BOARD OF TRADE. Committee of Arbitration for the month of August. W. H. WARD, JAS. BAYYES, HENRY KIMBERLY, ALEX. CLOSE, T. D. JOHNSTON. Monetary and Commercial Review.

BALTIMORE, August 21, 1858.

The Stock market continues without animation, and prices show very little change. The business of the day ums up about \$30,000. Baltimore and Ohio Railroad is a sums up about \$30,000. Datameter at \$57% selier's op-trifle better, with sales of 175 shares at \$57% selier's optrine better, with saies of 1/5 shares at \$57% seller's option 60 days and \$58 cash, leaving off at \$57% bid regular way, \$58% asked. After the Board there were sales of 50 shares, buyer 60 days, at \$58. Northern Central sold at the opening at \$21 cash, % better than yesterday; at buyer's option 60 days it brought 21%@\$21. There were 400 shares of this stock sold, and it closed at \$20% bid, \$21 asked cash. Springfield Mining Company maintained the highest figure of yesterday, 300 shares selling at \$2.56.— Nothing done in Bank shares, which are firm. There was some little movement in Baltimore City 6's at about previous rates, \$5,300 1890's bringing 98%; \$1,000 1875's 98%, and \$100 1875's 98%. and \$100 1886's 97 %. The only transactions in Railroad bonds was a sale of \$2,000 Baltimore and Ohio 1875's at

securities.

The New York Post of Saturday afternoon says:

An extraordinary degree of ease continues to prevail in the money market. The supply of money on offer in the open market has been large, and demand loans are effected with as great facility and cheapness as at any time during the plethora. In the discount department, however, we notice a maintenance of the advanced rates, say ½ per cent. better on short date, and 1 per cent. on 4 and 6 months bills, than those current at the beginning of the month. The banks do not evince the eagerness to lend that they did a few weeks since, in view of the late loss of specie and the near approach of the season when they are more or less subject to calls from country bankers. The week closes on quite a strong stock market. The principal business was in New York Central, the sales reaching 4,000 shares and closing at an advance of ½ per cent. The spirit with which several parties, who had foreign orders for the stock, took hold at the opening of business, had a favorable effect upon the general market, and the Western Roads recovered slightly from the depression of the past few days. There is a margin of about 3 per cent. on New York Central between quotations here and in London, and about 4 per cent, on Illinois coutral. The latter were in good demand, 77 being bid without drawing out the stock. For the bonds 91 was offered at the close. The fresh orders, though not important, which appeared to-day, were probably prompted by the improving aspect of financial and commercial affairs on the other side.

Reading shares rose to 48½. From information at hand this morning it appears that the telegraphic account of the tonnage of the road was incorrect. The figures representing only five days' business. The tonnage of yesterday makes the total for six days 38,508 tons. The blunder of the Philadelphia firm, we are assured, was entirely unintentional, and we asserted its correctness upon our knowledge of the respectability of the parties.

The United States 5's brought 103%. S

still affected by the trouble among the Wisconsin banks.— Tennessee fell to 91½. Indiana 5's are an exception, they advancing ½ percent.

The business of the week on the whole has again been on a quiet scale. The table given below shows that the bears, in the main, have had the advantage, and in most instances have knocked down the prices ½ to 1 per cent. This applies more particularly to the speculative list, the public having shown no disposition to press for sale good dividend-paying state stocks and railroad bonds. In fact, it appears to be a fixed peculiarity of the present period, that attention is absolutely concentrated upon securities of a high class, to the complete neglect of all speculative descriptions. Hence the ineffectual attempts of the mem-bers of the Stock Exchange to stir up any considerable activity. The public must participate, or the bear or bull movement carries but little real prefit or interest. The exchange market for the Arago closed quiet at 109½ (8109½ for leading bills on London. Only \$106,000 in specie goes forward. The specie movement of the week, both domestic and foreign, has been quite unimportant. SALES AT THE BALTIMORE STOCK BOARD.

