ly cherished,
Rept in vamembrance of one who with autumn leaves
faded and perished;
God called her pure spirit away from this world of
sorrow and care.
And all that remains to comfort me is only a lock of It is only a lock of hair, enclosed in a locket bright,
But I gaze at it fondly by day, and I dream of my
treasure by night;
I love to recall the time when I smoothed the soft
curls from her brow—
But the past—it can never return, for God has my darling now. It is only a lock of bair, but to me it is precious and

I love to kiss it and think of the time when the loved one was here;
Oh! I would not part with my treasure—this sweet little lock of brown hair,
For all that the world calž lovely, and dark seems life's weary r.ad,
I pray that I only may follow the pathway my darling trod;
And if friends should forsake and leave me, and life should prove hard to bear, I can feel that I still have one treasure, though only a lock of hair.

Yes, only a lock of hair, but never from it will I part,
And when I am called to the grave it shad lie on my
quiet heart;
Then perhaps some triend that I love will carefully
keep and care,
Some little remembrance of me—if only a lock of
hair!

ACROSS the ATLANTIC in FOURDAYS.

Present Condition of the "Cigar Ship."

The present condition of the Winans "Cigar ship," now building in London, and of which accounts were published a long time age, is thus described by the London Morning Herald;

"The general form of the cigar ship has been as her name shows, compared with that of a cigar pointed off at both ends instead of one. A more homely, but, perhaps, more effective illustration is that of the unpleasant but favorite plaything of street boys, the 'tipcat'. Most of our landsmen readers will be more or less of our landsmen readers will be more or less that it is simple but ingenious instrufamiliar with this simple but ingenious instru-ment of annoyance, and if they will fancy a Brobdignag 'cat' of slender make and lapering to an absolute needle-point at either end they will have before their eyes the exact representation of the hall of the cigar ship. This hull, which is, of course, hollow, and is formhull, which is, of course, hollow, and is formed of iron, presenting a perfectly smooth and even surface, supports upon the upper side a small deck, occapying about half, or something less, of the extreme length, the tapering extremities projecting beyond it at either end. Unlike the hull itself, this deck is not exactly the same at each end, presenting a wedge-shaped front towards the bow, while at the stern it is rounded off American clipper fashion. Above the deck are to be seen the fun-nels, companion-houses, &c., but neither mast nor rigging of any kind whatever, the only means of locomotion possessed by the cigar ship being her engines, for which she can, according to estimate, carry coal enough for five days' consumption. Her extreme length is about two hundred and fifty feet, and great-est diameter about sixteen feet, tapering gradnally, as we have said, to a point almost as ine as that of a needle. The amount of accommodation is therefore extremely limited; and we believe it is not proposed to make any attempt at carrying and the passen-but to confine the vessel strictly to the passenfter due allowance for saloon and sleeping apartments, stores, berths for crew, &c., what space can be left for engines estimated to work

up to two thousand horse power.

"The means of propulsion employed are two large screws, one at either end of the vessel, and placed within a very short distance of the extreme points, or at a distance of about one hundred and twenty feet from the machinery. These propellers are to be of great diameter and sharp pitch—the one pushing the other pulling the vessel, and each showing half of its surface above the water. The estimated extreme is about twenty-seven miles per hour.— A short distance from the propeller, and near-er to the centre of the vessel, is the rudder one at each end—a broad iron plate like the rudder, or rather steering paddle, of the an-cient galleys. These are also rather more than one hundred feet from the steering appa-

