ANOTHER SHIP-LOAD OF EUROPEANS JULY 1

MEXICO MOVES TOWARD FULL PEACE

PUBLIC HEARING ON ARMY POST MOVING

Delegate Kuhio Wants Speedy Expression of Local Sentiment.

CHAMBER OF COMMERCE PLANS MEETING SOON

Delegate Kuhio, who received a cablegram yesterday from Washington, asking him to cable back an expression of local sentiment regarding the changing of the cavalry barracks from Waianae, or Lohela, to Honolulu, said today that he is anxious to get an expression of feeling here as quickly as possible, and suggests a public meeting.

Simultaneously, President Morgan of the Chamber of Commerce is considering calling an open meeting of the chamber and hearing public views on the matter. Announcement of this meeting will probably be made soon. "It is up to the commercial bodies, such as the Chamber of Commerce and Merchants' Association to call a public meeting for the purpose of ascertaining the sentiment of the people here, regarding the change of the post," said Delegate Kuhio today. He expects to discuss the matter with Brigadier-General Macomb, U. S. A., commanding the district of Hawaii. He is booked to leave on the Wilhelmina next Wednesday.

That there will be no permanent construction work done at Lohela is the settled opinion in army circles, and that this post will be but a temporary one in the future seems the opinion of local army men and of those recently passing through Honolulu from Washington, where they were in a position

PETERS WINS DAMAGE CASE

A jury in Judge Whitney's department of the Circuit Court last evening returned a verdict of \$900 for the plaintiff in the damage action brought by Marshall, a carpenter, against Contractor Pringle and his associates. Marshall sued for \$10,000, his attorney being E. C. Peters, while Pringle was represented by Frank Thompson. The evidence adduced in Marshall's behalf showed that his fall from a scaffolding while employed at Port Rucker by Pringle was due to the breaking of a scaffolding board of defective material. Marshall's fellow workman was killed.

MERCHANTS PLAN TO OBSERVE CORONATION

Recommendation that its members observe June 22, Coronation Day, as a full holiday was made yesterday by the Merchants' Association at a special meeting. The Chamber of Commerce has already recommended similar action to its members.

CANE CASE GOES OVER

Ab Sing, charged with having purchased one piece of sugar cane about three feet in length and valued by its owner at between ten and fifteen cents, occupied much of the time at District Court this morning.

The Chinese alleged that he had been given the bit of sugar cane by a Hawaiian who, he claimed, afterwards proved to be an officer in disguise and thereupon ordered the arrest of the Chinese.

Pending the appearance of a witness for the Chinese defendant, the case was continued until tomorrow.

Immigrant Ship Can Get 1,000 Europeans Soon

The sudden though quiet departure of the ship Thetis from Honolulu for the Hawaiian Islands on July 1, according to cable messages that have been received by the Territorial Board of Immigration from its agent now in Europe, A. J. Campbell. Coupled with this news is the fact that steamers will be available, and another big shipment of laborers should be landed in Hawaii late this summer.

Already steamship lines are in cable communication with the Board of Immigration, offering to charter their steamers to the board for special trips. While advantageous terms can be obtained, the board before closing any special charter will endeavor to carry out its plans for a permanent steamship line between European ports and the Territory.

Dr. Victor S. Clark, commissioner of immigration, pointed out two distinct advantages in securing a permanent line. "In the first place, these vessels will be permanently equipped for the just arrival. This is an evidence that immigrant business, and the accommodations will be better in many ways than if specifically fitted out for one in getting more immigrants."

THETIS OFF ON ANOTHER MYSTERIOUS TRIP, WITH USUAL RUMORS OF OPIUM

The sudden thought quiet departure of the United States revenue cutter Thetis from the port on last Saturday has given rise to a surmise that the Federal government vessel left on a mission which has to do with watching the movements of the Pacific Mail steamer China as that vessel steamed along the coast line of the island of Oahu and Kauai enroute to Japan and China.

