PERSONALITIES

GENERAL MACOMB stated this morning that certain quarantine regulations would be observed at each of the ports on Oahu until there was no further danger from the cholera. JUDGE JAMES JENKINS of the court of First Instance in the Philippines, accompanied by his family, passed through Honolulu on the Hawaiian en route to the states for vacation.

KUHIO IS ON HIS WAY HOME

Delegate Kuhio is on his way home from Washington, according to cables received here. It is said that he is hurrying home because of the illness of the Princess Kalamanoa's mother, and that he plans to return to Washington soon.

HALTS HAWAII COUNTY'S PLANS

Hawaii county's plan to issue \$600,000 in bonds for road improvements was halted this morning in the House, when Representative Williamson of Oahu led a movement to postpone the two constituent measures until it is demonstrated that the county will look after the Territory's financial interest in the plans.

NO STAMPEDE FOR COAST BY THE STEAMSHIP SIERRA

Liner Could Have Carried Nearly Half Hundred More—Restriction at Wharves Strictly Observed—Island Vessels Return With Sugar and General Cargo—European Cargo Here By German Ship.

There is far from being a stampede for the mainland by tourists and strangers, if the list of passengers who departed for the Coast by the Oceanic steamship Sierra this morning can be taken as a criterion.

Nearly fifty additional cabin passengers could have departed for San Francisco this morning had they so desired.

While others connected with the Sierra believe that the Sierra sailed away with a record list of cabin passengers from Honolulu, they state that in two instances were there persons placed in a cabin.

One hundred and ninety-one sailed away with the steamer that left the Oceanic wharf at half-past ten today.

These were so booked that but two persons occupied the large number of state-rooms. It is gratifying to know that the visitors have not been unduly alarmed over the health situation here.

It is also pleasing to realize that there is no scarcity of transportation facilities essential for the movement of the large number of visitors.

The Sierra could have easily accommodated two hundred and twenty-five first-class passengers.

At one time two hundred and fifty had booked at the office of C. Brewer & Co. Reassuring reports from the health authorities had much to do with many cancelling their applications for transportation.

Forty-six steerage passengers spent five days at Quarantine Island before taking passage this morning.

The steamer was well down in the water and was simply "chook-a-block" with sugar. No fresh fruits were shipped on this trip.

The arrangement at the wharf was quite satisfactory. Entrance to the dock was restricted to passengers, representatives of the Federal and Territorial health department, officers connected with the Oceanic company, stevedores and mail agents.

There was little or no complaint. The embargo was removed following the lowering of the gangway, and then the Hawaiian band and others came under the shed and a series of musical numbers was played.

The sailing of the Sierra was gay and animated. A number of vandellie artists returning to the Coast participated in the farewell by the rendition of songs.

Lois in beautiful and fragrant profusion were conspicuous on every hand.

Two men belonging to the Sierra crew took French leave of the vessel last night. They were not permitted to join the ship this morning and will be obliged to remain over for at least one round trip.

A big mail for the mainland was promptly dispatched by the steamer.

Around the World Tours

The Norddeutscher Lloyd Steamship Company is doing some excellent advertising in the trade throughout the world, especially the Far East service, having issued a number of first class pamphlets relative to the routes of the steamers.

Virginia to Sail Tomorrow

The American-Hawaiian freighter Virginia is expected will sail for island ports of call tomorrow evening there to take on large consignments of sugar destined for the isthmus of Tehuantepec.

BILLBOARDS UP TO RESIDENTS

The Central Improvement Club held a reorganization meeting last night in the Promotion Committee rooms and after a long time of inactivity prepared for some real work.

E. A. Derritt was elected president, B. von Damm, vice president, W. J. Cooper, secretary, J. L. McLean, treasurer, and an executive committee of R. S. Hosmer, Daniel Logan and S. Mahelona was named.

Part of the meeting was spent in discussing billboards, President E. A. Derritt agitating the question and declaring that the Merchants' Association is working through a special committee on the matter now.

C. H. Dieye offered a resolution for consideration which reads as follows: "Resolved, that the Central Improvement Committee recommend to the legislature committee the passage of a law prohibiting billboards outside the fire limits of Honolulu, or any other city which may have fire limits, without written permission of the majority of owners of real estate within 1,000 feet of the proposed board."

This resolution does not attempt to regulate billboards within the fire limits, nor to prohibit them outside the limits, as to whether billboards shall be erected by making their consent a prerequisite.

The members also discussed plans for getting better sidewalks. The legislature will be appealed to.

WHERE WAS THE FOOL-KILLER

Mr. and Mrs. Morgan A. Jones, bride and groom, who sailed away for San Francisco as passengers in the Oceanic steamship Sierra this morning, may well sigh, "The good Lord deliver us from our fool friends."

