AMERICAN & FOREIGN PATENTS. R.H. EDDY, SOLICITOR OF PATENTS

No. 76 State St., opposite Kilby St., Boston,

No. 76 State St., eppesite Kilby St., Boston.

A FTER an extensive practice of upwards of twendry years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with dispatch. Researches made into American or foreign works, to determine the validity or utility of Patents or Invention,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials given below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS ISTHE BEST PROOF OF ADVANTAGES AND ABILITY. he would add that he has abundant reason to believe, and can prove, that at no other office of the kind, are the charges for professional service so moderate. The immense practice of the subscriber during 20 years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive lightary of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to precure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS. "I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,"

"I have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their ap-plications in a form to secure for them an early and haverable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

Boston, February 8, 1832. EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but oxe of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend att inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

From September 17th, 1857, to June 17th, 1858 the subscriber, in course of his large practice, made on fueler rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patonts.

R. H. EDDY Extremely Low Prices!!

THE UNIVERSAL

Large Bottles, 50 Cts. Small Bottles, 25 Cts. And the justly celebrated TOLU ANODYNE. For Neuralgia, Nervou : Headache, Ear Ache, Tooth Ache, Gout, Rhsumatism, St.

These preparations being made by strict Pharmacautical laws, sustained by testimonials perfectly reliable and within the reach of all, are now after eight years' use in private circles, and having performed remarkable cures, offered to the public with that confidence in their curative powers that should warrant all in making trial of them.

Circulars, Testimonials, and every evidence to strengthen confidence can be found with all dealers, to which we ask particular attention and on which we rely for approbation.

Under the special supervision of JOHN L. HUNNEWELL, Chemist and Pharmacautist. S. S. Mitchell, Agent for Sace; Dr. E.G. Stevans, and Dr. James Sawyer, Agents for Biddeford. Sold by all dealers everywhere.

THE ONLY REMEDY. THE Eastern States, included in that section of the I Union, which is most widely known as "New England," contains a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity; with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it ta the end. It gratifies us exceedingly to announce to these afflicted individues that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as THE Eastern States, included in that section of the
