HAWAII VOTES TAFT

DELEGATE KUHIO RETURNS; SAYS DISGUSTED WITH POLITICAL ROW

Refuses To Sit With Frear At Chicago—Denies Third Party Plan Is Made—Talks On Legislation

WHAT DELEGATE KUHIO SAYS:

He is not coming to Hawaii to start a "third party." Talk of a third party is not at his suggestion nor has it been given his endorsement. He will not forecast any probabilities for the future.

He did not go to Chicago because he is disgusted with the Taft-Roosevelt personalities and because he could not conscientiously sit on the same delegation with Governor Frear.

Governor Hughes of New York, he thinks, will be the compromise choice of the convention.

Hawaiian legislation is being side-tracked because of more pressing matters before Congress, but should pass at the next session.

Disgusted with the Taft-Roosevelt campaign of personalities and declining to sit in the delegation at Chicago with Governor Frear on account of his bitter controversy with Hawaii's chief executive, Delegate J. Kuhio Kanihioho returned this morning from Washington on the liner Honolulu.

Stories that Kuhio would launch a "third-party" movement here and that his plans for this are already well advanced are denied by the Delegate. In an interview with a representative of the Bulletin he stated that no such move has been suggested by him and that if such a move has been made it is on the part of people here and has not been given his endorsement.

The Delegate, however, is not communicative as to his political plans for the future. While quite willing to discuss Hawaiian legislation pending before Congress, he is somewhat reticent as to the political developments in the islands and the probable course of events here as influenced by his antagonism to Governor Frear.

He has not yet picked a man to succeed his retiring secretary, George McK. McClellan, and, in fact, when seen this morning, he had had no time to confer with his local political friends, and hence was naturally unwilling to make prophecies for the future.

One thing he considers certain, and that is that Secretary Fisher will come to Hawaii as soon as he can leave Washington to carry on the investigation into Frear's administration. (Continued on Page 3)

DELEGATE KUHIO

WILD SCENE AT CONVENTION WHEN "DARK HORSE" NAMED; HAWAII CHANGES ITS VOTE

NEW NAVAL BILL AIDS IN LOCAL WORK

BY C. S. ALBERT.

(Special Bulletin Correspondence.) WASHINGTON, D. C., June 7.—The naval appropriation bill, as amended by the Senate committee on naval affairs and reported, does several good turns for Hawaii. Among them are these important additions to the measure as passed by the House:

The Secretary of the Navy is authorized to purchase, from the appropriation "Naval Station, Pearl Harbor, Hawaii, fresh water system," made by the act of March 4, 1911, 1 acre, more or less, of land in the island of Oahu, Territory of Hawaii, for the location of wells for supplying fresh water to the naval station, Pearl Harbor, Hawaii, and to acquire a right of way for a pipe line from such wells to the naval station.

The limit of cost of the drydock at the naval station at Pearl Harbor, Hawaii, has been increased from \$2,550,000 to \$3,480,000, and the appropriation of \$1,050,000 has been made to continue the work on the same, instead of to complete it. The increase in the limit of cost is made necessary because of conditions which require the use of a richer mixture of concrete.

By a new clause the Secretary of the Navy is authorized to employ the appropriation for the support of the lepers on the island of Guam for their removal to such island possession of the United States as he may select. The island which he will select will be the island of Cullion, in the Philippines, where there is already a leper colony, under expert medical care. A large hospital is already in existence there. The island is 240 miles southeast of Manila and is 20 by 40 miles in size. (Continued on Page 3)

SCHOLARSHIP CUP 1912 GIFT TO PUNAHOU

Punahou's plans for an alumni hall will be discussed at the annual meeting of the alumni, to be held at 4:30 o'clock this afternoon at the Punahou spring.

F. C. Atherton, president of the alumni association, will preside, and speakers will be Dr. W. C. Hobdy, President A. F. Griffiths, and James A. Wilder, and the Girls' Glee Club will furnish music.