BOSTON BOOT AND SHOE MARKET, Aug. 20.—The
shoe and Leather Reporter states that the trade has been
dult the past week, but closed more active and firmer—
the business for the West has been very small; we think

the trade will be much as last Spring, some buyers will visit us a second time and many will be obliged to order largely. The Southern trade has been fully up to previous years. Heavy brogans are beginning to be inquired for. A good article of children's laced shoes is scarce. At the two public sales 1,024 cases sold for \$20,089.

two public sales 1,024 cases sold for \$20,089.

BOSTON COTTON GOODS MARKET, Aug. 20.—There has been a fair business doing in the Cotton Goods trade and the market is more active than noticed in our last, the home trade having purchased more freely. For export the transactions have not been of any magnitude. Prices, with some few exceptions, rem: in without change. Heavy Brown Sheetings have been in fair demand, and 8½ cts. continues to be the price for standard goods; 7,627½ cts. for mediam; and 5½ @5½ cts. for light. For Printing Cloths there continues to be a fair inquiry, and the market is firm with sales at quotations. New styles of Prints have been in very good demand at prices trom 9@10½ cts.—Denims are firm, and sales to a fair extent at quotations. Jeans, Stripes, Ticks, Cotton Flannels and Osnaburgs are selling in lots as wanted at quoted rates. In Ginghams there is no change to notice. The Glasgow, Manchester and Lancaster are selling at 10g10½ cts. The new styles and the selling at 10g10½ cts. The new styles are considered to the selling at 10g10½ cts. CINCINNATI MARKET, Aug. 20.—Flour—The market, under the effect of large receipts, and a limited demand to-day, was quite dull, but prices are unchanged. The sales were confined to 800 brls. at \$4.80@\$5 for superfine, and \$5.25 for extra white Wheat. The receipts during the last twenty-four hours were 4.115 brls.

WHISKEY.—The demand is limited and the market dull, with sales of 380 brls. at 230_23½ cts., the latter rate obtained for one lot from wagons.

PROVISIONS—The market was rather dull again to-day, and we noticed a disposition to sell at easier rates, and some transactions took place, but the particulars were kept private. Mess Pork was offered at \$16, 50 brls. Rump Pork sold at \$12.50, 25 tierces Hams at 10 cts., at Madison, and 250 brls. Lard at 10½ cts., a decline.

Receipts have been on so limited a scale to show conclusively that the reserves of Old Coffee in the country are nearly exhausted. From all the information that can be gathered upon the subject we cannot expect any liberal supplies of New until late in the season, and the crop is generally estimated to be barely a fair average.

The great exhaustion of Stocks, owing to the very small crop of last season, may be considered an important feature in the trade of the current crop year, as we shall have the present crop alone to rely upon for our supplies.

CITY INTELLIGENCE.

ESCAPE OF A PRISONER FROM BALTIMORE CITY JAIL.his secape through the gate on Madison street, which had just been opened to admit the workmen who are employed in constructing the new Jail. The prisoner was not observed by any person, although several were standing in the vicinity of the gate, and the guard, Mr. Henry Forest, was on duty as usual. The discipline of the Jail is such, that no white prisoner is now allowed to walk in the Jail yard, and under the circumstances, if the prisoner had been observed, he might have readily been taken for one of the workmen. Capt. Owens, as soon as Miller was lost sight of, gave the alarm, but it was too late, he having made the best of his time in getting away. Miller had been committed to the Jail in May last, charged with robbing the residence of Mr. Cutcuron of a considerable quantity of silver ware, and was awaiting his trial before the Criminal Court. He was arrested in Annapolis Jail on the above charge, where he had been confined for setting fire to a lumber yard in that place, and where he made some disclosures which caused his arrest for the crime of burglary. Captain JAMES has offered a reward for his recapture, which, with a description of the prisoner, will be found in the advertising columns.