Such is the general external appearance of th's remarkable vessel, now almost ready for la inching. In the water lier line of flotation, a cording to the model of which we have before spoken, is exactly parallel with her longi-tudinal axis, the sharp point at either end be-ing just level with the surface. Allowing sixteen feet as her extreme diameter, she will thus be raised in the centre eight feet above the water's edge; or with two feet more of bulwark, ten feet in all. We are free to contess that, with every possible desire to be-lieve in the good qualities of a vessel which promises to bring us our American news in some three or four days, and to limit that dreadful channel business to within the hour, we are at loss to understand how, under these conditions, the cicar ship purposes to keep conditions, the cigar ship purposes to keep afloat. In perfectly smooth water we can im-agine that she might, if successfully ballasted gainst the chance of rolling over and over, as would be of course her natural tendency, make something very like the estimated speed, though with what degree of comfort to the passengers, deprived by the construction of the vessel of all light or ventilation except such vessel of all light or ventuation except such as can be obtained from the deck by means of skylights and windsails, and with two enormous propellers of severe pitch lashing the water at either end, is another question. The advantages, too, of being cooped up in such extremely close quarters, with an engine of this enormous power, may also be onen to

"But the real difficulties of the cigar ship, as of most others, hust commence with the first symptoms of a breeze. Imagine a vessel of this construction travelling at the rate of five-and-twenty miles an hour—the minimum rate, be it remembered, for the New York passage, on account of the consumption of coal—meeting in mid-ocean one of the westerly gales now careering across the Atlantic. In front of her is a wall of water twenty feet high, travelling at the rate of a dozen miles an hour. Between them they meet at the speed of forty miles. There is no bow' to lift her over the obstacle. Right into it she plunges, live a harpoon into a whale's back, the whole force of the blow being met by the propeller, which, however severe may be its pitch, cannot present anything very much better than an almost flat surface to the shock. What chance the blades would have of surviving any very long succession of such shocks is a matter of simple calculation, and one into which the engineers have no doubt fully entered."

this enormous power, may also be open to question, even under the most favorable cir-

TA New York lady with a fortune of \$100,000, recently took a fancy to a poor but handsome barber, and married him.

AMERICAN ORGANS MANUFACTORY, MIN

Tremont, opposite Waltham Street,

BOSTON, MASS. The most perfect and beautiful Musical Instru in the world for the American Home Circle. THE AMERICAN ORGAN makes Home Attract

ive, and refines and elevates the minds of all. Beautitul in its appearance and effects. Seventeen-17-First Premiums were awarded to the American Organs in the Month of October, 1865, over all competitors, at different State and County Fairs. First Premium awarded to the American Organs at the Great New York State Agricultural Fair at

Rochester, September, 1864, over the whole catalogue

exhibited by the most celebrated makers.

THE AMERICAN QRGANS are the ONLY REAL REED ORGANS now before the public. The only Organ having a REVERBERATING SOUND tant part to perform as the Sounding Board has in a Piano Forte (to give body and resonance of tone) and without which the Organ becomes merely a Melodeon in an Organ Case. The American Organs not only have the Wind-Chest or Sound Box but have the large Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfecting of the tone, make them the MOST PERFECT ORGAN KNOWN. Then, in tineness of workmanship, finish of action, and case, they excel all others. These great improvemen and superiority of tone and wormanship of the Amer can Organs pi ace them in the front rank as the best and command a higher price than any other reed instrument in the market. A careful examination of them, in comparison with others, will quickly show

their superiority.

Special attention is called to the style of the AMER-IOAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass. FOR CHURCHES in want of a powerful instrument, whose means are limited, its price renders it very desirable.

Every Organ is Warranted to Prove

THE AMERICAN ORGANS all have the Reverb erating Sound Box, or Wind Chest, and are finished in the highest style of art, in Rosewood, Jet, Walnut, and Oak fitish, richly varnished and Polished, or in smooth Oil Fini..., forming elegant pieces of furniture for the Parlor or Boudoir; and the Oak and Wainut especially adapted for Churches, Lecture and Lodge

THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, two Blow Pedals, and TRE WOLO found in no other instrument New Styles of Cases,

Richly Finished and Highly Ornamented. Hustrated Catalogues, containing cuts taken from Photographs, showing their relative size to each other, sent tree. Sold only by

CHEROKEE CURE.

