Aty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with dispatch. Research, es made into American or foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by 4f not immeasurably superior to; any which can be offered them elsewhere. The testimonials given below prove that mone is MORE SUCCESSPUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS ISTHE BEST PROOF OF ADVANTAGES AND ABILITY. he would add that he has abundant reason to believe, and can prove, that at no other office of the kind, are the charges for professional service so moderate. The immense practice of the subscriber during 30 years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive his brary of legal and mechanical works, and full accounts of patents granted in the United States and Europe, reader him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to pregure a patent, and the usual great delay there, are here saved inventors.

We have put up and extension of the years, and car and ton by any one who let to say of any other HAS IT FAILED, IN A SIT FAILED, IN A SIT FAILED, IN A SIT FAILED, IN A SIT FAILED, IN A SINGLE INSTANCE when timely used.
Never did we know an tion by any one who speak in terms of high magical effects and speak in this matter after ten years' appear of the contraction of the

Celebrated Stomach Bitters.

But that numerous class who devote themselves to literary and other redentary pursuits, and in consequence of a want of physical exercise, become the victims of languary and debility, without nerve or appetite, have hitherto sought in value for some invigorating. He giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTERS BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively carrent, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical case; whereas they are now sufering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BIT TERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring youarness assectioned by physicialess as proper to be administered during the period of nursing; and this has obtained an universal preference.

Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but oxe of which patents have been granted, and that one is none pending. Such unmistakable proof of great talent and ability on his part leads me to reccommend at! inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

From September 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