The Thetis made a very brief stay at Honolulu upon a return from Laysan, Laysan and Midway after leaving the party of scientific men at Laysan the former island empire of King Max Schlenker.

The hurry and bustle displayed in getting the vessel loaded, watered and provisioned lends belief to the theory that the Thetis while ostensibly sailing for Hilo and thence to Laysan to gather up the scientists, would endeavor to keep in sight of the movements of the China, and perhaps also officers would observe the movements of the big liner Mongolia that is due to arrive at Honolulu about three o'clock tomorrow afternoon from Oriental ports.

The China while here was searched from stem to stern by customs men with the expectation that a large quantity of opium would be unearthed. The tip came from San Francisco that the Pacific Mail liner was carrying thousands of dollars worth

of the contraband drug. The few scattering tips that do find their way into Honolulu does not appear to give Federal officials as much concern as do the whole sale importations that are known to have landed here as indicated by the constant fluctuation in price of the baneful drug on the local market.

Within the past few months more than one unsuccessful attempt has been made to land opium through placing large quantities in water tight packages with the intention of casting them overboard attached to floats, later to be picked up by parties in canoes or sampans.

There is every reason to believe that while steaming along the coasts of this island or Kauai favorable opportunity is offered to set a valuable package afloat with the expectation that the right party will pick it up. The little cable supply schooner Florence Ward was an arrival from Midway Island this morning. Her officers are inclined to believe that the small vessel which was apparently steaming in the direction followed by the Pacific Mail China may have been the Thetis.

The cable ship men were questioned regarding their meeting with sampans, but claimed that with the exception of a sail or two few vessels were encountered on the twenty-three day trip from the mid-Pacific cable station.

ing at 5 o'clock in the Claudine. He will be away about three weeks. After he has made a thorough inspection of the labor conditions on Maui he will proceed to Hawaii before returning to Honolulu.

Brown expects to make a complete report of the plantation laborers to Commissioner-General Keefe, in Washington.

BROWN TO MAKE INSPECTION TOUR

H. C. Brown, chief inspector of immigration service in Honolulu, will go to Maui tomorrow afternoon, sail-

ing at 5 o'clock in the Claudine. He will be away about three weeks. After he has made a thorough inspection of the labor conditions on Maui he will proceed to Hawaii before returning to Honolulu.

Brown expects to make a complete report of the plantation laborers to Commissioner-General Keefe, in Washington.

BULLETIN ADS PAY

Madero To Mexico City

(Associated Press Cable.) JUAREZ, Mex., May 18.—The formal signing of the proclamation of peace between the federal and revolutionary combatants was postponed today. General Madero, the rebel leader, will start for Mexico City within forty-eight hours in response to an invitation from the Diaz cabinet. He will assist Senor Francisco De La Barra, the minister of foreign affairs, in restoring peace.

PROVINCIAL GOVERNORS WILL NOT BE CHANGED MEXICO CITY, Mex., May 18.—The four governors appointed by President Diaz will not be changed, it is said here, although President Diaz himself has submitted his resignation to the cabinet, to take effect June 1.

HAWAII ASKING HOUSE FOR STAR

WASHINGTON, D. C., May 18.—Statehood for Hawaii was presented to the House of Representatives today in the form of a resolution passed by the Territorial Legislature requesting that the Territory be considered for Statehood.

BIG LEAGUE RESULTS.

SAN FRANCISCO, May 18.—The scores in the big leagues today were: NATIONAL. New York—New York 1, Pittsburgh 6. Philadelphia—Chicago 11, Philadelphia 2. Brooklyn—Brooklyn 2, Cincinnati 1. Boston—St. Louis 3, Boston 1. AMERICAN. Cleveland—Cleveland 9, Washington 6. Detroit—Detroit 9, Philadelphia 4. St. Louis—New York 3, St. Louis 1. Chicago—Chicago 12, Boston 8.