INDIAN MEDICINE, Cures all diseases caused by self-abuse, viz: ness of Vision, Prematur Old Age, Weak Nerves, Diff

low as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions and effect a permanent cure after all other medicines have failed. Thirty-two address.

Price \$2 per bottle, or three bottles for \$5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

CHEROKEE INJECTION,

does not fail to cure Gleet and all Mucous Discharges in Male or Female, enring recent cases in from one to three days, and is especially recommended in those cases of Fluor Albus or Whites in Females. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, \$2, Three Bottles, \$5.

"Injection," \$2, " \$5.

Thicetton, "E. "Remedy," and "Injection," are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Bome unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. Be not deceived. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in perfect confidence. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlots, medicines, or advice, to the sole proprietor, Dr. W. R. MERWIN, 37 Walker St., N. X.

SPRAGUE'S

SURERELIEF

IN WIHCH

Sures are Positive! SURE

Relief from all Rheumatic Affections

SURE OF NO INJURY TO THE SYSTEM.

SURE Of An Agreeable Application in its use! An invaluable remedy for Sciatica, Gout, Neural-gia, Lame Back, Side or Stomach; Strains, Sprains, and all joint affections; Chilblains, Cramp; and will take the sorenge from Cuts, Burns and Bruises. Medical.

DR. LAROOKAH'S

Sarsaparilla Compound For the Cure of Liver Complaint, Dyspepsi Scrofula, Dropsy, Neuralgia, Epilepsy, Ery-sipelas, Boils, Tumors, Salt-Rheum, Ul-

cers and Sores, Rheumatism, Pain in the Stomach, Side and Bowels. Debility, and all Complaints arising from Impurities of the Blood.

It will cure Nervous Affections, and Palsy arising from the use of Mercury or Lead. It is a tonic as well as a culting the tone of the system, thus culting Dropsy and General Debility, tending to Consumption. It is a great protection from attacks that originate in change of climate, season and

such as Lumbaso. Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by Scrofula taint, this Compound is a most effectual remedy.

Dyspepsia or Indigestion, is often caused by Scrot ula, which deranges the stomach, and renders it un-healthy. Indigestion is not always caused by Scrof-ula, when it is, this Sarsaparilla Compound is a ready

sm. Acting like a latent poison, it reduces the vitality of the blood. Constitutions affected with Scrofula are more than any other subjected to diseases, an have less power to withstand or recover from them. The Scrofula taint or infection is heriditary in the constitution, "descending from parents to children until the third generation,"—and should be attended to in season; and we honestly believe by the timely use of DR. LAROOKAH'S SARSAPARILLA COM-POUND that this most loathsome disease can be checked and in the majority of cases cured. Dropsy and Dropsical swellings are frequently cured by this

For Syphilis, or Venereal Disease, and for Mercurial Disease, which is sometimes complicated with it, the SARSAPARILLA should be taken freely and em. Neuralgia, Headacke, and various disorders of the

nervous sytem frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

Erysipelas, Bolls, Tumors, or Salt Rheum, Ulcers,
Sores &c. Moderate doses three times a day will usually effect the cure of the above complaints, but orten requires considerable time.

For Purifying the Blood, there is nothing now before the public which can excel Larookah's Sarsapa illa Compound. By using this Compound, multi-tudes are saved from the endurance of foul cruptions through which the system strives to purify it-self. Nature should be assisted to do this through its own channels by this great alterative medicine. The theory of its operations is, that it cleanses the in it; penetrating into every part of the body, it ex-pels all diseases that inha it it; commonly speaking, it purifies the blood, driving out all the corruption that Scrofula breeds in it. Purifying, it renovates the blood, giving it a renewed vitality and torce as in youth again. Hence those cured by this great alter ative medicine, will feel younger and stronger, as well as freer from the infirmities of age.