For an example of supreme shallow-brained idocy, the circulation of a faring poster in a large crowd of people gathered to witness the departure of friends, on the wharf and aboard the steamer, by some person or persons, has captured the capital prize for imbecility.

In heavy bold letters, the following was spread broadcast: "BUBONIC PLAGUE. Merely to call your attention to the fact that Mr. and Mrs. Morgan A. Jones have just been married."

"Please pass the rice." It is needless to state that the interested parties had no hand whatsoever in concocting this fool circular.

"This is the work of one of your local jackasses," declared an officer this morning when inquiry was made as to who was responsible for the passing of the handbill.

"The ship is it-tered with the display of fat-wittedness. We have ordered the dock boys to gather them up as far as possible."

District Magistrate W. B. Lymer was incapacitated this morning as the result of a sprained ankle, and his place on the bench was filled by Judge Weaver.

Out of nineteen cases on the police docket, Weaver granted the continuance of six cases, and two were nolle prossed.

A shipment of sugar mill machinery, and a consignment of coal to be delivered at Waimea, Kauai, will leave the port this evening by the inter-island steamer Leikie.

Logan to Arrive Next Tuesday

According to cables received from San Francisco, the United States army transport Logan sailed from the California port yesterday.

The troopship may leave a small amount of quartermaster supplies. There is a possibility that the Logan may bring down the new gasoline launch to be used by the United States quarantine staff in the boarding of vessels off the harbor.

The transport should arrive here on or about next Tuesday.

One of the early arrivals at the port this morning was the inter-island steamer Maui from Hawaii ports with 4500 Ookaia, 2400 Pauulu and 4672 sacks Kukula sugars.

In addition the steamer brought 74 head cattle, 16 bales hides and 12 packages sundries. The vessel met with the weather on both outward and inward trip.

The large shipment of sugar gathered from various island ports and carried to the coast by the Matsuo freighter Hyades arrived at San Francisco yesterday according to cabled advices received at the office of Castle & Cooke.

Hilo Harbor is pretty well denuded

of deep sea shipping at the time of departure of the steamer Claudine for Honolulu. According to the report of Purser Kibling, the American schooner Mindoro and American-Hawaiian freighter Arizona were at Hilo on last Monday.

TYPHOID FEVER

When the digestive process is perfect and the general system is strong and vigorous, no fear need be entertained of germs, typhoid, tubercular or otherwise, as it is only when the system is run down and in a weakened state that these germs or bacilli find favorable lodgment and multiply.

We are daily taking into our bodies, by way of the mouth, the nostrils and the skin many disease germs of a destructive nature, but as the conditions within the body are not favorable to their propagation they are rendered inert, destroyed or thrown off without injury.

In localities where typhoid and other low forms of fever prevail because of contaminated water or other cause the importance of sustaining the system at a high standard of health, in order to resist the germ influence upon the bodily functions, cannot be overestimated.

Sunshine, fresh air, proper nourishment and sufficient rest are essential to good health, and whatever contributes to the peace and luxury, of perfect digestion must not be neglected. A remedy that excites the flow of salivary fluid for the digestion starches and stimulates the mucous surfaces and little glands of the stomach in the digestion of all other foods, and at the same time, as a simple food, contributes heat and energy to the body, must be of priceless value in sustaining and building up the system and rendering it immune to the despoliation of germs or other evil agents of health.

Duffy's Pure Malt Whiskey is indisputably this remedy. It not only serves to keep the bodily health at the highest notch of excellence, but in typhoid fever especially, when the bodily functions are at their lowest ebb and death seems imminent, it is retained by the stomach when other agents are rejected, and as a food and stimulant sustains life until the crisis is passed.

While convalescing after fever it is the greatest strength-giver and body builder known to science. Duffy's Pure Malt Whiskey is an absolutely pure distillation of carefully malted grain. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting and weakening conditions if taken as directed.

REHEARSE DAY AND NIGHT, TOO

The performances of the opera "Mikado," to be given at the Opera House next Friday and Saturday nights, on Saturday matinee, promise to be an exceptionally high character and unusually well given.

All rehearsals are being conducted every night, and the chorus and principals are attaining a degree of perfection in their parts which will do credit to Honolulu's amateur talent.

The sale of seats at the Territorial Messenger Service office is phenomenal, and it looks now that by Thursday night the entire house for both nights will be sold out.

The matinee on Saturday is quite a feature, as it will afford opportunity for many children and those unable to attend the night performances to witness the opera. The affair is being looked forward to with unusual interest and will be the occasion for numerous opera parties, the boxes and loges having been engaged for all the performances very early in the season.

The proceeds of the affair go to the Honolulu Humane Society, to enable it to carry on the good work being done in its line.