ATEMPTED SUICIDE.—On Saturday morning, about 11 o'clock, a man, apparently 22 or 23 years of age, entered the apothecary store of Mr. N. N. ROBISSON, on the north-west corner of Gay and Saratoga streets, and asked him for some laudanum, stating that it was for a sick person. Mr. ROBISSON poured out into a glass a balf ounce of the drug and set it upon the counter, then turned to get a phial, when his visitor quickly took the glass in his hand, and before his movements could be arrested, swallowed the greater portion of its contents. On being spoken to by Mr. ROBISSON as to the rashness of the act and the folly of his conduct, he remarked that he wished to die and hoped the poison would have the desired effect. The proprietor of the store then informed the officers of the Middle District of the circumstances, and the young man was conducted to the station house, where he was kindly attended to by Captain Brasileans and officers Mittelfil, Scherker and others, who administered emeties to him. He was not allowed to lie down, but kept continually moving. The medicine given him and the attention of the officers produced the desired result, and yesterday the effects of the deadily potion had almost entirely disappeared. RIOTOUS PROCEEDINGS.—Yesterday morning about 4 o'clock, some disorderly characters, in the North-Eastern section of the city, created quite an excitement by going to the vicinity of the Harford Avenue and Hoffman street, and there acting in a riotous manner by stoning some houses in the neiguborhood, and ill-treating the himates. Capt. Brashean shearing of their proceedings sent a posse of the police to the locality, who soom made all quiet by arresting a number of the rioters. INDICTMENTS AND JURY VERDICTS.

Before the adjournment of the British Parliament, Lord Campbell gave notice of two important bills which he proposed to introduce at the next session. As they relate to matters of interest on this side of the Atlantic, and may furnish an incitement to legislation on the same subjects, in our own State, we copy his lordship's brief statement of the object of his proposed bills:

The object of the first bill was to prevent a practice that now exists of clandestinely going before a grand jury, and preferring bills of indictment for perjury, conspiracy, obtaining money under false pretences, and such offences, for which there was not the slightest foundation. The result, however, was, that the grand jury, behind the back of the party accused, were induced, sometimes rather hastily, to find bills of indictment upon which a warrant was obtained, and the party was apprehended and imprisoned until he found bail. There should, in his opinion, be no bills found without an examination before a magistrate or proceedings before a judge. The other measure would have reference to the great inconvenience that had immemorially prevailed from the practice of requiring an unanimous verdict from a jury. They had of late experienced great inconvenience from the rule, because the individuals on juries were independent in their thoughts, and did not defer sometimes to the opinions of the judge, or to the opinions of a large majority of their own brethren. He proposed, not that the minority of a jury should be governed by the majority, but that if, after certain deliberation by the jury, they all agreed except one or two, the verdict of those who had agreed should be considered as tantamount to the verdict of the whole 12, subject, however, to be reviewed, and, if necessary, set aside.

The Daughter of Gilbert Stuart.—The Boston Eccaing Transcript says: Among the sufferers by the late fire in Bromfield street, no one excited more sympathy than the talented and excellent daughter of America's greatest portrait painter, Gilbert Stuart, whose memorable picture of Washington alone entitled him and his posterity to lasting national gratitude. For many years Miss Jane Stuart, who inherits much of the good sense, wit and geniality of her illustrious parent, has maintained herself and sister by artistic labor. She began, we believe, by copying her father's historical portraits, and caught much of his vigor of expression and admirable color; but recently she has given new evidence of original skill and taste; her portraits of Mrs. Jared Sparks, Miss Lyman, the Kev. Dr. Lothrop, Mrs. H. G. Otis, and others, have won much admiration. After a severe winter's toil at the ensel, Miss Stuart went to her native city of Newport, R. I., a fortnight ago, for rest and recreation; and now her little collection of specimen portraits and the artist's materials, left in her Boston studio, with probably some exemplars of her father's genius have been destroyed." Arrival of the Agamemnon and Valorous at Valentia

—Landing of the Cable—Advance of the Telegraph
Company's Stock—Interesting Particulars and Com-

ments.

By this steamer we have some of the particulars so eagerly looked for, of the arrival of the Agamemnon in Valentia Bay, after successfully laying her portion of the cable, and of the feeling with which the important event was regarded on the other side of the Atlantic. The following dispatch was the first announcement of the Agamemnon's arrival, and we subjoin the other dispatches and extracts from English papers:

VALENTIA, August 5.