Being composed entirely of vegetable products, this Sarsaparilla Compound is perfectly harmless as well as very effectual—a fact of vast importance to all those who have occasion to use it; for many of the their bases-although they may sometimes effect cures, still they are very liable to entail a vast train of evils upon their victims, often worse than the ori-

PRICE \$1.00 PER BOTTLE. DR. E. R. KNIGHTS, Proprietor, MELROSE, MASS.

DR. KNIGHTS'

ORIENTAL HAIR RESTORER.

After a long series of experiments, this article, a it is now offered to the public, is believed to be the most perfect of its kind which science has ever derised. No pains have been spared to produce what has so long been demanded by thousands, who, from sickness or other causes, have become prematurely gray; and others, who in the sere and yellow leaf of life, would retain, so far as possible, the semblance of

Such an article is now made available to the publie in DR. KNIGHTS' ORIENTAL HAIR RE-STORER, which, after a few applications, restores gray or faded hair to its original color, and is the only preparation of the kind upon which the public ca place any reliance. It has never been known to fail in a single instance, and is totally unlike the thou-sand and one so-called Hair Restorers, by which so

many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth and will not soil the skin, scalp or any article of ap-After the use of one bottle, in daily applications, o fter the natural color of the hair is restored, its occasional use should be continued, in conjunction with DB. KNIGHT'S HAIR DRESSING, which, as a pre-

erver and beautifier of the hair, is without a rival in the estimation of the public. Price 75 Cents Per Bottle. PREPARED BY

Dr. E. R. KNIGHTS, Chemist, Melrose, Mass.

WALL OF FOR. KNIGHTShift andrig

Hair Dressing!

This article has been prepared with a view to supersede the pernicious oils and pomades so common in the market, the use of which has been almost invariably detrimental to the growth and beauty of the hair. It has long been a matter of regret that no re-l'able preparation for dressing the hair was generally available, most of the compounds used for that pur-pose being worthless, and many absolutely worse. As a people, it is notorious that we become prematurely gray or bald. In no country are there so many gray and bald heads on young shoulders as in this. For this phenomenon many causes are assigned. By some it is attributed to our mode of life; by others, to the restless activity of the American mind; but we trace this public misfortune—for misfortune it is—to the inordinate use of oil as a dressing, which diseases the scalp, and alcoholic preparations which dry up or burn out the roots of the hair. DR. KNIGHTS' HAIR DRESSING contains neither oil nor alcohol, and is unquestionably the only article before the publie that deserves the name. Its use prevents the hair from falling off or turning gray; it removes dandruff, cleanses the scaip, and cures nervous headache. Its invigorating properties insure luxuriant locks, inclined to curl, and its delightful fragrance, and the rich and glossy appearance which it imparts, render it the favorite Hair Dressing of the most fastidious. PRICE 75 CENTS PER BOTTLE.

M., to connect trains for Boston.

Freight trains leave daily at 8 A. M.

EDWIN NOYES, Supt. dc22tf

To the Public. Having been engaged for more than twenty years in the Hair-Dressing Business, and knowing as I do all the preparations that are offered for the restoration of the Hair, and how they are made and what composed of, and knowing most of them to be useless and some injurious, and feeling the great need for some preparation free from injurious substances, such as Oils, Alcohol, and Sugar of Lead, Lac Sulphur, (a most poisonous preparation) injurious to the health of the hair and body. I have endeavored to supply the want by preparing an article that is free from oils of all kinds, and all substances known to be injurious. It will keep the hair moist and glossy longer than any oil, cures all humors of the scalp, stops the itching of the nead, prevents the hair from falling off in the worst cases of ever or other diseases, and will not soil the nicest silk. My Balm is not a Dye, but purely a Dressing for the Hair and a Medicine for the Head. I here offer the names of a lew persons who have used my Balm. Let them speak for themselves.

I am permitted to refer to the following gentlemen: Capt. A. P. Harris, Geo. W. Parker, J. Dunn, Esq. D. Drinkwater, H. C. Hastings, R. C. Hanson, A. Thomes, H. Lewis.