NEW PULLMAN CAR PRESIDENT

CHICAGO, Ill., May 18.—President Robert Lincoln of the Pullman Car Company has resigned to become chairman of the board of directors. John S. Runnels was chosen a successor to Lincoln.

HEAT DEADLY.

CHICAGO, Ill., May 18.—There were four deaths here today from the excessive heat.

THOUSAND SHEEP ARE BURNED IN BIG FIRE

KANSAS CITY, Mo., May 18.—One of the worst stockyard fires ever known here broke out this morning. One thousand sheep were burned to death. Thousands of mules and horses, liberated from the stables and pens to save their lives, ran into the crowds that gathered to see the fire, and a number of accidents were recorded.

LA FOLLETTE HOT AFTER LORIMER

WASHINGTON, D. C., May 18.—Senator La Follette of Wisconsin is expediting the Lorimer case. He has been active in calling for a reinvestigation of the bribery charges ever since he refused to concur with the majority report that whitewashed the Illinois Senator.

FRENCH MILITARY AVIATORS KILLED

RHEIMS, France, May 18.—Two military aviators were killed today, when a monoplane in which they were maneuvering went amuck and dashed them to the ground.

Tax Rate Will Be One per Cent Wilder Predicts

The tax rate for the Territory under the law passed at the last session of the Legislature will not exceed one per cent in the opinion of Assessor Charles Wilder, who has been giving a thorough study to the questions involved in the new statute.

The announcement by Assessor Wilder bears out the claims made at the last Legislative session by the opponents of a fixed rate and the fact that latitude is given to provide for public needs does not mean that there will be a big increase in the rate.

"I do not see why the tax rate should be more than one per cent or a trifle over," said Assessor Wilder at the present time and there is little doubt that one per cent will be approximated under the operation of the new law.

Some of the provisions of the new law present rather difficult problems for solution but Assessor believes that they will all be adjusted satisfactorily. The division of tax receipts will cause some changes in the recording system of the tax office while the several sections of the law relating to the distribution of tax funds to the Counties present problems for solution.

Nearly three quarters of a million dollars has been paid in as taxes of all kinds during the last eight days. During the period from May 1st to May 17 the approximate amount paid in was \$728,000.

The extent of the rush to pay taxes is indicated by the fact that during the period from January 1st to May 1st the sum of \$36,500 was paid into the tax office.

SURVEY WORK IS BEGUN ON INSANITARY LAND UNDER SPECIAL FUND OF \$250,000

Extensive plans for the reclaiming of insanitary lands under the Legislative appropriation of \$250,000 are under way by the Board of Health. President Mott-Smith of the Board of Health stated this morning that survey work has already been undertaken and that within the course of a few weeks the working plans would be ready for discussion.

One of the first tracts to receive the attention of the Board of Health is the land contained within the area bounded by South and King streets and the Ala Moana road. The first work in this section will be the establishment of street grades for the placing of sewers that will assure the proper draining of the lands. The survey work on this has already been started and the grades will be soon established.

The land between Kuukini and Beletania streets dealt with in the report of the special committee of the

Oahu Central Improvement Club will also be among the first to come under the work planned with the \$250,000. Actual planning of the work ahead is expected to be begun by the new sanitary commission when it holds its second meeting this afternoon at 3 o'clock in the Chamber of Commerce rooms. The first meeting was for organization. Chairman George R. Carter will preside today, with C. R. Hemenway as secretary. The other members of the commission, Dr. Donald H. Currie, James L. Young and Prof. Arthur R. Keller of the College of Hawaii, are all expected to be present.

The meeting today will take up a lot of preliminary work, and it is probable that the general plan of procedure to be adopted will be settled. Whether the commission will divide its work into committees or do it as a whole is still to be decided, as well as what work is to be taken up first.

ASK DATE FOR CLEAN-UP DAY

The date of "clean-up day" for Honolulu has been left in the hands of the Oahu Improvement committee by President Mott-Smith of the Board of Health, and whatever day the club may select will be agreeable to the Board of Health.