Graduates of the Punahou Preparatory in the class of 1912 today placed a premium on scholarship for the future pupils of the institution by presenting the school with a scholarship cup, to be known as "The Punahou Cup." (Continued on Page 6)

CHICAGO, Ill., June 19.—The Hawaii delegation swung into line for Taft on the showdown today, on the resolution by Governor Hadley of Missouri, the Roosevelt floor leader, to eliminate from the roll-call all contested delegates.

A motion to table the resolution carried by a vote of 564 to 510. Hawaii voted with the Taft forces.

The vote was a Taft victory, the President gaining five votes over the showing of yesterday, and four not voting. The general feeling is now less intense than yesterday, although the late outbreak in response to the springing of Hadley as a "dark horse" was the wildest yet.

Pennsylvanians bitterly resented the words of Hemenway of Indiana, who cast aspersions upon Flinn, the Pittsburg boss and a Roosevelt leader. Flinn himself led the demonstration made by the Penn delegation. Chairman Root subdued Flinn.

Mayor Shank of Indianapolis called Record of New Jersey a liar in the course of the debate on Hadley's resolution, which Record opposed.

Senator Watson, in finishing the debate against the resolution, said he believed that Hadley would consent to refer the resolution to the committee on credentials.

It was at this point, when they passed together to the platform, that deafening cheering broke out and the Hadley boom was launched.

Ohio, Nebraska, Massachusetts, California, Minnesota, Pennsylvania, Missouri, West Virginia, North Carolina, Kansas and Oklahoma joined wildly in the yelling. Suddenly the delegates tore up their banners and began to parade the hall. Hadley seemed the center of a tremendous ovation.

Mrs. Davis, a Chicago woman sitting in the gallery, waved a picture of Roosevelt, and frantic Roosevelt men seized her and carried her to the platform on their shoulders in the midst of a tremendous demonstration.

The significance of the outbreak, in which some of the Taft men took part, is still unexplained.

(Associated Press Cable.)

CHICAGO, Ill., June 19.—A sudden boom for Governor Hadley of Missouri as a dark horse candidate was launched in the convention here today. The convention opened at 11:15 o'clock. Hadley, as floor leader of the Roosevelt forces, offered a resolution signed by thirteen members of the national committee, to the effect that all contested delegates be eliminated from the roll, which would give the Roosevelt men the whip hand.

The debate on this resolution lasted for a long time. Hadley opened it, and Doveell of Washington, Hemenway of Indiana, Devine of Colorado, Mackay of Michigan and Galvin of Kentucky took a prominent part. Senator Watson, the Taft floor leader, opposed it strongly, while Allen of Kansas and Record of New Jersey supported it.

Late this afternoon, as Watson and Hadley were walking together to the platform, a wild and unexplained demonstration started, mostly on the part of Roosevelt men.

Coleman of Pittsburg ran to the platform, shouting "Hadley! Hadley! Next President!"

The tumult that this created lasted for forty-five minutes, the hall being a scene of pandemonium.

Governor Deneen of Illinois, when quiet was restored, moved to amend the Hadley resolution so that no contested delegates be allowed to participate in sitting in judgment on their own case. Watson moved to table Deneen's motion. The roll-call on the motion to table began at 9:45 o'clock, and the vote, now in progress, is running practically the same as yesterday. (Additional Cable on Page 9)

CLEAN-UP DAY TOMORROW

At 7 o'clock tomorrow morning Hawaii's second annual Clean-Up Day will be on.

More than 400 men and 175 carts and teams will begin the municipal house-cleaning destined to help in making Honolulu Spotless Town from Diamond Head to Moanalua.

President E. von Damm of the Oahu Central Committee, under whose auspices the clean-up movement is taking place, said this afternoon that the forces are completely organized. Public enthusiasm has been growing rapidly, and with tomorrow a legal holiday, there will be not only the forces regularly employed in the work, but vast hosts of volunteers.