Mr. Todd:—

I feel it due to you, as a public benefactor, to state that my hair was falling off very badly, and I was troubled with a diserse of the head known in the medical world as Porigo, which causes severs itching of the head. I tried your Hungarian Balm, and to my surprise and pleasure my hair stopped falling off, and humor has entirely left the head.

C. R. PACKARD, M. D.,

Boston, Mass.

I have tried Todd's Hungarian Balm, and I con-alder it the best article in use for the hair. J. B. WEBB, Gorham, Me. I have used Todd's Hungarlan Balm, and can a that it is the best dressing for the hair in use. I hair was falling off very fast, and by the use half a bottle of the Balm is has stopped falling off trely, and is fast thickening up, and is in fine contion.

Jan 1—wly Medical.

Notice to the Public! In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in regard to the lost desirable mode of preparing Fluid Extracts.-My efforts being successful—the articles being approved and used by the Medical Faculty—I was desirous of placing them before the public, but hesitated for ome time before concluding to resort to newspaper advertising, knowing the prejudices that existed i the minds of many against using advertised Medi-cines or Nostrums, but through the advice of friends

After 18 years' exertions, commencing in a small way, the popularity of my articles has extended to all parts of the United States, and widely throughout loreign countries—and this in the face of much opposition. Every means has been resorted to by un-pricipled dealers since their merit and success have een known—such as advertising larger bottles at less price, censuring all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been sucessful.

MY OBJECT

in this notice is to make facts known to the public and respectable dealers, believing, after so many years' exertions, that the Druggists will discountenance such proceedings, and that the reputation of my articles may not be damaged by use of inferior o Knowing that many may read this article who are

macquainted with me, I append a few remarks from those of my native city, and whose names are known n all parts of the world: "Being personally acquainted with Mr. H. T. Helmbold, it affords me pleasure in stating I have been most favorably impressed with his energy and integrity, and gratified at his success."

WM. WEIGHTMAN,

Firm of Powers & Weightman, Ninth and Brown Streets, Philadelphia.

[Evening Bulletin, Philadelphia.] When on a visit to the city of New York a few days since, I was induced to call on our old friend and townsman, Mr. H. T. Helmbold, Druggist, 594 Broadway, New York. His store is a *Model*—a perhed dem—the handsomest of any kind we have ever had the pleasure of viewing, and so extensive, being 34 feet front, five stories in height, and over 200 feet deep. It indeed affords us much pleasure to know that he has been so successful, and it is am ple evidence et the merits of his articles—as in our whole business experience we have not known of the success of any articles without Merit—advertising nerely bringing the name before the people."

[Boston Herald.] "We do not like to advertise worthless wares, or articles calculated to deceive our readers; and when we see an advertiser like Mr. Helmbold, whom we have known for years, gradually extend his advertising from year to year until he becomes the largest adver-tiser in the United States, we are satisfied that the ements in regard to his articles must be correct." The writer reluctantly inserts the above, and would

not do so were he not a stranger to many; and condiseases for which they have been used by usands with complete success. [ADVERTISEMENT.]

Will cure all diseases of the Kidneys and Bladder.— Cures Pain or Weakness in the Back, Strictures, &c.; Cures Weak Nerves, Loss of Memory, Trembling, Dimness of Vision. Helmbold's Fluid Extract of Buchu Is a pure fittid extract, and not a weak tea or infusion is the one thing needful for all complaints incident to Females. For particulars send for Circular.

HELMBOLD'S FLUID EXT. BUCHU Cures Gravel and Dropsical Swelling existing in Men Women or Children; in fact, all diseases requiring the aid of a Diuretic. It is the greatest Tonic and Diuretic known—perfectly sale, pleasant in taste and odor, and immediate in its action.

HELMBOLD'S

FLUID EXTRACT OF SARSAPARILL One bottle equivalent in strength to one gallon of the Syrup of Depoction.

