"I would wake up at night hearing them fight. They would have a quarrel in the evening, go to bed, and wake up to continue it."

The German cruiser squadron appeared off Lowestoft five hours after three Zeppelins appeared off the coast on a bomb dropping expedition.

The responsibilities of marriage were entirely too irksome for Wallace Scotton. He preferred to play croquet, his wife Irene, who is only 17 years old, testified.

The break came finally. Though Mrs. Scotton offered to give her husband another chance, he told her that a young fellow like him couldn't be tied down by furnishing a home, and they parted for good.

When Judge North learned that he was only 19 years he held up the decree until Scotton appears before the court. A pro confesso suit cannot legally be brought against a minor.

"GET READY TO DEFEND AMERICA"

President Urges Business Men to Organize Their Resources

WOULD TEACH MUNITION MAKING

Engineering Societies Busy Collecting Necessary Data

NEW YORK, April 25.—In an open letter, made public today by the committee on industrial preparedness of the naval consulting board, President Wilson asks the co-operation of the business men of America in organizing industrially for national defense.

The work will start May 1, when agents of the committee will start a national inventory of factories and shops with a view to finding out just what their equipment is and just what their capacity would be for producing war supplies.

In addition to taking the inventory the committee proposes to instruct manufacturers in making war supplies and to organize to keep skilled workmen on the job in time of war by the formation of an industrial reserve.

The president's letter follows: "To the Business Men of America: I bespeak your cordial co-operation in the patriotic service undertaken by the engineers and chemists of this country under the direction of the Industrial Preparedness committee of the Naval Consulting board of the United States."

"The confidential industrial inventory you are asked to supply is intended for the exclusive benefit of the war and navy department, and will be used in organizing the industrial resources for the public use in national defense."

"At my request the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers, and the American Chemical society are gratuitously assisting the naval consulting board in the work of collecting this data, and I confidently ask your earnest support in the interest of the people and the government of the United States."

The naval and military heads at Washington, the chamber of commerce of the United States and the associated advertising clubs of the world are backing the work.

BERLIN IS FACED BY DILEMMA

Wants to Yield to U. S.; Must Placate Own People

EARLY REPLY IS EXPECTED

Attitude May Be Made Known Tonight or Wednesday

WASHINGTON, April 25.—Warning against over confidence in the pending negotiations with Germany was given by officials today. Awaiting receipt of an official outline of the German reply to President Wilson's final note on U-boats warfare, hope of a favorable settlement has been tempered somewhat by official word that Germany faces a very different task of convincing its own people of the justice of the president's demands.

There is no question the government of Germany wishes to avoid a break if possible, if German editorial comment which has been given President Wilson, is an indication. Official dispatches, on the other hand, suggest that the suddenness and force of the president's note has brought the imperial government face to face with the necessity of quick action at a time when it appears difficult to convince the people of its necessity.

It is believed this country may know the German position within a very short time—probably tonight or tomorrow. When the president left today for Princeton to vote, he requested that any news of importance received during the day from Ambassador Gerard be forwarded to him at once.

The president is familiar with the difficulties facing the German government, but he feels that this country...

12 KILLED DURING DUBLIN RIOTS FOLLOWING CAPTURE OF CASEMENT WITH ARMS FOR REVOLUTIONARIES

FINAL CHASE FOR VILLA IS UNDER WAY

Cavalry Pursuing Bandit Into Mountain Defiles

U. S. TO GUARD SUPPLY TRAIN

No More Interference By Mexicans to Be Tolerated

WASHINGTON, April 25.—Renewed hope of Villa's capture arose today in army circles upon receipt of official dispatches from Consul Letcher, at Chihuahua City, "reliably" locating the bandit chieftain 60 miles southwest of Satevo and west of Paral.

COLUMBUS, N. M., April 25.—A final dash after Villa was reported today to have been started by an American detachment while the main expeditionary forces were being concentrated at Namiquipa and Colonia Dublan.

A column of cavalry was said to be driving swiftly toward Villa's last reported hiding place in the Chihuahuas Sierras, near Nonopva. No details of the movement was obtainable here. Two new aeroplanes undergoing their final tests at the local camp were expected to join the chase for scouting in the rough country where the bandit leader is believed to be resting and regathering his followers.