"If the day is not a great success, it will not be the fault of the hundreds of public-spirited men and women who are joining with us," said Mr. von Damm. "The city is much cleaner than it was on the first clean-up day a year ago. In districts where then we collected fifty drayloads of garbage and refuse, our inspection forces this year report only two or three drayloads. In many cases the inspection last Saturday showed much less work to be done than we had expected."

"However, tomorrow we ask for and need the support and help of every householder. I would like to say particularly that we are receiving splendid support from numbers of women of the city, who are not only helping by seeing that their own yards are

SEVERIN TELLS COAST PEOPLE HE WAS THREATENED IN HAWAII

College of Hawaii Scientist Talks On Fruit-Fly Situation.

Professor Henry H. Severin of the College of Hawaii certainly did bombard Hawaii's fight against the fruit fly when he reached the Coast recently on his self-announced mission of "telling the truth."

The San Francisco Chronicle of June 7 publishes the following article under a prominent display head:

Professor Henry H. Severin, etymologist of the College of Hawaii, accompanied by William J. Hartung, a young Hawaiian scientist, arrived on the Maunaloa liner Honolulu yesterday morning from the Hawaiian Islands to initiate a campaign for the quarantining of Hawaiian fruits for the purpose of killing off the Mediterranean fruit fly pest. Professor Severin charges that Inspector H. A. Weinland, sent to the islands by the State Horticultural Commission of California to investigate the fly, is incompetent. Weinland, who returned on the same steamer, refused to discuss conditions until he makes his report to the commission.

Severin asserts that his purpose in coming here is to appear before the California Fruit Growers' convention at Santa Barbara, opening in ten days. Severin asserts that reports that the fly pest has been wiped out in the islands are false. He declares that Wein-

PROF. H. H. SEVERIN

land has been absolutely unsuccessful in his attempt to curb the pest. Weinland recently reported to the (Continued on Page 4)

W. A. SMITH, a graduate of the engineering department of the University of California with the class of 1911, was a passenger on the Honolulu. He is going to Hawaii on Saturday, where he has accepted a position as a civil engineer with the Hakaluu Plantation Co.

A bronze tablet inscribed with the names of 32 policemen who lost their lives in the performance of duty was unveiled and set in the entrance of the police headquarters building in New York.

Notification of his decision to consolidate with the Baptist denomination was forwarded to the Northern Baptist convention at Des Moines by the Rhode Island Free Baptist convention.

George Redding Jr., under sentence for murder, was transferred from the county jail at New Haven to Wethersfield. The condemned young man keeps up his spirits.

MARCONI WIRELESS

SCHOFIELD RESERVOIR SITE HAS BEEN SHIFTED

An important change in the plans for the permanent water system at Schofield Barracks has been decided on. Instead of using one of the large gulches back of the Lilehua reservation as a storage reservoir, another dam site, three miles nearer the site of the new post, has been selected, allowing for a cheaper plant and one that will take less time to construct.

This change is the result of careful investigations by Major B. Frank Cheatham, who recently arrived to take up the duties of chief quartermaster of the department. Since arriving on the transport, little more than a week ago, Major Cheatham has been over the big reservation from end to end, and he is certain that the site which he has picked out is better in every way than the one selected some time ago, before the exact location of the permanent post was known. Captain

NEW YORK, June 6.—Twin wireless stations to communicate direct with London will be built along the New Jersey coast within a year, according to an announcement made today by the Marconi Wireless Telegraph Company of America. Options have been obtained on similar sites at San Francisco and Honolulu.

It is planned to construct a plant in the Philippines islands to communicate direct with the one at Honolulu. The company will thus be enabled to send messages from London to the Philippines by way of the United States, relaying the messages by land wires from the Jersey coast to San Francisco. The plants at San Francisco and Honolulu will be erected immediately, the announcement adds.

The first New Jersey station, the announcement says, will be erected within nine months near Belmar, a site of 550 acres, purchased today. The second will be erected at Tom's river or Barnegat and will be tuned to a key different from the first, so that messages to either station may be received and sent simultaneously without interference.

The distance from the New Jersey stations to London is 3100 miles. The estimated cost of the plants will be \$750,000 each.