It reaches the seat of the disease immediately, expelling all HUMORS of the BLOOD, AND BEAUTIFYING THE COMPLEXION. These articles, being of such strength, the dose is exceedingly small. From this fact, it is used in the United States Army Hospitals and public Sanitary Institutions throughout the land.

From Sold by all Druggists everywhere.

From Cut out the advertisement and send for it, and by this means avoid Counterfeit.

THROAT

MRS. MANCHESTER.

THE INDEPENDENT CLAIRVOYANTI

Electric Physician! From 618 Broadway, New York, has returned to Portland, and can be consulted at her office, No. 11 A CLEAR CASE OF CLAIRVOYANT SIGHT. Dear Madam:—Permit me to tender you my sin-ere thanks for the cure 'you have effected on my child. My daughter, ten years old, was taken sick

last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs. MANCHESTER, in Portland, describing her symp-toms. She immediately examined her case and told that she had a Snake in her stomach, told where she drank it, and that it has been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved that all may see for themselves that this statement is really so. I am confident that the child could no nave lived, had it not been for Mrs. Manchester, and

we feel as though she never could be repaid for her MARY RAY, GEORGE W. RAY. Providence, R. I., Nov. 10, 1865. dc12tf

Medical.

DR. J. B. HUGHES CAN BE FOUND AT HIS

PRIVATE MEDICAL ROOMS. No. 5 Temple Street.

WHERE he can be consuited privately, and with the utmost confidence by the afflicted, at all hours cally, and from 8 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the affliction or private diseases, whether arising from impure connection or the terrible vice of self-abuse. Devoting his entire time to that particular branch of the medical profession, he feels warranted in GVAR-RANTEEING A CURE IN ALL CASES, whether of long standing or recently confrared, entirely removing the dregs of disease from the system, and making a perfect and PERMANENT CURE.

He would call the attention of the afflicted to the fact of his long standing and well-carned reputation furnishing sufficient assurance of his shift and success.

Every intelligent and thinking person must know that remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fits him for all the duties he must addil; yet the country is flooded with poor nost unis and cure-alls, purporting to be the best in the world, are not only useless, but always injurieus. The unfortunate should be PARTICULAR in selecting his physician, as it is a lamentable yet incontrovertable fact, that many syphilitic patients are made miserable with rained constitutions by malireatment from inexperienced physicians in general practice; for it is a point generally conceded by the best syphilographers, that the study and management of these campiaints should engross the whole time of those who would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to make himself acquainted with their pathology, commonly pursues one system of treatment, in most cases making an indiscriminate use of that antiquated and dangerous weapon, the Mercury. CAUTION TO THE PUPLIC.

HAVE CONFIDENCE. All who have committed an excess of any kind, thether it be the solitary vice of youth, or the sting-ag rebuke of misplaced confidence in maturer years, SEEK FOR AN ANTIDOTE IN SEASON. The Pains and Aches, and Lassitude and Nervous Prostration that may follow Impure Coition, are the Barometer to the whole system.

Do not wait for the consummation that is sure to follow: do not wait for Unsightly Ulcers, for Disabled Limbs, for Loss of Beauty and Complexion.

HOW MANY THOUSANDS CAN TESTIFY TO THIS BY UNHAPPY EXPERIENCE! THIS BY UNHAPPY EXPERIENCE!

Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated scientifically, and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young man with the above disease, some of whom are as weak and emacated as though they had the consumption, and by their friends supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health.

MIDDLE-AGED MEN. There are many men at the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening ite system in a manner the patient cannot account for. On examining the urinary deposits a ropy scilment will often be found, and sometimes small particles of semen or albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the SECOND STAGE OF SEMINAL WEAKNESS. l can warrant a perfect cupe in such cases, and a full and healthy restoration of the urinary organs.

Persons, who cannot personally consult the Dr., can do so by writing, in a plain manner, a doscription of their diseases, and the appropriate remedies will be forwarded immediately.

All correspondence strictly confidential, and will be returned, if desired.
