O'N some boilers 700 degs. of heat is thrown away.

O'naking a loss of 1-3 the fuel. The question is often asked how can this be saved. Mr Blanchard has invented a boiler that takes perfect control of all the heat and makes it do duty in the engine. This is very simple in its construction; after the engine is in morion the smoke pipe is closed tight, and the waste heat carried through heaters, heating the steam to any temperature desired; the remainder carried through the water heater, using up all the waste heat but 200 degs.; the heat being reduced so low there can be no danger of setting fires by sparks thrown from engines, which will add much value to this invention, besides the saving 1-3 the fuel. DR. W. N. DEMING.

174 MIDDLE STREET, Nearly Opposite the United States Hote Near the Preble House,

WHERE he can be consulted privately, and with
the utmost confidence by the afflicted, at
hours daily, and from 8 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the
affliction of private diseases, whether arising from
impure connection or the terrible vice of self-abuse.
Devoting his entire time to that particular branch of
the medical profession, he feels warranted in GUARANTEEING A CURE IN ALL CASES, whether of long
standing or recently controcted, entirely removing the
dregs of disease from the system, and making a perflect and PERMANENT CURE.

He would call the attention of the afflicted to the
fact of his long-standing and well-carned reputation
furnishing sufficient assurance of his skill and success. Wearly Opposite the United States Hotel
Where he would respectfully announce to
citizens of Portland and vicinity, that he s
years we have been in this city. During the three
of the worst forms of disease in persons who have
tried other forms of disease in persons who have
tried other forms of treatment in vain, and curing
patients in so short a time that the question is often
asked, do they stay cured? To answer this question
we will say that all that do not stay cured, we
doctor the second time without charge.

Dr. D. has been a practical Electrician for twenty
one years, and is also a regular graduated physicial,
Electricity is perfectly adapted to chronic diseases; in
the form of nervous or sick headache; nouragin in
the head, neck, or extremities; consumption wher
in the acute stages or where the lungs are not fully
involved; acute or chronic rheamatism, scrofula, hip
diseases, white swellings, spinal diseases, curvature
of the spine, contracted muscles, distorted limbs,
palsy or paralysis, St. Vitas Dance, deafness, stammering or hesitancy of speech, dyspepsia, indigestion, constipation and liver complaint, piles—we cure
every case that can be presented; asthma, bronchitis, strictures of the chest, and all forms of female
complaints.

Every intelligent and thinking person must know that remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fit him for all the duties he must fillfil; yet the country is flooded with poor nostrums and cure-alls, purporting to be the best in the world, which are not only useless, but always injurious. The unfortunate should be PARTICULAR in selecting his physician, as it is a lamentable yet incontrovertifie fact, that many syphlitic patients are made miserable with ruined constitutions by maltreatment from inexperienced physicians in general practice; for it is arpoint generally conceded by the best syphilographers, that the study and management of these complaints should engross the whole time of those who would be compotent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to maknimself acquainted with their pathology, commonly pursues one system of treatment, in most cases making an indiscriminate use of that antiquated and dangerous weapon, the Mercury.

Coughs, Colds, Sore Throats, &c.

etter from Hon. D. W. Gooch, Member of Congres

Melhose, July 19 1865.

I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throats, 1 nd all consumptive complaints, &c. I have recommended it to several friends, who have received great benefits from its use.

Letter from a well known Boston Druggist of twenty years experience, and Steward of Hanover Street M. E. Church:

M. E. Church:

BOSTON, March 9, 1865.

Dr. E. R. KNIGHTS: Having used LAROOKAH'S
PULMONIC SYRUP myself and in my family for
the past six years, I am prepared to say that it is superior to any medicine I have ever known, for the
postitive cure of Coughs, Colds, Soro Throat and all
similar complaints. As I take coid very easily, I
have had great opportunity to test the VIETUES of
this valuable remedy, and it has never FALLED me
yet, however violent the disease. Having been in the
Drug business for over 20 years, I have had good opportunities of knowing the virtues of the various medicines sold, and pronounce LAROOKAH'S SYRUP,
THE EEST of any article EVER presented to the
public.

How Many Thousands Can Testify to This by Unhappy Experience!

Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated scientifically and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young men with the above disease, some of whom are as weak and emaciated as though they had the consumption, and by their friends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health. DR. LAROOKAH'S

Middle-Aged Men.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of semen or albunien will appear, of the color will be of a thin milk-sis hue, again changing to a dark and turbid appearance. There are many men who die of this didiculty, ignorant of the cause, which is the SECOND STAGE OF SEMINAL WEAKNESS.

Wonderful. Cure of a Child Two and a Half Years Old. Gents:—My grandchild, a liftile girl of 2 1-2 years old, was taken sick in Port'and, Me., in January, 1878. No one could tell what was the matter with her. But she was much pressed for fereath; had a hard, tight cough; could not raise; her throat troubled her greatly; she seemed to be filling up, and though attended by the best physicians in Portland, they could not help her, and she declined; and for some three months was not expected to live. Her doctors, and at length her fainteds, give up all hopes of her recovery. She was brought home to my hones in Phipsburg, Me. We tried Cod Liver Oil, but the effect seemed rather opposite from good. She now could not move her hand, so reduced was she. I was taking I arookah's Syrup at the time, aed commenced giving it to her, and in a wock, she showed quite a change for the better, and we continued giving it to her. She gradually improved, and is now a perfectly healthy child. People were astonished to see what effect the medicine had on this child, and to see her get well by the use of Jarookah's Syrup, which we believe to be the best medicine for Pulmonary complants in the world.
