J.A. Kennedy Votes "No" On Tuesday

President of Inter-Island Makes Strong Statement Against Prohibition Propaganda

President J. A. Kennedy of the Inter-Island Steam Navigation Company declared this morning that he will vote Tuesday against the Woolley-Thurston propaganda.

'I am not a prohibitionist but a restrictionist. I believe in the regulation and restriction of saloons and the liquor business in the Territory. I would like to see the Liquor Commission backed up in its endeavor to carry out the wishes of the people and the enforcement of the laws. Honolulu is a seaport town and many people do not take this important fact into consideration in making comparisons with cities and towns of the interior on the mainland where entirely different conditions prevail.

"I shall vote NO at the coming election."

ARISTOCRATIC SUBURB TO BE LAID OUT AT KAWAIOA BY FIFTEEN HONOLULANS

Of all the applications which are before the board today that of E. P. Irwin and his fourteen associates is the most important in many ways. Those whose names are on the petition for these tracts besides Mr. Irwin are W. D. Adams, W. H. McInerney, D. L. Conkling, J. C. Evans, Dr. C. B. High, Frank Thompson, Robert Bond, W. T. Bligham, John Stokes, W. F. Drake, Dr. O. E. Wall, Mrs. Ella Osborn, C. R. Frazier and J. D. McInerney, the latter applying for the island of Popoia.

These fifteen have taken the cream of the lots of government land offered at Kawaihoa and will have a settlement of their own in which to spend week ends and enjoy one of the finest beaches in the Territory.

STREET CORNER SPEECH AGAINST PROHIBITION SCORES WOOLLEYITES

"Vote down the prohibitionists next Tuesday, and let us have liberty."

At the noon hour today, in the midst of about three hundred voters, George Markham made the first anti-prohibition campaign speech against the Woolley propaganda, at the corner of King and Bethel streets. In the absence of a soap box which was ordinarily used during the past political campaigns, Markham mounted on a carefully made stand and scored Woolley and the prohibition leaders.

He challenged them to come forward and oppose him; but, alas, there were no prohibitionists in the neighborhood. He called for Woolley to come forward and face the Hawaiian crowd; but he was not present. Although there were a few of his supposed supporters present, they kept mum.

DISCOVERY BY HILO HERALD

(Special Bulletin Wireless.) HILO, Hawaii, July 20.—Herald publishes today that plebiscite is illegal as the law requires that proclamation shall be transmitted to inspectors forty days before election. Under provisions of section twenty-five of election law, Proclamation arrived here Sunday and was posted Tuesday.

Section twenty-five, which the Herald quotes as upholding its contention that the plebiscite is illegal, provides that the proclamation of a special election must be issued by the Governor forty days before the election is to be held, and that copies of the proclamation shall be transmitted to the inspectors in the different precincts.

The law further provides that the notice of the election shall be posted at three conspicuous places in each precinct, but no specification is given as to the time of the posting.

Further along there is a section of the law, however, which provides under "duties of inspector" that the inspector among other things shall post notices of the election in his precinct in places as before provided at least seven days before the election is to take place.

When shown the above wireless this afternoon Governor Frear, Secretary Mott-Smith who has charge of the election, and Attorney General Lindsay all said that the provision of section twenty-five was for the issuance of the proclamation by the Governor and that there was no provision (Continued on Page 3)

ADJOURNS TILL THIS EVENING

But one matter was taken up by the land board at its meeting this afternoon at the Palace before adjournment until this evening.

The matter which was considered was an application of the Department of Public Instruction for an exchange of land, the department offering land at Kalihi, comprising 24,000 square feet, in exchange for a lot of two acres at Watertown.

Upon motion of Mr. Trent, seconded by Mr. Andrade, it was voted to make this exchange. In order that work on the school building to be erected at Watertown might commence at once, so as to have it completed for the beginning of the school year in September.

As there are many important matters to come before the board, and as it was impossible for some members to remain at a session this afternoon, it was agreed that adjournment should be taken until this evening at 8 o'clock.

The meeting will continue in session until about midnight, as it will take that length of time to dispose of all the matters to be considered.