To the Directors of the Atlantic Telegraph Company:

VALENTIA, August 5.
To the Directors of the Atlantic Telegraph Company:
The Agamemnon has arrived at Valentia, and we are about to land the end of the cable.
The Niagara is in Trinity Bay, Newfoundland.
There are good signals between the ships.
We reached the rendezvous on the night of the 28th, and the splice with the Niagara cable was made on board the Agamemnon the following morning.

By noon on the 30th, 265 nautical miles were laid

on anchoring at six in the morning, in Douglas Bay, 2022.

The rate of the Niagara during the whole time has been nearly the same as ours, the length of cable paid out from the two ships being generally within ten miles of each other.

With the exception of yesterday, the weather has been very unlavorable.

VALENTIA, Thursday, August 5.—Her Majesty's ship Agamemnon arrived off Douglas Head early this morning with the end of the telegraphic cable; the communication between Ireland and Newfound-land complete. Mr. Bright is now making arrangements for landing the end, and thus bringing to a successful termination his anxious and difficult task.

The following second dispatch has been received by the directors of the Atlantic Telegraph Company:

The first through message from New York is now awaited with the utmost interest, and most persons which was then flying at the signal post in front of Cowes Castle.

The royal yacht, followed by the Trinity vessel, was soon out of sight on her way westward. As from the Needlest its only 60 miles to Cherbourg, it is anticipated that her Majesty would arrive off the French coast in about five hours after leaving Osborne. The weather during the morning was most agreeable, and the trip across will no doubt be exceedingly pleasant.

Osboan, August 4.—Her Majesty and his Royal Highness the Prince Consort, embarked at 12 o'clock to-day, in the royal yacht Victoria and Albert, and got under weigh immediately for Cherbourg.

which were yesterday offered at £340, immediately advanced this morning, on receipt of the telegram of success, to a nominal quotation of £600 to £900. Later in the day it was found that holders were extremely fi.m, and the final price was £880 to £920. The first through message from New York is now awaited with the utmost interest, and most persons connected with the American trade, are sanguine of the permanent impulse it will give to the commercial intercourse of the two countries, and the economy it will also effect by frequently preventing the profitless shipment backward and forward of goods or specie. As the Niagara is announced to be in Trinity Bay, Newfoundland, the connection with New York will most likely be established with great dispatch. The land telegraph through Newfoundland rans from St. John's, skirting Trinity Bay, to Cape Ray, on the other side of the island; thence there is a cable to Ashpee Bay, Breton Island, which connects with the lines through Nova Scotia and New Bruns-wick and the United States'system down to New Orleans. The working of the fand line of about 250 and there is an intention ultimately to avoid it by running a sub-marine cable from Placentia Bay to Cape Breton. The financial and general position of the Atlantic Telegraph Company now appears to be as follows: Their original paid up capital was £350,000, and dditional £31,000 having been created to be handed over in payment for the exclusive privileges assigned to the company immediately on the successful completion of the undertaking.

Although the amount to participate in dividend is £436,000, the capital actually received is £381,000. Out of this the charge for the entire cable has

as follows: Their original paid up capital was 2350,000, and this has since been increased a short time back, and £75,000 in shares having been created to be handed over in payment for the exclusive privileges assigned to the company immediately on the successful completion of the undertaking.

Although the amount to participate in dividend is £456,000, the capital actually received is £81,000. The colonial concessions of the company give them an exclusive right for 50 years as regards Breton Island, and twenty-give them an exclusive right for 50 years as initiar privilege for 25 years from the State of Maine.

From the respective Governments of Great Britain and the United States the terms obtained are a payment of £14,000 per annum from each for the dividends amount to six per cent. on the original capital of £350,000, after which each Government is to pay £10,000 a year, such payment to be dependent on the efficient working of the line. Previously to the failure of the first expedition, which sailed on the 4th of August, 1857, and lost 533 miles of cable, the £1,000 because the first expedition, which sailed on the third experiments of the first expedition, which sailed on the thore was an additional loss of 450 miles. On the present occasion it appears that nearly 500 miles of cable remained, the total paid out from the two ships, having been only 2,022 miles.