"President Mott-Smith believes that to make the day a success it must be divorced from all official character. He states that the inspectors and entire force of the Board of Health will be turned over to the citizens committee for one whole day to do with as they will."

"The day should be a sort of holiday," states Mott-Smith, "and can be made a great success if the public will take it up in the right spirit."

It is planned to bring the school children into line in the general work of sanitation and in addition to instructing them on the general principles

of civic cleanliness, offer prizes to those who find the abiding places of mosquito wigglers.

The Board of Health is particularly pleased at the offer made by the local members of the Women's National Rivers and Harbors Congress to assist in the mosquito work, taking it to mean the awakening of health through public interest.

Tomorrow afternoon the members of the organization will hold a meeting in the rooms of the Commercial Club. Addresses will be made by Governor Peary, E. A. Mott-Smith, Gerrit Wilder, who will tell of mosquito killing in the Panama Canal Zone, Dr. Pratt and Superintendent of Public Instruction Pope.

Much interest is being manifested by the citizens and the teachers in the schools in the movement taken up by the Women's National Rivers and Harbors Congress. The librarian of the Honolulu Library has prepared a bibliography of material now to be found on the shelves of the public library. Those who are interested in study or research on the subject can apply to Miss Allen at the library.

The knucker usually gets his when the hammer rebounds

BUILDING SITE MEETING THIS AFTERNOON

Civic Federation Endeavoring to Get Line of True Public Sentiment.

FIFTH DISTRICT WILL PROTEST ANY CHANGE

A public meeting, called by the Civic Federation to discuss a change in the Federal building site, will be held in the Palace grounds at 4:30 o'clock this afternoon. The handstand will be used for the speakers. President Griffiths of Oahu College will preside, and the speakers will be Delegate Kuhio, W. R. Castle, Ed Towse and George W. Smith. The Civic Federation announces that seats will be provided for the audience.

With a mass meeting in the Palace grounds this afternoon, called by the Civic Federation in an endeavor to get a line on the true gist of public sentiment on the Federal building site, if any line can be secured, and with the beginning of a decided movement in the Fifth District against changing the site, several new aspects have been lent to the pro-Mahuka and anti-Mahuka controversy.

The meeting in the Palace grounds is announced as non-partisan by the Civic Federation. Speakers have been invited to represent both sides of the controversy and others who represent neither side. Delegate Kuhio is expected to tell something about the Washington end of the matter and how a proposal to change the site may be received. Ed Towse is announced to speak on the "Civic Center," W. R. Castle as opposing a change in the site at the present time, and George W. Smith on the necessity for united action.

Fifth District is Talking. This morning news came from the Fifth District, which lies on the west side of Nuuanu street, that the Fifth

MISS PRESCOTT TRIES SUICIDE

Anne Marie Prescott, former editor of the Honolulu Times and recently an inmate of the King's Daughters' Home, attempted suicide at the home last Sunday by cutting her throat with a carving knife and is now in Queen's Hospital, weak from loss of blood, but rallying a little. Heres are held out for her recovery. Mrs. Prescott suffered a mental breakdown shortly before she was taken to the King's Daughters' Home and is said to have had a hallucination that she was a leper.

Last Sunday afternoon she asked a Japanese servant for a knife, and was given a carving knife and shortly afterwards was found in her room with bleeding throat.

Dr. Waterhouse was called and sent her to the Queen's Hospital. He said today that she is improving.

MONGOLIA AT THREE TOMORROW

As announced in the Bulletin, the Pacific Mail steamship Mongolia, from Hongkong by way of Japan ports, will arrive off the port about 3 o'clock tomorrow afternoon. A wireless to this effect has been received by H. Hackfeld & Co., the local agents. The Mongolia will be dispatched for the Coast at 10 o'clock Saturday morning, according to present calculations. The steamer is bringing sixteen hundred tons of Oriental cargo and has room for fifteen cabin passengers.