The last of the 2,300 reinforcements ordered nearly a week ago, were expected here today. One troop of the Tenth cavalry has arrived and will immediately join its regiment in Mexico.

SAN ANTONIO, Tex., April 25.—Firm measures were ordered today to prevent Carranzistas in northern Mexico from hindering supply shipments to American troops. General Funston was said to have dispatched messages to General Pershing, ordering him to "meet the situation." The expeditionary forces have suffered severely as a result of Carranza commanders having seized railroad consignments, General Funston said. Food supplies for the men and loads of fodder for the cavalry horses have been held up and in some cases taken over by Carranzista commanders, ostensibly under orders from Carranza himself, it was stated.

Funston's move to prevent further seizures was not officially made public, but it was stated at headquarters that the American officials resent the action of the Carranza commanders and will take "firm measures" to safeguard the delivery of shipments both by rail and motor truck.

ROLLO ASKS LICENSE TO RUN SALOON

Alderman's Pull May Count In Getting Grant

NOW OPERATES LIQUOR PLACE

Uses Red Card of Booze Dealer Killed By Policeman

Ald. Joseph Rollo is, apparently, trying to use his influence as a member of the council to secure a saloon license.

It became known, Tuesday morning, that Rollo has been conducting a saloon at No. 838 Chenest, for several months. His friends in the city hall explained that no attempt had been made to keep this information from the newspapers, but, nevertheless, no mention of Rollo's latest business venture was made in the presence of reporters until an alderman inadvertently mentioned the fact during a discussion of liquor matters.

Rollo was asked by The Times if it were true that he was running a saloon.

"How the hell do I know? The newspapers seem to know all about my business," was Rollo's abrupt reply.

Investigation shows that Ald. Rollo is operating a saloon under a license granted to C. E. Cornelius for No. 787 Mt. Elliott-ave. Cornelius was shot and killed by a police officer several months ago. Rollo had the license transferred to No. 838 Chenest. The Cornelius license expires May 1, and Ald. Rollo is trying to get a new license. It is said that the Eleventh ward alderman had a verbal agreement with Frederick Sauck to purchase his license at No. 62 Mack-ave., and transfer it to the Chenest location. Later, Sauck got a better offer, accompanied by a cash consideration, to sell his license to David Shlesa and have it transferred to No. 733 Rivard-st. John Chiesia, David's father, had a license for the Rivard-st. location, but he died during the...

Young Bride of Aged Millionaire Ends Romance in Divorce Court

Effie Pope Alsop, whose marriage to the aged millionaire, Edward B. Alsop, of New York, caused a sensation four years ago, has been divorced on a charge of desertion. She was 29 and Alsop 75. She was famous for her beauty. They parted about two years ago.

Titled Plotter Likely to Escape Execution

CAUGHT TRYING TO LAND GUNS

Hoped to Foment Serious Revolt in Emerald Isle

BY UNITED PRESS. LONDON, April 25.—Grave riots broke out in Ireland yesterday, Augustin Birrell, chief secretary for Ireland, announced in the house of commons this afternoon.

The rioters seized the Dublin post office. Soldiers arriving from Curragh quelled the rioters after a street battle in which 12 persons were killed. The situation is now under control of the authorities, Birrell announced.

BY UNITED PRESS. LONDON, April 25.—Sir Roger Casement, whose capture off the Irish coast, spoiled a reckless attempt to foment disorder in Ireland, probably will escape execution, it was stated today.

Officials are said to be convinced that Sir Roger has been mentally unbalanced for the last three years. Despite his traitorous conduct after long years in the service of his country, he probably will be confined in some institution and closely guarded for the remainder of his life.

No incident in several weeks has so stirred the British public as the capture of Sir Roger Casement. The capture of Sir Roger and his German accomplices is expected to have a wholesome effect upon the situation in certain parts of Ireland, where sedition has been openly preached by the so-called Irish volunteers. The government expects to prove that German money is at the bottom of many of these disturbances and that Sir Roger Casement has directed the activities of some of the Irish societies since he turned traitor and fled to Germany.

Reports were received here early today of attempts to wreck a crowded excursion train southwest of Dublin. Railway employes who attempted to remove a telegraph pole...
