[From th Round Table, New York, July, 1867.] The Fortiana Fress evinces a commentable enter-gy in collating inter pertaining to the commercial manufacturing and agricultural life of its State. Its editorial opinions are also expressed with unusual weight, and it is the only provincial journal in the country that pays any considerable attention to Ca-nadian events.

[From the Waterville Mail, Oct. 25.] The proprietors of the Press are sparing no expense in strengthening their editorial force, and in mproving their paper in every department. A first class daily may now be found without going out of [From the Machins Republican, Oct. 24.]

We learn, not for the first time, however, from a letter in the Bangor Whig and Courier, that Mr. George Gifford, a young Augusta lawyer, has accepted a situation on the editorial staff of the Porkland Press. Mr. Gifford has been some time in that situation, and has done some good service, and is capable of doing much more. Mr. G. isan carnest and devoted student, and will be an acquisition to the editorial corps of Maine. [From the Gardiner Home Journal. Jan. 1.]

THE PORTIAND DAILY PRESS enters on the new year with a full and able corps of edito s, and with a determination on the part of the publishers, to make it merit the large patronage it is receiving. Our merchants should consult their interests and take it instead of supporting the Boston dailies entirely.

[Prem the Kennebec Reporter, Jan. 4.]

The Poetland Dally Press is not only a credit to the city but also to the State. It is now as large as most of the Boston dailies, and in point of ability it deserves a high rank. Its editorials are not otten duli, but usually have a fresh and sparkling style not common in our daily exchanges. The Press also has the full telegraphic dispatches of the Associated Press, and regular correspondence from Washington New York, and the principal cities of our own State. During the session of the legislature it will have special dispatches every night, containing the substance of the day's proceedings. Any movement that looks to the material growth of the State always finds in the Press a hearty advocate. It should have a large list in all the prominent places of Maine.

For those who desire a family paper the weekly edition of the Press has much to commend it. Besides the carciulty selected news of the week, and po itical matter, it has readable stories and choice miscellanty, attractive to the family circle.

L. BILLINGS, Agent.

DEL J. M. HEUGHERS CAN BE FOUND AT HIS PRIVATE MEDICAL ROOMS. No. 14 Preble Street. Near the Proble Mouss,

The Broke is the case be consulted privately, and swith the intmost confidence by the afflicted, at hours daily, and from 8 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the affliction of private discuses, whether arising from impure connection or the terrible vice of self-abuse. Devoting his entire time to that particular branch of the medical profession, he feels warranted in Guar-ANTERING A GUER IN ALL CASES, whether of long standing or recently controtted, entirely removing the dregs of disease from the system, and making a perfect and PERMANENT GUER.

He would call the attention of the afflicted to the fact of his long-standing and well-earned, reputation furnishing sufficient resurrance of his skill and succoses.

Every intelligent and thinking person must know hat remedies handed out for general use should have fact remedies handed out for general use should have fact reflicacy established by well tested experience in the hands of a regularly educated physician, whose preparatory similes it him for all the duties he must fulfit; yet the country is flooded with poor nostrums and cure-alls; purporting to be the best in the world, which are not only uscless, but always injurious. The unfortunate should be PARTICULAR; in selecting his physician, as it is a lamentable yet incontrovertible fact, that many syphilide patients are made miserable with rulined constitutions by maltreatment from inexperienced physicians in general practice, for it is a point generally conceed by the best syphilograders, that the study and management of these come dimints should engross the whole time of those who would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to makhinged acquainted with their pathology, commonly pursues one system of freatment, in most cases making an indiscriminate use of that antiquated and dangarous weapon, the Mercury.

Have Confidence. All who have committed an excess of any kind.
whither it be the solitary vice of youth, or the stinging rebulke of misplaced confidence in maturer years,
seven wor as an independent in maturer years,
seven wor as an independent of maturer years,
seven wor as an independent of the protection,
are the Barometer to the whole system.
Do not wait for the consummation that is sure to follow; do not wait for Unsightly Ulcars, for
Disabled Limbs, for Loss of Beauty
and Complexion.

How Kany Thousands Can Testify to This by Unbappy Experience! Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated scientifically and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young men with the above disease, some of whom are as weak and emacined as though they had the consumption, and by their triends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the arimary deposits a ropy sediment will often be found, and sometimes small particles of semen or alburnen will uppear, or the color will be of a thin milkish hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty ignorant of the cause, which is the SECOND STAGE OF SEMINAL WEAKNESS.

I can warrant a portect cure in such cases, and a fall and healthy restoration of the unitary organs.

Persons who cannot personally consult the Dr., can do so by writing, in a plain manner, a description of their diseases, and the appropriate remedies will be forwarded immediately.

All correspondence strictly confidential, and will be returned, if desired.
