is continuing its hearings and examinations in the office of United States District Attorney Breckons in the Judiciary building and the promise of additional developments of a sensational nature still hold good. Breckons is receiving the assistance of Collector of Customs Stackable and the determined manner in which the investigation has been pursued has apparently convinced those under suspicion that they will gain nothing by attempting to conceal anything from the United States officials.

It has developed that Kakahuna carried three tins of opium with him when he fled from the customs officer after he had been stopped when coming ashore from the *Asia*. He has told the officers that he was later overtaken by a man who had seen him escape and who, under the pretense that he was a customs official, tried to secure the remaining tins of opium. It was finally sold to a Chinese for \$15.

Luther, the night watchman, and Kekahuna have both been bound over to the United States court for complicity in the smuggling of the illicit drug. The latest arrest made is that of Vincent Kauni, also believed to know considerable of the operations of the ring.

The market closes very strong the day before a holiday and gives promise to hold in that condition through the holiday season.

STEARNS' ELECTRIC PASTE CO., CHICAGO, ILL.

# When You're Buying Clothes

You look at the MATERIAL and determine it's quality and how long it ought to wear.

You then LOOK at the workmanship and determine whether it will stand the test of hard usage.

You next try them on and note the style which is a GREAT point for every man likes to wear up-to-date clothing.

These are the three important features that enter into the production of our Suits, the kind of Suits that hold old customers and make new ones.

## A Cold Bottle of Primo Beer

Goes well at any time, but it tastes best when taken with the evening meal.

It sharpens the appetite, aids the digestion, and quiets tired nerves. It is the best beer you can drink, because it is the purest.

And it is the best tonic you can take and the most pleasant one, too.

## SHIP SUBSIDY BILL FEATURE OF MESSAGE

(Continued from Page 1.) which the President favors may be debated, but it is thought that final action will be in conjunction with the new currency law.

A Ship Subsidy bill will be recommended and it is believed will be passed. For years the rehabilitation of our Merchant Marine has been unsuccessfully attempted, but it can confidently be predicted that a bill of some sort will reach the President and be approved during the coming session.

The onward march of industrial progress under the operation of the new tariff law is unchecked. Now records are being made every week and a volume of business has already been reached never before attained. No where are business conditions so emphatically reflected as in the matter of idle cars. On August 4th, the day before the passage of the tariff law there was a surplus of 207,173—on November 4th, just three months after the law went into operation there was actually a shortage of cars amounting to some 6000. This means that not only the entire transportation resources of the country are employed, but orders for thousands of new cars must be at once placed to meet future conditions.

It is a very significant fact that the so-called insurgents who are still grumbling because they were not able to make the tariff law themselves have nothing to say about its operation. So far there does not seem to be on record a single expression from any one complaining of the results of the operation of the new law. This, of course, is the greatest vindication possible of the judgment and wisdom of the framers of the tariff and of the President who approved it. The proof of the pudding is in the eating, and the proof of the value of the tariff law in operation is the results recorded day by day of unprecedented business.

Of course it was expected that the framers of the law would only say the very best thing possible about it, but we are hearing from day to day what others think about it who are not politicians—for instance, Wm. E. Curtis, who is perhaps the most famous newspaper correspondent of the day, says: "It is undoubtedly the most consistent and scientific tariff law that has ever been enacted. It contains

no oddities or eccentricities, and thus far no serious errors have been found. Usually the engrossing clerks have left out commas or inserted semicolons which have provoked controversies and caused litigation and perverted the intention of Congress. Several years ago the accidental insertion of a comma nullified an entire section, and by a similar mistake in another law the importation of a certain article was absolutely prohibited, when the Congressional Committees intended that it should come in free. But there are no "freaks" in this law, and, as I have said, the general tendency is to lower duties."
